EVOLVE

Speaking matters.

EVOLVE is a six-level American English course for adults and young adults, taking students from beginner to advanced levels (CEFR A1 to C1).

Drawing on insights from language teaching experts and real students as well as being research informed, EVOLVE is a general English course that gets students speaking with confidence.

This student-centered course covers all skills and focuses on the most effective and efficient ways to make progress in English.

"EVOLVE is teacher friendly. We know that whatever we do, our students are going to achieve their goal – they're going to speak."

Debora Teixeira Menezes Guimaraes, Brazil

EVOLVE is a globally popular course that has been shaped by unique **insights** gained from our extensive **research**. EVOLVE Second Edition builds on the success of the First Edition by preserving everything you love and value while updating and improving the course to make it even more motivating, supportive, and relevant.

What's new in EVOLVE Second Edition?

1 Enhanced grammar support

Additional grammar support, particularly in the early levels, makes learning more intuitive, with extra practice to enable students to gain a deeper understanding of the language.

- Students now encounter examples of the language being used before analyzing the grammar rules.
- More context is provided within the grammar tables, with extra support for more complex points.
- Further practice, with two additional grammar activities in every unit to help build knowledge and confidence for the communicative activities at the end of every unit.

2 Refreshed design

A contemporary design gives EVOLVE Second Edition an eye-catching, fresh look. All-new unit-opener photos help students engage with a range of themes.

3 New Reading and Listening

A selection of the reading and listening texts have been updated with contemporary, high-interest topics from around the world, helping to keep students motivated.

4 New videos

- **All new Real Student videos.** These videos feature students from a wide range of countries and cultures discussing new, up-to-date topics.
- **Selected new documentary videos.** Several of the documentaries have been replaced at every level to ensure content is current and of high interest. They can be found on the Cambridge One platform.

5 Sustainability

Sustainability is at the heart of everything we do at Cambridge University Press & Assessment, and this is reflected in EVOLVE Second Edition. Sustainability themes and content are embedded throughout the course.

6 Enhanced accessibility

Several key design changes have been made to the Student's Books to make the content more accessible for SEN (special educational needs) learners. These changes include more straight rather than tilted type, extraneous colors and icons removed, and simplified typography. Where possible, text is now in one column to simplify reading order.

Student-generated content

Student-generated content is one of the key features of EVOLVE. We spoke to more than 2,000 students from all over the world about the topics they would like to discuss in English and in what situations they would like to be able to speak more confidently.

Real Student videos

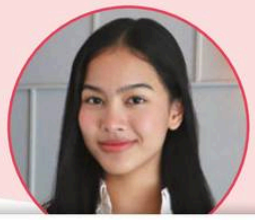
In EVOLVE Second Edition, we welcome a whole new cast of **Real Students** who feature in bite-sized videos throughout each book, ensuring that the material is interesting, relatable, and reflects the realities of our students' lives. The Real Students come from a wide range of countries, making EVOLVE Second Edition a truly international coursebook. Let's meet them!

Zatiamari Alves Siqueira da Silva
Casa Thomas Jefferson, Brazil

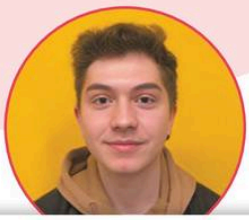
Ricardo Alejandro Proaño Villalva
Universidad Indoamérica, Ecuador

Marin Kanno
Keiai University, Japan

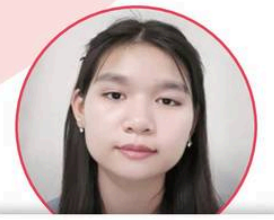
Nozomi Yato
Keiai University, Japan



Phetcharawan Bunyawat
Bangkok University, Thailand



Arda Şen
Nişantaşı University, Türkiye



Puntita Lesaen
King Mongkut's University of Technology, Thailand

The Real Student videos have a number of benefits. They:

- **Serve as an ideas prompt.** Students are prompted to think of their own answers to discussion questions in the book.
- **Provoke a response.** Students may find they agree or disagree with the featured speaker and want to react to what they say.
- **Demonstrate attainable speaking models.** The speakers are of a similar level to the students using the book. This gives them the confidence to try for themselves!

The videos are accessed using QR codes seen at different points throughout the book.

Time to speak

Students' progress in English is usually measured by how confident they feel speaking when they are faced with a real situation. To make the most of speaking opportunities in the classroom, students need a "safe speaking environment" where they feel confident, supported, and able to experiment with their English. That's why EVOLVE has dedicated the final lesson in each unit to speaking: **Time to speak**.

These lessons focus on a task with a cognitive challenge beyond language learning, which requires students to collaborate. These immersive activities include decision-making, negotiating, and problem-solving.

"EVOLVE also builds students' confidence by preparing them for everyday conversations."

Elena Farkas (U.S.A.)

Key features

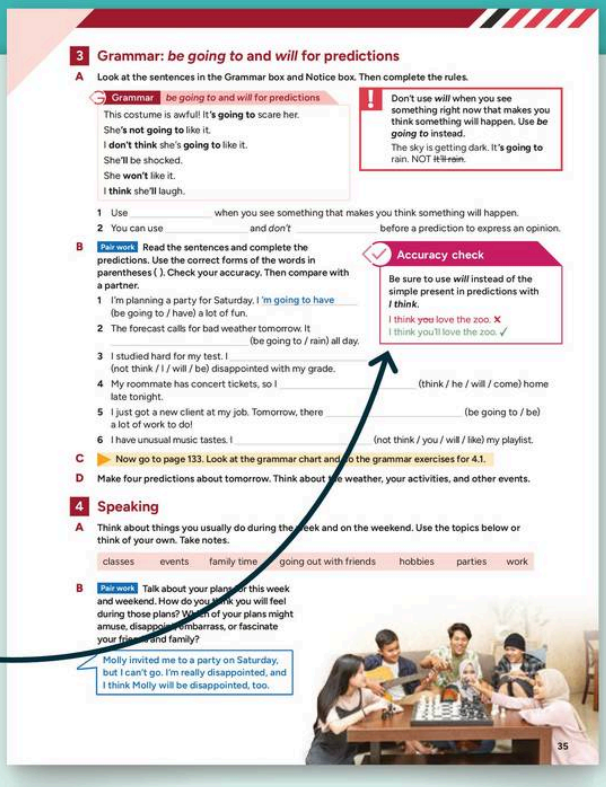
Accuracy check

The **Accuracy check** feature shows students the most common errors that occur in written and spoken English and explains how to avoid them. These common learner errors are determined by using our unique research tool, the Cambridge Learner Corpus, and can be used for self-editing.

Accuracy check

Be sure to use *will* instead of the simple present in predictions with *I think*.

I think ~~you~~ love the zoo. ✗
I think you'll love the zoo. ✓



3 Grammar: *be going to* and *will* for predictions

A Look at the sentences in the Grammar box and Notice box. Then complete the rules.

Grammar *be going to* and *will* for predictions

This costume is awful! It's **going to** scare her.
She's **not going to** like it.
I **don't think** she's **going to** like it.
She'll be shocked.
She **won't** like it.
I **think** she'll laugh.

Don't use *will* when you see something right now that makes you think something will happen. Use *be going to* instead.
The sky is getting dark. It's **going to** rain. NOT ~~It'll rain.~~

1 Use _____ when you see something that makes you think something will happen.
2 You can use _____ and *don't* _____ before a prediction to express an opinion.

B Pair work Read the sentences and complete the predictions. Use the correct forms of the words in parentheses ( ). Check your accuracy. Then compare with a partner.

1 I'm planning a party for Saturday. I'm going to have (be going to / have) a lot of fun.
2 The forecast calls for bad weather tomorrow. It _____ (be going to / rain) all day.
3 I studied hard for my test. I _____ (not think / I / will / be) disappointed with my grade.
4 My roommate has concert tickets, so I _____ (think / he / will / come) home late tonight.
5 I just got a new client at my job. Tomorrow, there _____ (be going to / be) a lot of work to do!
6 I have unusual music tastes. I _____ (not think / you / will / like) my playlist.

Accuracy check
Be sure to use *will* instead of the simple present in predictions with *I think*.
I think ~~you~~ love the zoo. ✗
I think you'll love the zoo. ✓

C Now go to page 133. Look at the grammar chart and do the grammar exercises for 4.1.

D Make four predictions about tomorrow. Think about the weather, your activities, and other events.

4 Speaking

A Think about things you usually do during the week and on the weekend. Use the topics below or think of your own. Take notes.

classes events family time going out with friends hobbies parties work

B Pair work Talk about your plans for this week and weekend. How do you think you will feel during those plans? Which of your plans might amuse, disappoint, embarrass, or fascinate your friends and family?

Molly invited me to a party on Saturday, but I can't go. I'm really disappointed, and I think Molly will be disappointed, too.

6.2 Intelligent solutions

Lesson objective
- talk about problems and solutions

1 Language in context

A Look at the photo. Do you think the paintings make the area look better or worse? Why?

B 6.02 Read and listen to the radio show. What three problems do the people talk about?

C 6.02 Read and listen again. What are the solutions to the problems?

6.02 Audio script

Host Today we're talking trash, along with other community problems. These problems can take a lot of time and money to fix, but sometimes solutions are easier than you think. We asked community members for their ideas.

Margot Garbage is a big problem. And if there is a lot of garbage in the street, people often leave more trash there. They see garbage and think it's OK to add a little more. But if you keep the area clean, people will think twice before throwing trash on the street.

Josh Graffiti makes local business owners angry. But if you make a special area for graffiti, people won't paint on other buildings. Many graffiti artists paint beautifully and can really improve an area.

Frida Noise at night is a common problem. When you speak angrily to noisy neighbors, they just keep making noise. But if you talk to them calmly and politely, they'll probably listen. And if you explain your feelings clearly, they will understand.

Host So, some interesting ideas. They may not work in every community, but some of them just might in yours!

D Group work Do you think the community members' solutions from the radio show in exercise 1C will work? Why or why not?

Insider English
We use *think twice* to mean think about something again, more carefully.

2 Vocabulary: Adverbs of manner

A 6.03 Listen and repeat the words. Which words are positive? negative? neutral? Then find and underline five of the words in the conversation in exercise 1B.

angrily beautifully calmly clearly completely correctly
dangerously loudly politely quietly safely

B Pair work Ask and answer the questions.

1 Do you play music loudly or quietly?
2 How should people behave in nature to respect plant and animal life?
3 Who do you know that drives safely? Dangerously?
4 Why is it important to recycle materials correctly?

C Now go to page 150. Do the vocabulary exercises for 6.2.

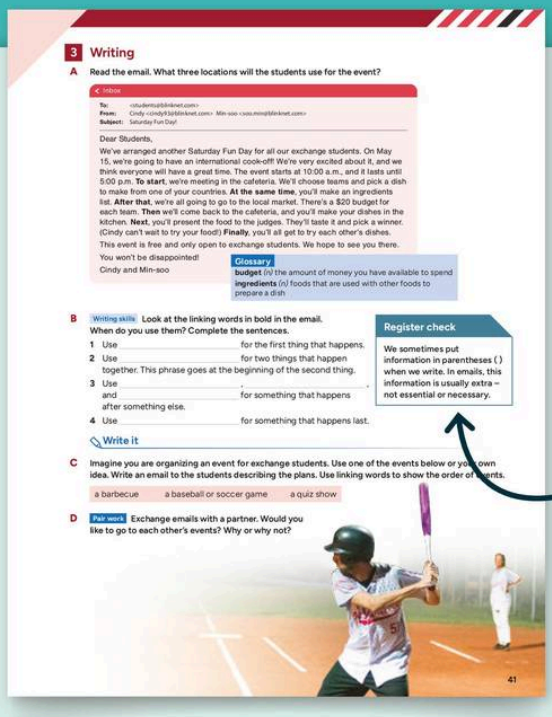
56

Insider English

Even in a short exchange or conversation, idiomatic language can inhibit a student's understanding. That's why we have **Insider English**. This feature focuses on the informal language and colloquial expressions frequently found in everyday situations, helping students become more confident about communicating in the real world.

Insider English

We use *think twice* to mean think about something again, more carefully.



Register check

Teachers often report that their students struggle to master the differences between written and spoken English. The **Register check** feature in EVOLVE draws on research into the Cambridge English Corpus and highlights potential problem areas. Students learn to recognize different levels of formality and understand when to use them appropriately.

Register check

We sometimes put information in parentheses ( ) when we write. In emails, this information is usually extra – not essential or necessary.

Find it

Research with hundreds of teachers and students across the globe has revealed a desire to bring the real world into the classroom. With the **Find it** activities, EVOLVE is helping to make that happen. These mobile-friendly tasks allow students to bring live content into the class and personalize their learning experience with research and group activities. These activities are always optional, meaning the teacher can choose whether to include them as part of the lesson.

Digital content

EVOLVE's digital content is available on the **Cambridge One** platform. Here, students can access the eBook and students with a Digital Pack will also find further practice and resources to support their learning. Instructions on how to access the digital content on Cambridge One can be found on the inside front cover of this book.

8.1 Saying and doing

Lesson objective
- talk about what you've been doing

1 Language in context

A Group work Look at the sayings. What do they mean? You can go online to learn more about these sayings.

1 Work hard, play hard.
2 No pain, no gain.
3 You only live once.
4 Variety is the spice of life.
5 Actions speak louder than words.

Find it

B 8.01 Read and listen to three people talking about their lives. What is each person doing these days?

C 8.01 Read and listen again. Match a saying in exercise 1A to each person. There are two extra sayings.

What have you been doing lately?

Clarisa
I have an opportunity to work in Türkiye next year. I think it'll be an interesting experience, but it's going to be a challenge because I need to be able to speak the language. So, I've only been doing one thing lately – studying Turkish. It's a difficult job, so I haven't been going out at all. But that's OK. It'll be worth it.

Derek
At work, I've been designing a new company logo. It's not easy, but I'm getting there. I think it will be a big success as well as a personal achievement for me. It's not the only thing in my life, though. I joined a bike club, and we ride together in the evenings. It's a nice change after sitting in front of a computer all day. Now I just need to make time for family and friends!

Shi-ah
I've been doing lots of things lately! I've been planting a garden in my yard – that's a fun project. I've also been learning to make sushi. It's a long process, but I'm getting better at it. And of course, I always have chores, like doing the dishes or the laundry. Yeah ... it's a challenge to fit in everything I want to do. But that's what makes life interesting!

2 Vocabulary: Describing experiences

A 8.02 Listen and repeat. Then find and underline these nouns in the text in exercise 1C.

achievement opportunity | challenge process | change project | chore | job success

B Pair work Ask and answer the questions.

1 What is an annoying chore you have to do at home?
2 What's your biggest achievement?
3 What is one change that has happened in your life that was good?
4 What is one change that has happened in your life that was bad?
5 Who has given you a good opportunity in the past? What was it?

C ▶ Now go to page 152. Do the vocabulary exercises for 8.1.

Insider English
We use *It's worth it* and *It'll be worth it* to show that something is useful or enjoyable even though it takes a lot of effort.

76

D Pair work Look at the sayings in exercise 1A. Which one do you agree with the most? Why? For ideas, watch Nozomi's video.

Real student
Which saying does Nozomi talk about?

3 Grammar: Present perfect continuous

A Look at the sentences in the Grammar box and the Notice box. Then circle the correct option to complete the rule.

Grammar Present perfect continuous
What **have** you **been doing**?
I've **been painting** pictures of nature.
I **haven't been going out** at all.

To make the present perfect continuous, use *have* + **be / been** + verb + *-ing*.

! Use *have*, *haven't*, *has*, or *hasn't* in short answers. Do not use *been*.
Have you been going out?
Yes, I have. / No, I haven't.

B Complete the conversations with the correct form of the words in parentheses ( ). Then check your accuracy.

1 A What _____ lately? (you / read)
B _____ a lot of travel blogs. (I / read)
2 A _____ recently? (you / eat out)
B No, _____ at home. (I / cook)
3 A How _____ to class these days? (you / get)
B _____ me to class. (my sister / drive)
4 A Where _____ ? (you / study)
B _____ at the library lately. (I / study)

Accuracy check
Remember to use the correct form of *have* with the present perfect continuous.
~~I'm having~~ been studying a lot lately. ✗
I've been studying a lot lately. ✓

C Pair work Practice the conversations from exercise 3B. Change the answers so they're true for you.

What have you been reading lately?
I've been reading some new comic books.

D ▶ Now go to page 138. Look at the grammar chart and do the grammar exercises for 8.1.

C Group work Work with another pair. Talk about the activities you discussed in your pairs. Whose activities are the most difficult? Whose are the most interesting?

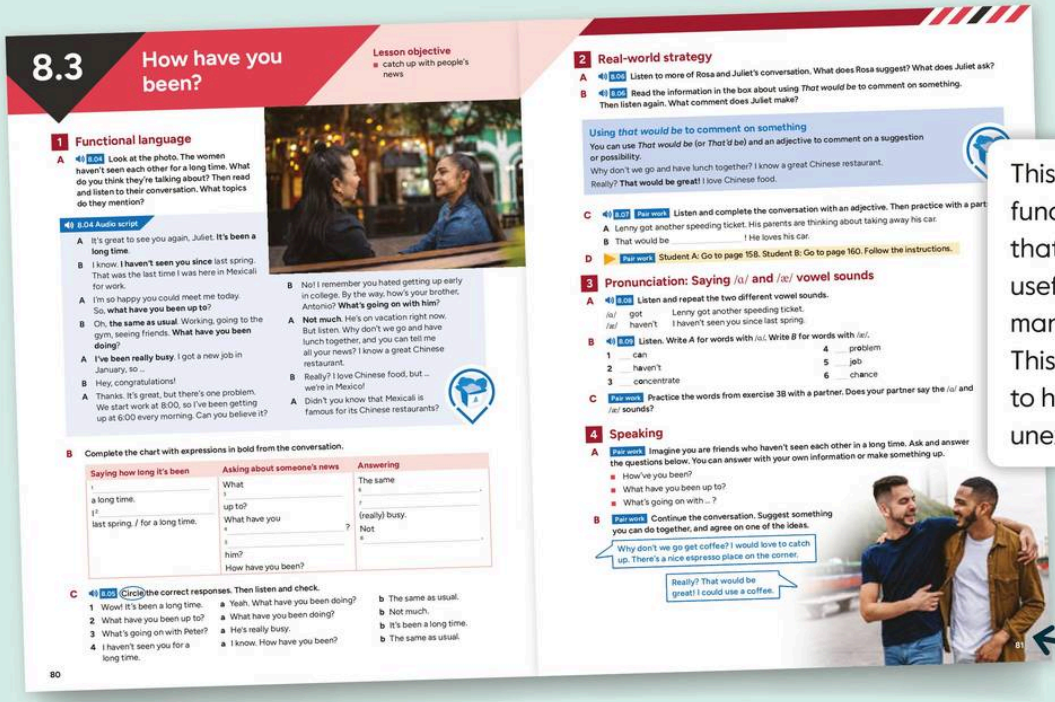
Lessons 1 and 2

These lessons present and practice the unit vocabulary and grammar in context, helping students discover language rules for themselves. Students then have the opportunity to use this language in well-scaffolded, personalized speaking tasks.

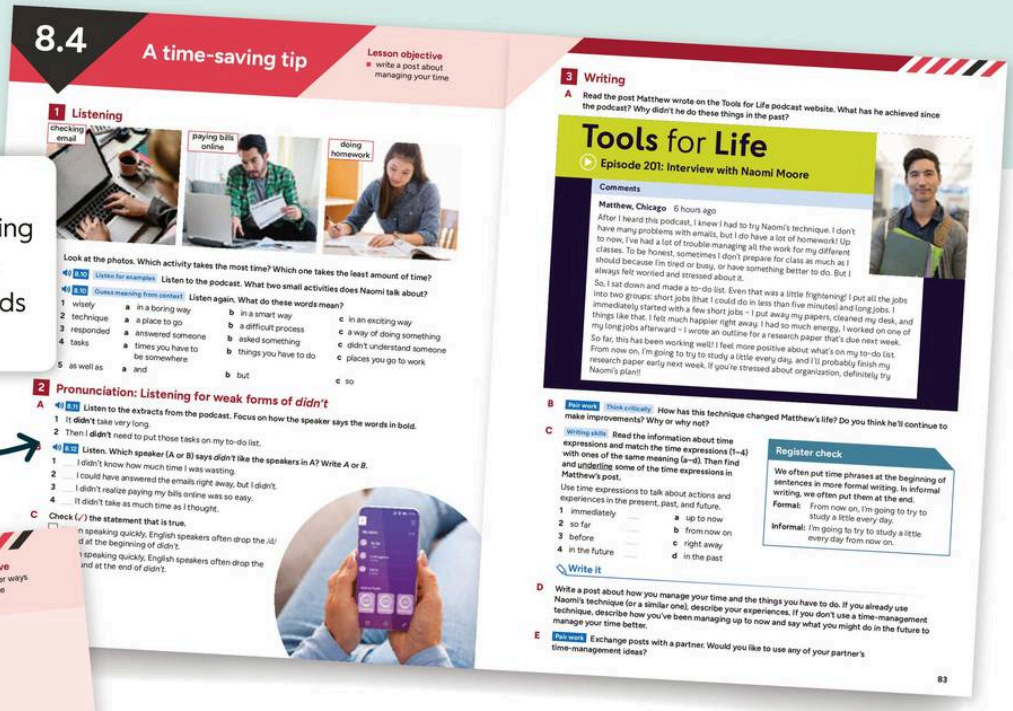
Lesson 3

This lesson is built around a functional language dialogue that models and contextualizes useful fixed expressions for managing a particular situation. This is a real-world strategy to help students handle unexpected conversational turns.



Lesson 4

This is a combined skills lesson based around an engaging reading or listening text. Each lesson asks students to think critically and ends with a practical writing task.



Lesson 5

Time to speak is an entire lesson dedicated to developing speaking skills. Students work on collaborative, immersive tasks that involve information-sharing and decision-making.

1.1 What's your personality?

Lesson objective
- talk about people's personalities

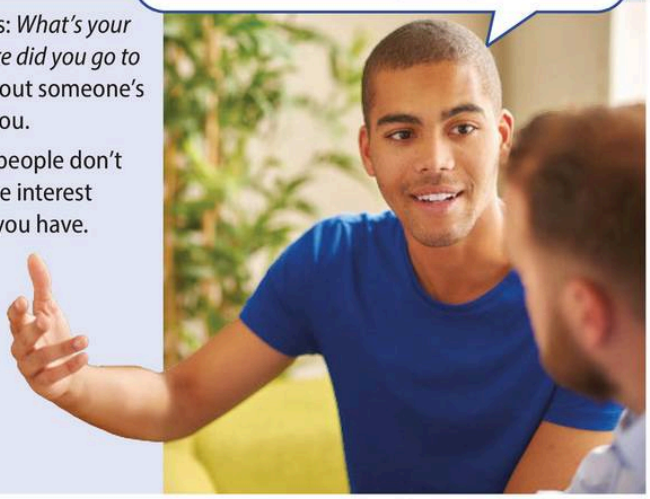
1 Language in context

A **Pair work** Do you meet new people often? Where do you meet them? Who have you met lately?

B Read the article. How does Kenneth say you can learn about someone?

What kind of person are you?

The answer is in your questions.



How do you get to know someone new? You can ask a lot of questions: *What's your name? Whose class are you in? Which neighborhood do you live in? Where did you go to school? What kind of work do you do?* But the answers don't tell you about someone's personality. I think it's best to *listen* to the questions that people ask you.

A **sociable** person, for example, will ask you a lot of questions. Quiet people don't ask you much. The same is true about **selfish** people – they show little interest in other people. Or imagine you're telling someone about a problem you have. A **generous** person might ask, "How can I help?" But if you ask someone for help first, and they agree, are you sure they're really **helpful**? Or are they just afraid to say "no"?

So, the next time you meet someone, ask less, and listen more. The questions people ask show more about their personalities than their answers do.

Kenneth Spears

C **Pair work** Read the article again. Do you agree with Kenneth? Why or why not?

To: Elin Hansen <elin953Hansen@blinknet.com>
From: Andrew Bennett <and.bennett@mymail.org>
Subject: Your American cousin

Hi Elin,

I'm writing because I want to get in touch with the Norwegian side of the family. My Aunt Joan got your email address from your mom. Aunt Joan says you're one of my cousins, and you're about my age – 23. I just finished my degree in economics at North Dakota State University in Fargo. Fargo is the biggest city in North Dakota, and I live there with my parents.

I'd like to know about you and what you're interested in. Are you a student, or do you work? What kind of music do you like? Aunt Joan says you live in Oslo. Can you tell me what it's like? And is it true that everyone in Norway is really into winter sports? Sorry for all the questions, but this is an unusual situation – we're strangers, but we're also family. 😊

Our side of the family moved to North Dakota from Norway a long time ago. They had a farm in the Red River Valley in North Dakota, and the old house is still there (see attached photo).

Hope to hear from you soon.

Andrew

Subject: Re: Your American cousin

Hi Andrew,

[1] Thanks for your email. It's great to hear from you!

[2] You asked about me. Well, I'm 24, I graduated this spring, and I'm working in an architect's office now. In my free time, I get together with friends, go shopping, go hiking, and chat with family and friends online. Oh, and I like all kinds of music.

[3] Oslo is the capital of Norway and is its biggest city. It's a nice place to live because people are friendly and sociable. It's full of great museums and restaurants, and people walk and ride bikes a lot around the city. I don't know if everyone in Norway is into winter sports, but it's true that a lot of us enjoy snowboarding, hockey, and skiing (see attached photo of me).

[4] I'd love to hear about Fargo. I wonder what people do for fun there. Can you tell me more about your family? Do you have any brothers or sisters? What do you do in your free time? Also, do you know who lives in the old house in the Red River Valley now?

[5] This is so interesting! Let's stay in touch.

Elin

B Writing skills **Read about paragraphs. Then match the paragraphs of Elin's email (1–5) to the topics she writes about (a–e).**

2.1 My garage

Lesson objective
- talk about things you've had for a while

1 Language in context

A Look at the photo. What are the people doing? Why do you think they're doing it?

B Read Ethan's social media post about what's in his garage. Check (✓) the things he mentions.

☐ bikes	☐ a bookcase	☐ clothes	☐ comic books
☐ dishes	☐ souvenirs	☐ toys	☐ computer games

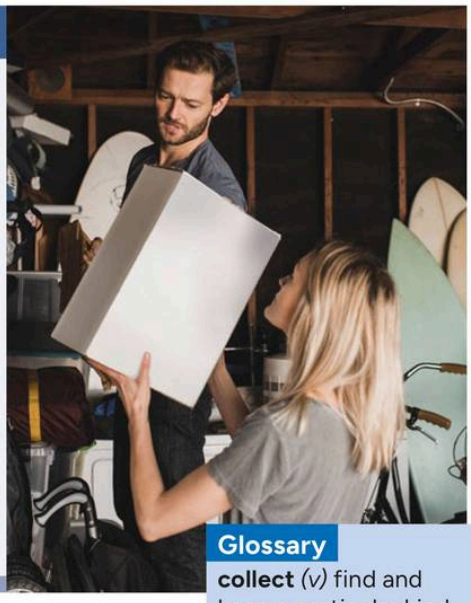
Profile | **Wall** | **Friends**

It's time for a big cleanup! Have you ever felt that way? We've lived here since 2019, but a lot of our stuff is still in the garage. Our car has been outside for two years! 😉

So, we've finally decided to do something with all of the stuff. But I've never sold anything in my life, so I'm not sure which things people will want to buy and which things are useless.

For example, we have two old bikes. We haven't ridden them for years. I have some boxes of comic books. I've had them since I was 12, but they're in good condition. I also found a box of outdated computer games. A friend gave them to me, but I've never actually played them. There's also a brand new bookcase in the garage. It's plain, but it's OK. And I've collected a lot of travel souvenirs over the years: pictures, plates, hats … They're all in a big box. I have no idea if anyone else would think they're special.

So, if you have any ideas about what I can sell – great! And if you want to buy something – even better!



Glossary

C Read the social media post again. Which items do you think Ethan can sell? Why?

3 plain	___	c	common

2 Do you have items at home that are damaged, outdated, or useless? Why do you keep them?

Volunteer at the Earth Day Festival

Are you good with people? Do you know the city well? Then maybe you can help ...

We're looking for volunteers to help at the **Earth Day Festival**. Next year, this amazing festival will bring together speakers from more than 20 countries. Singers, dancers, and musicians will also come from those countries to celebrate Earth with live performances. And it will happen right here, in the parks and on the streets of our city, April 20–22.

We're looking for:

Talent Helpers: You'll meet guest speakers and performers at the airport when they arrive and help them get to their hotels. At the hotel, you'll tell them where they should go for festival events and how to get there. You'll also help them with the schedule and organization of the festival.

City Guides: You'll stand on sidewalks around the city and help visitors find their way around. You'll also give advice on things to see and do during the festival.

If you're a student, volunteering is a smart career move. This position is unpaid, but we'll give you a certificate to show you helped at the event – a useful experience that you can put on your résumé.

If you are interested, complete the **application** in English.

Volunteer Application

Last name: Ramirez

First name: Fernanda

Personal Statement
In 100-150 words, explain why you're the right person to be an Earth Day Festival volunteer.

Position: City Guide

The volunteer job of City Guide is perfect for me. I am fluent in Spanish and English, and I'm learning Japanese and Arabic in college. Fortunately, your festival happens during my spring break, so I am free to help all day from April 20th to the 22nd. I am very interested in world cultures and have organized two cultural events at my school. I've never worked at a big festival or volunteered before, but I'm excited to try. I was born and raised in this city and have lived here all my life, so I know the transportation system well. I am also familiar with different neighborhoods because I have studied, worked, and lived in a few parts of the city. For these reasons, I think I would be an excellent City Guide.

B Think critically **Do you think Fernanda will be a good City Guide? Why or why not?**

C Writing skills **Accuracy is important, especially in a volunteer or job application. Read about how to check your own writing. Find examples in Fernanda's personal statement.**

Punctuation: Use capital letters at the beginnings of sentences and for job titles, names, places, months, languages, and nationalities.
Put a period (.), exclamation mark (!), or question mark (?) at the end of each sentence.
Use a comma before *but* and *so*. There's no comma before *because*.

Grammar: Use the present perfect for experiences in your life up to now.

Write it

D **Imagine you're applying to be a City Guide or Talent Helper. Write a personal statement for the volunteer application. You can use your own information or make it up. Check your writing after you are finished.**

E Pair work **Exchange personal statements with a partner. What was the best reason your partner gave for wanting the job?**

Register check

It's important to be clear in formal writing, like an application. We often repeat information, like job titles, to make sure we are clear.

The volunteer job of City Guide is perfect for me. (**NOT:** The volunteer job is perfect for me.)

I think I would be an excellent City Guide. (**NOT:** I think I would be excellent at this job.)

5.1 Lost ... and then found

Lesson objective
- talk about lost and found things

1 Language in context

A Read the title of the article and look at the photos. How do you think the rings were lost? How long were they lost? Then read the stories and check your ideas.

Rings that returned ...

... from the sea

In 1979, soon after he got married, Agustín Aliaga lost his wedding ring. As he swam in the Mediterranean Sea near Benidorm, Spain, the ring fell off his finger and disappeared. He searched for it in the water but didn't find it, of course. So, he left it behind. In 2016, a diver, Jessica Cuesta, discovered the ring at the bottom of the sea. She posted a message online and asked people to help her find the owner. The post was shared 80,000 times. Finally, Agustín saw it and contacted Jessica, who returned the ring to him … 37 years after he lost it.

... and the earth.

Canadian Mary Grams was 71 when she dropped her engagement ring in her vegetable garden. She looked everywhere, but she didn't locate it. She didn't want to tell her husband the ring was lost, so she bought a new one that looked almost the same. Thirteen years later, the old ring suddenly appeared. Amazingly, it was wrapped around a carrot in her garden! So, at age 84, Mary got her ring back. It was in perfect condition and still fit her finger – but it was clearly too small for the carrot!

B Read the stories again. How did social media help Agustín get his ring back? How did Mary get her ring back?

2 Vocabulary: Losing and finding things

A 5.01 Listen and repeat the words. Underline these words in the articles in exercise 1A. Which words are about losing something? looking for something? finding something? Make three lists.

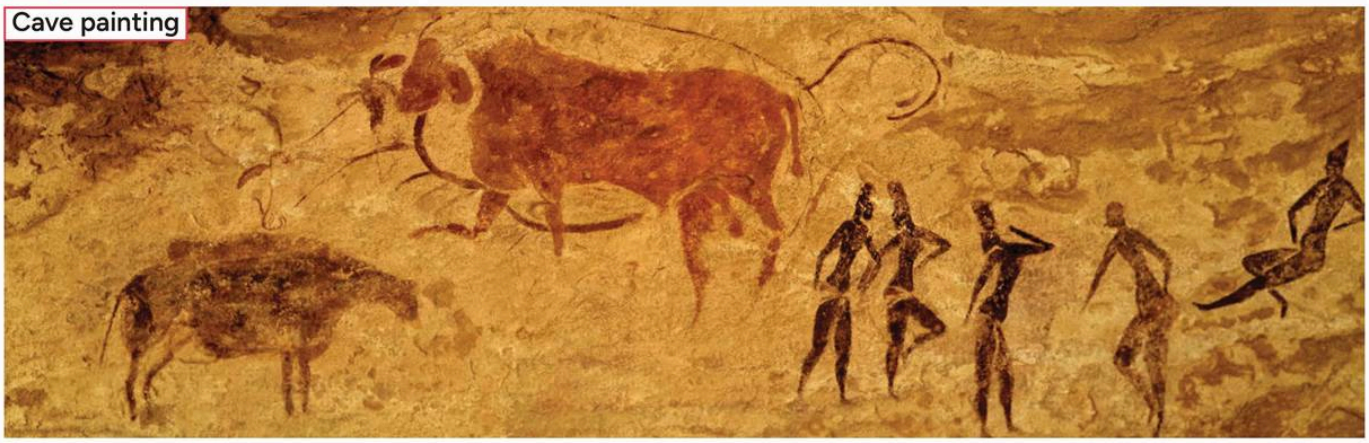
5.4 Storytelling

Lesson objective
- write a short story

1 Reading

Cave painting



A Look at the photo of the cave painting. What story do you think it tells?

B Scan Scan the article. What are the four "S"s?

Author Q & A: The Art of Storytelling

Everyone loves a good story. Why? And what makes a story good? I discussed the topic with author Rhonda Howard.

Q Why do people like stories?

A A story makes you feel like you're experiencing something, and people enjoy this. Storytelling is very old. Think of cave paintings. Those are examples of people sharing stories – in a very simple way.

Q But our stories are more complicated today, right?

A Well, not always. And sometimes the best stories are simple ones.

Q Speaking of the best stories, what makes a story good?

A I narrowed it down to the four "S"s of storytelling. We already talked about the first S: *Simple*. People often like stories with ideas and language that are easy to understand. We discussed the second S, too: *Shared experiences*. People don't need to actually experience the events in the story, but they want to feel like they did. And this leads us to a famous storytelling S: *Show, don't tell*.

Q I've heard that. What does it mean?

A Here's a quick example: "Jorge was walking into his house when he saw an animal." That's telling. "Jorge was nervously walking into his dark living room when two large, yellow eyes appeared in front of him." That's showing!

Q I get it – I felt like I was walking with Jorge in the second example.

A Exactly!

Q So, what's the fourth S?

A Surprise! People love surprises – especially at the end of the story.

Mystery Photos

by **Akari Bando**

When I was 28, I moved into my first house. It was summer, and it was very hot. One morning, I decided to put some boxes in a closet and finish unpacking on a cooler day. While I was moving the boxes, I discovered an old roll of film in the closet. I found a place to develop it. A week later, I got the photos. They were of an elderly woman I didn't recognize. There were photos of her sitting on a park bench in every season. The area was beautiful, and I knew I had to find it. I carefully looked for clues. I noticed a lot of pink flowers. It looked like Hanegi Park. I went to the park, and I searched and searched until I found the bench. There was a man sitting on it. He was taking pictures of the flowers when I sat next to him. He said, "My grandmother brought me here when I was young to take photos with her camera." Then I handed him a photo and asked, "Is this your grandmother?" To our surprise, it was!

Start speaking

A Look at the photo. What do you know about these sources of power? How do you feel about them?

B Talk about different sources of power. Which ones have a positive impact and which ones have a negative impact?

6.1 Moving to a megacity

Lesson objective
- talk about urban problems

1 Language in context

A Look at the photos. How do you think life is different in these two places?

B Read the blog. What is interesting about Dan's situation? Who is he writing his blog for?

C Read the blog again. What things in Los Angeles does Dan like? What doesn't he like?

I'm Dan. I just moved from Barrow, Alaska, to Los Angeles, California for college. I'm a small-town boy writing about big-city life for students like me!

L.A. Update!

I've been in my new city for two weeks now. Living in Los Angeles has been a really big change. Here are some things I never had to worry about in Alaska:

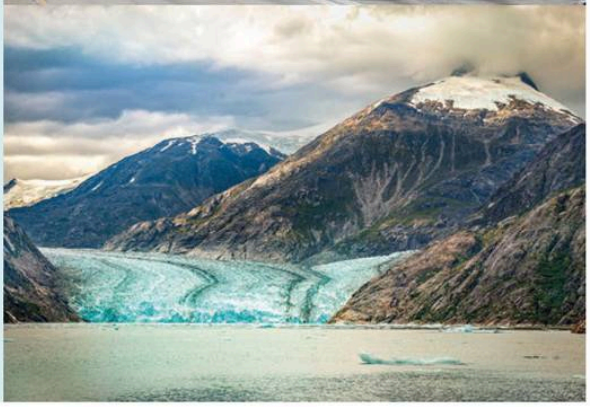
Pollution: There's so much traffic, and it makes the air so dirty. Plus there's smoke in the air from factories. And since I arrived, there's been almost no wind, so the air is never really clean.

Concrete: Sometimes I see a few trees and a little grass here and there, but almost all of the land between buildings is concrete. Sometimes there is graffiti on the buildings, too, which I don't like.

Noise: I expected a lot of noise during the day, but I'm really surprised how much noise there is at night. In Alaska, there's almost none. Here I wake up several times a night.

Crowds: L.A. is a megacity (more than 10 million people). Because it's so crowded, there's very little space. But I love living close to so many people. There's stuff happening all the time.

Heat: It's a lot hotter here than in Alaska. I actually like that – but I need to buy some cooler clothes!



2 Vocabulary: Urban problems

A 6.01 Listen and repeat the words. Find and underline nine of these words in the blog post in exercise 1C. Then use all of the words to complete the paragraphs below.

air	concrete	graffiti	land	noise	pollution
smoke	space	traffic	traffic jam	trash	

Cities are full of cars, so there's often [1] _____ on the roads. This often leads to a [2] _____, which means delays. Public transportation is a better option. The cars also cause [3] _____, along with the [4] _____ from factories, and dirty [5] _____ is bad for our health. You can also hear the [6] _____ of the traffic all over the city.

Cities can be ugly, too. Most of the [7] _____ has high-rise buildings and [8] _____ sidewalks on it. However, many cities are trying to create green [9] _____ for people to enjoy.

Another problem is that people in cities produce tons of garbage. Some people leave their [10] _____ on the street. There's [11] _____ on some buildings, and even if it looks nice, business owners usually don't like it. Hopefully, more of these problems will be solved in the future.

B Now go to page 150. Do the vocabulary exercises for 6.1.

C **Pair work** Which urban problems does your city or town have? For ideas, watch Marin's video.

6.2 Intelligent solutions

Lesson objective
- talk about problems and solutions

1 Language in context

A Look at the photo. Do you think the paintings make the area look better or worse? Why?

B 6.02 Read and listen to the radio show. What three problems do the people talk about?

C 6.02 Read and listen again. What are the solutions to the problems?

6.02 Audio script

Host Today we're talking trash, along with other community problems. These problems can take a lot of time and money to fix, but sometimes solutions are easier than you think. We asked community members for their ideas.

Margot Garbage is a big problem. And if there is a lot of garbage in the street, people often leave more trash there. They see garbage and think it's OK to add a little more. But if you keep the area clean, people will think twice before throwing trash on the street.

Josh Graffiti makes local business owners angry. But if you make a special area for graffiti, people won't paint on other buildings. Many graffiti artists paint beautifully and can really improve an area.

Frida Noise at night is a common problem. When you speak angrily to noisy neighbors, they just keep making noise. But if you talk to them calmly and politely, they'll probably listen. And if you explain your feelings clearly, they will understand.

Host So, some interesting ideas. They may not work in every community, but some of them just might in yours!

D Group work Do you think the community members' solutions from the radio show in exercise 1C will work? Why or why not?

Insider English

We use ***think twice*** to mean think about something again, more carefully.

B Pair work Ask and answer the questions.

1 Do you play music loudly or quietly?
2 How should people behave in nature to respect plant and animal life?

C Now go to page 150. Do the vocabulary exercises for 6.2.

3 Grammar: Present and future real conditionals

A Look at the sentences in the Grammar box. Then circle the correct options to complete the rules.

Grammar Present and future real conditionals

Present real conditionals	Future real conditionals
If there **is** a lot of garbage in the street, people often **leave** more trash there.	**If** you **explain** your feelings clearly, they **will understand**.
When you **speak** angrily to noisy neighbors, they **just keep** making noise.	**If** you **make** a special area for graffiti, people **won't paint** on other buildings.

1 For present real conditionals, use the **simple present** / **simple past** for the condition and the result.

2 For future real conditionals, use **the simple present** / **will** for the condition and **the simple present** / **will** for the result.

B Now go to page 136. Look at the grammar chart and do the grammar exercises for 6.2.

C Complete the sentences with your opinion. Use the simple present or the future with *will*.

Present Situations:

1 If people throw trash in the street, _____ .

3 I speak politely when _____ .

Future Situations:

4 If a store clerk speaks angrily, _____ .

5 I won't listen to you if _____ .

6 If we don't recycle correctly, _____ .

> **!** **The order can change. There is no comma when the *if* clause is second.**
>
> They **will understand if** you **explain** your feelings clearly.

D Pair work Share your answers from exercise 3C. Were any of your answers similar?

4 Speaking

A Read the three city problems and solutions. Add a problem you want to solve and an idea for a solution to the chart.

Problem	Solution
noise	People have to be quiet before 8:00 a.m. and after 10:00 p.m.
pollution	People have to use bikes or electric cars.
traffic	People have to drive with two or more people in a car.
_____	_____

Find it

B Pair work Do you think the solutions in exercise 4A will work? Why or why not? Does your partner agree?

I don't think a rule with times to be quiet will work. If people work in the morning or come home late, it's hard to be quiet.

I disagree. People don't have to be quiet all the time. If they think of others, they'll speak quietly early in the morning and late at night.

6.04 Audio script

A I'm really happy you made it home. **Are you all right**?

B Yeah, I'm fine.

A **I'm so relieved**.

B I can't believe my bus broke down in the middle of the longest tunnel in the city!

A I know. I saw it on the local news before you texted me. At first, they said the bus was on fire. **I was really worried**! Then they said there was no fire, just a lot of smoke.

B It's true there was a lot of smoke.

A **Was everyone OK**?

B Yes. No one was hurt.

A **I'm glad to hear that**.

B Yeah, and the bus driver was great. She helped everyone stay calm until the police came. Then we all walked out of the tunnel, and they put us on another bus.

A **What a relief**! I'm glad it's over. And I'm glad I wasn't in the traffic jam behind your bus!

B 6.06 **Read the information in the box about using *though* to give a contrasting idea. Then listen again. What is Marina's contrasting idea? What did she say before that?**

Using *though* to give a contrasting idea

We can use *though* when we say something that contrasts an idea that was already said. It goes at the end of a sentence, after a comma.

Was everyone OK?

Yes. No one was hurt. It was a dangerous situation, **though**.

C 6.07 Pair work **Listen to another conversation and complete the contrasting idea. Then practice with a partner.**

A Did you go to the street festival last night? I heard there were some problems.

a having a good public transportation system

c having a city program for using bikes to get around

C 6.10 **Listen for specific information** Listen again. What benefits of the city concept do the speakers talk about?

B 6.12 Listen. Write the missing words.

3 I walk _____ many stores in my neighborhood.

C Circle the correct option to complete the statement.

The words *than*, *of*, and *to* are often **stressed** / **reduced** in fluent speech.

3 Writing

A **Read the comment by SensibleGuy, responding to Riku's podcast. What problems does he write about that Riku and Luna don't mention?**

SensibleGuy wrote: Podcast

I think the 15-minute city is an interesting idea, but it won't work in our city. Where are we going to put new schools, hospitals, and supermarkets? Nowhere because there isn't enough space in most neighborhoods to make everything close by. Riku and Luna say it can be expensive to create new buildings, but I think it's impossible!

According to Luna, the 15-minute city would solve traffic problems. If everyone in a car were on a bike, we'd have a bike problem. Our streets aren't designed for bikers. Can you imagine how many accidents there would be? Too many! I think it's a better idea to improve public transportation.

Also, wouldn't it be boring if we all stayed in our own neighborhoods for work and services? Of course it would! I like going to the different parts of our diverse city.

Finally, I don't think this concept would work for smaller cities. I doubt there are enough people to use services in such a small space.

I agree cities could do things that are better for the planet, but a 15-minute city plan isn't the answer. We need to find other solutions.

Glossary
diverse *(adj)* including many different types of people

B Writing skills **Read about using questions to make points. Then find and underline all the questions in the comment in exercise 3A. What are SensibleGuy's answers to the questions?**

We often ask questions to introduce or make a strong point. Then we answer the questions. Questions can make the readers feel like you're speaking directly to them. Compare the two ideas below. The first one is stronger and more interesting.

1 Can you imagine how many accidents there would be? Too many!

2 There would be too many accidents if we had more bikers.

C Pair work Think critically **What do you think of SensibleGuy's ideas?**

Register check

In informal writing, people often give their opinions without supporting their ideas with facts.

Informal
I doubt there are enough people to use services in such a small space.

Formal
One study shows an area with a low population can't support services in a 15-minute city. There aren't enough people to keep the services open.

Write it

D **Write your own comment responding to Riku's podcast and SensibleGuy's comment. Decide if you think 15-minute cities are good for your area. You can use some of the ideas below and your own ideas. Add details. Use questions to make some of your points stronger.**

Positive:	less pollution	friendlier / sense of community
	save money	less travel = more time at home or for fun

Negative:	expensive to create	not diverse
	not enough people causes pedestrian or bike problems	

E Pair work **Exchange posts with a partner. Do you agree? How many of your points are different?**

7.2 The best entertainment

Lesson objective
- talk about TV shows and movies

1 Vocabulary: TV shows and movies

A 7.03 **Pair work** Listen and repeat the words. Which can describe movies? Which can describe TV shows? Which can describe both?

animated movie	comedy	documentary	drama	fantasy
game show	horror	musical	news	reality show
romantic comedy	science fiction	soap opera	talk show	thriller

B **Pair work** Give an example of each kind of movie or show in exercise 1A.

C Now go to page 151. Do the vocabulary exercises for 7.2.

2 Language in context

A Read the article. What do *the small screen* and *the big screen* mean?

Big screen or small screen?

You sit down after a long day and want to watch a show on your phone. What are you going to watch today? Maybe an episode of your favorite **talk show** or **soap opera**? Your roommates are on the couch, binge-watching episodes of a popular **drama** series on a tablet. Your friend texts you about the **documentary** she's watching on her laptop.

Many viewers think that personal devices are as good as TVs. We watch a lot of movies and TV shows on the "small screen" instead of the "big screen." But is it the same? If you like **science fiction** and **fantasy**, you probably love special effects – the way monsters look or the way spaceships fly through the air. But on a phone, the effects aren't as exciting as they are on a big screen. Watching a **horror** movie on a tiny screen isn't as frightening as watching it in a dark theater. (Although maybe that's a good thing!)

Do you like watching shows on your device as much as watching on a big screen? Maybe it depends on the genre. Nothing is as much fun as watching **reality shows** on one big screen with your friends – and laughing together.

B Read again. How does the article suggest watching shows and movies in different ways gives people a different experience?

C Guess the meaning of these words from context. Match the words (1–5) to the definitions (a–e).

1	episode	___	**a** set of television broadcasts using the same characters but in different situations
2	series	___	**b** a style of TV show or movie
3	binge-watching	___	**c** people who watch TV or movies
4	viewers	___	**d** one of the parts of a television or radio program
5	genre	___	**e** watching a lot of episodes in a short amount of time

D **Pair work** Do you like watching TV shows and movies on a small screen or a big screen? Does it matter to you? What are the pros and cons of each option? For ideas, watch Arda's video.

Real student
Do you and Arda agree on how you like to watch TV shows and movies?

3 Grammar: Comparisons with (*not*) *as* ... *as*

Grammar Comparisons with (*not*) *as* ... *as*

Nothing is **as much fun as** watching reality shows with your friends.
Watching a horror movie at home is**n't as frightening as** watching it in a dark theater.
Do you like watching shows on your device **as much as** watching on a big screen?

1 The expression *as* ... *as* means **the same as** / **different from**.
2 The expression *not as* ... *as* means **more than** / **less than**.

B Rewrite the sentences with (*not*) *as* ... *as* so that they mean the same. Then think of a TV series for one or more of the sentences.

The second season isn't as good as _____ the first season.
2 The first season and the second season are both good.
The second season _____ the first season.

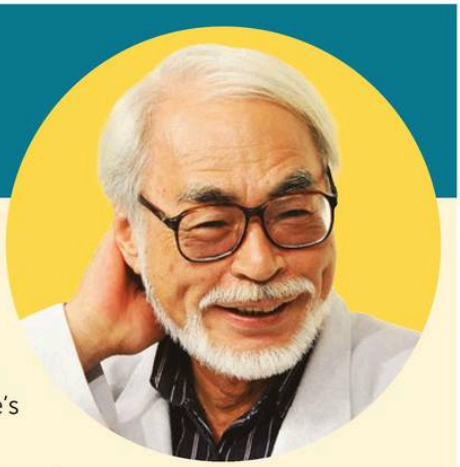
Anime for Ages



Animation used to be just for kids, but today, people of all ages enjoy animated movies. Japanese anime, in particular, has become popular around the world, and its popularity is growing. Japanese anime used to be available to a small group of people, but thanks to online streaming, it's available all over the world. Every major streaming service offers a variety of movies in this now-popular genre. People enjoy anime's bright colors and interesting fantasy stories.

Hayao Miyazaki is probably as well-known as his movies. He gets a lot of credit for making Japanese anime famous worldwide. He started making films in 1979 and opened Studio Ghibli, an animated movie company, with another animator in 1985. But it was his 2001 movie, *Spirited Away*, that made him a global name. It won an Academy Award for best animated feature.

All kinds of people like Miyazaki's movies because of their style and themes. His movies are usually fantasy films that have themes people of all cultures can relate to. His animated characters make us realize what it is to be human.

One common theme is the environment. Miyazaki's characters care for and respect the planet. Two other themes are friendship and family. His characters often help each other and form meaningful friendships. His characters also have love for their family, shown between siblings, parents and children, and grandchildren and grandparents.

Today anime isn't just made in Japan. There are anime film studios in places like South Korea, China, and the United States. Anime is sure to be around for ages.

The Boy and the Heron

Miyazaki's Best Movie!

★★★★½

by Alonso Cruz

[1]I didn't use to like animated movies. But after I saw *The Boy and the Heron* by Hayao Miyazaki, I became a fan. The story is interesting from beginning to end. [2]The movie takes place in the 1940s. It's about a 12-year-old boy named Mahito. He used to live in Tokyo, but he and his father move to the country after his mother dies. In the country, the story turns to fantasy. Mahito meets a heron — a large gray bird — who talks and takes Mahito on adventures. They meet evil birds and cute creatures called *warawaras*. [3]*The Boy and the Heron* is as dramatic as a movie with real actors, and Mahito has the same feelings as ordinary people. In the English version, Luca Padova is the voice of Mahito. I like that Mahito's voice is done by a child and not an adult. The animation is colorful and beautiful! My only complaint is that a few parts of the story were confusing, but that just means I'll have to watch it again! [4]I think this is an excellent movie that people of all ages will enjoy!

Really? I think it's Miyazaki's best movie!

Cool! I love his movies.

I do, too! This movie is about a boy and a heron, but it's also about dealing with life.

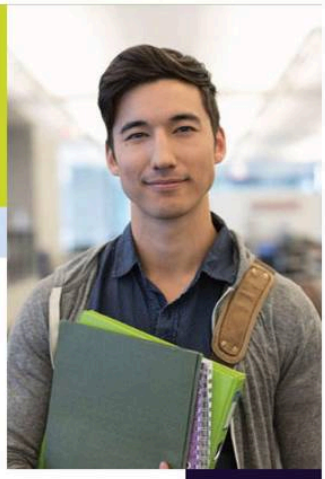
Episode 201: Interview with Naomi Moore



Comments

Matthew, Chicago 6 hours ago

After I heard this podcast, I knew I had to try Naomi's technique. I don't have many problems with emails, but I do have a lot of homework! Up to now, I've had a lot of trouble managing all the work for my different classes. To be honest, sometimes I don't prepare for class as much as I should because I'm tired or busy, or have something better to do. But I always felt worried and stressed about it.

So, I sat down and made a to-do list. Even that was a little frightening! I put all the jobs into two groups: short jobs (that I could do in less than five minutes) and long jobs. I immediately started with a few short jobs – I put away my papers, cleaned my desk, and things like that. I felt much happier right away. I had so much energy, I worked on one of my long jobs afterward – I wrote an outline for a research paper that's due next week.

So far, this has been working well! I feel more positive about what's on my to-do list. From now on, I'm going to try to study a little every day, and I'll probably finish my research paper early next week. If you're stressed about organization, definitely try Naomi's plan!!

B Pair work Think critically **How has this technique changed Matthew's life? Do you think he'll continue to make improvements? Why or why not?**

Use time expressions to talk about actions and experiences in the present, past, and future.

1	immediately ___	**a**	up to now
2	so far ___	**b**	from now on
3	before ___	**c**	right away
4	in the future ___	**d**	in the past

We often put time phrases at the beginning of sentences in more formal writing. In informal writing, we often put them at the end.

Formal: From now on, I'm going to try to study a little every day.

Informal: I'm going to try to study a little every day from now on.

Write it

D **Write a post about how you manage your time and the things you have to do. If you already use Naomi's technique (or a similar one), describe your experiences. If you don't use a time-management technique, describe how you've been managing up to now and say what you might do in the future to manage your time better.**

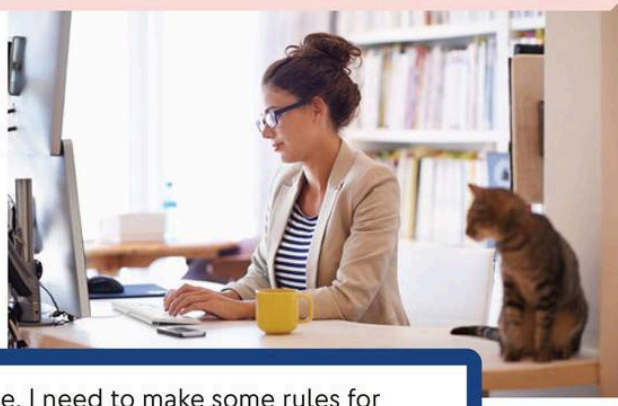
9.2 House rules

Lesson objective
- discuss rules for working and studying at home



1 Language in context

A Look at the photo of a self-employed businessperson. What do you think is good about working from home? What's difficult?

B Read the posts. What two things does Rina want help with?

C Read again. Summarize what Theo, Lynn, and Kosuke suggest.

Rina	I just started my own small business and am working from home. I need to make some rules for myself. Any suggestions?
Theo	You have to have a regular schedule. Get up, get dressed, and have the same working hours every day. You can take short breaks, of course, but you can't waste time. For example, you shouldn't do chores during working hours because you'll never get your work done. And you must not miss your deadlines!
Lynn	Make time for yourself. You can't spend all of your time on work. Sometimes, it's hard to stop working when your office is in your home.
Rina	Thanks! I see it's going to be important to manage my time. Now, any tips on how to manage my files? I work for a lot of different employers, and my wages are different for each contract.
Kosuke	There are a lot of great computer programs to help you with that kind of thing.
Rina	Thanks, Kosuke. May I email you? I'd love to chat more about those programs.
Kosuke	Of course! My #1 rule for working at home: Get help when you can!

B Read again. Which material is more environmentally friendly: cotton or polyester? Why?

We use *-friendly* with a noun to say that something is not harmful or that it's appropriate for a specific group of people. Common expressions are eco-friendly, budget-friendly, family-friendly, customer-friendly, pet-friendly, and earth-friendly.

Eco Stitch

About us

We're all about being green!

At Eco Stitch, our goal is to make eco-friendly fashion. Here's how!

We use alternatives to **cotton**. Cotton is taken from plants, and because it's **natural**, many people think it is more environmentally friendly than polyester, which is **artificial**. However, a lot of chemicals are used by most cotton farmers, and large amounts of water are needed, too. Meanwhile, polyester is often made from recycled **plastic** bottles. It's also **warmer** and **lighter** than cotton, so less material is needed! Check out our **waterproof** polyester jackets!

We also use **wool**, a sustainable and natural fabric. Not only are our wool sweaters beautiful, but they're good for the environment.

We have a lot of skirts, dresses, and shirts made from **soft** bamboo fabric as well. Bamboo is a grass that is similar to **wood**. Less energy and water are used to make material from bamboo than from cotton. Also, bamboo is easy to plant and grow quickly.

Finally, even our packaging is made from recycled paper, and the bags are reusable!

Don't worry! Our clothes may be green, but they come in many colors! SHOP NOW

Lucy Thanks for helping me with my project, Monty. So, my first question is, do you know where your laptop comes from?

Monty Well, it's an American brand, but it probably wasn't made in the US. I guess it was designed there and then manufactured in China. But I didn't think about that when I bought it. I just wanted a good laptop for a good price.

Lucy I understand. And how about your coffee?

Monty I guess the coffee beans were imported. They weren't grown here in Canada, that's for sure! They were probably shipped from Brazil. I think that's where some of the best coffee comes from, and this is really good.

Lucy Yeah. And how about your sandwich?

Monty Well, I know it's fresh because it was made right in front of me. I'm not sure about the things in it, though. The tuna was probably caught and frozen weeks ago, but maybe the tomatoes were grown here. I hope so. It's good when fruit and vegetables are produced locally.

Lucy OK, thanks very much. I think I'll get one of those sandwiches now. Talking about food always makes me hungry!

A My friend Faruk is visiting me from Istanbul. And I don't have a place for him to sleep.

B I see. But **do you really need a sofa bed**? You already have a couch.

A Yeah, but it's too small to sleep on. And Faruk will be here for a week. I want him to be comfortable. And after that, it'll be good for other friends who come to stay.

B True, but how often do people stay with you?

A Well, not very often, actually. You know, I could get an air mattress.

B **Now that's a good idea**. It's a lot cheaper, and you can just keep it in the closet when you aren't using it.

A OK, you convinced me. I'll get an air mattress.

B **That's what I would do**.

B **Complete the chart with expressions in bold from the conversation.**

Questioning someone's choices	Approving of someone's choices

I ordered two boxes of Cocosations last week. The chocolate bars were delivered this morning, and my mom and I immediately tried them. They're fantastic! The caramel in the middle is not too sweet, and it goes well with the dark chocolate on the outside. We noticed a little salt was included in the caramel, and that's the magic touch. Salted caramel is very popular now. Although I usually buy Cocomax bars, I'll probably buy Cocosations from now on. This is another great product from my favorite candy company – thanks, Cocobar!

I'm a big fan of SUPERSPORT watches. I used to have a SUPERSPORT P1, but I lost it, so yesterday I went out and bought the new SUPERSPORT P2. I notice the screen of the new watch is made of glass. In the old model, the screen was made of hard plastic. I'm not sure glass is a good idea. It's true that the old plastic screen looked a little cheap. However, it was stronger than the glass screen, and that's very important for a sports watch. Otherwise, the P2 is really good and looks cool.

11.1 Secrets of success

Lesson objective
- talk about how to succeed

1 Language in context

A Read the article by Ross Rivera. What is *failure*? Does Ross think it is a good or bad thing? Why?

B Read again. What qualities does the article say are good for employees to have?

Should we fail more?

As a technology writer, I spend lots of time making sure each article is as good as my last one. I've had a lot of success in my career. But I've also learned from failure.

I write about a lot of tech companies that fail, but people in the industry actually see failure as normal and an important part of later success. Kevin Systrom, for example, once **set up** a social media app that didn't **work out**. He **got over it** – and eventually started Instagram. A lot of international companies also agree that you have to **work at** success. Managers often promote employees who **keep up** the hard work and don't **give up** during bad times. That really makes someone **stand out** from the crowd.

I used artificial intelligence (AI) last year to write an article, but I didn't check it carefully. My editor found several mistakes. I was so embarrassed that I thought about **giving up** writing for good. Instead, I **figured out** there are no shortcuts, and I became a better writer.

– Ross Rivera

Insider English

C **Pair work** Which of these statements do you agree with the most? Why?

1 If your job is making you unhappy, give it up, and set up your own business.
2 It's good to stand out and not be like everyone else.
3 If you want to be successful, never give up – keep up the hard work, no matter what.
4 If something goes wrong, don't get upset – get over it.

I don't think it's a good idea to give up your job. You can do something fun on weekends instead.

3 Grammar: Phrasal verbs

A Look at the sentences in the Grammar box and Notice box. Then circle the correct option to complete the rules.

Grammar Phrasal verbs

1 Language in context

A 11.02 **Pair work** How might playing a video game compare with running a business? Discuss with a partner. Then read and listen to an interview with a successful businessperson. Were her ideas similar to yours?

B 11.02 Listen again. Why does Celia take risks in her business? When might she not take a risk?

11.02 Audio script

Hiro So, let's get right to it. Have you always taken risks in your business?

Celia Yes. When I make decisions, I take risks as if I'm playing a video game.

Hiro A video game? What do you mean?

Celia Well, in gaming, we take risks all the time. We want to win, but we also want to become better players. So, I take a lot of risks with my video game character.

Hiro And you don't worry about losing?

Celia Right. Sometimes you have to take a risk and not worry about the results. If I were at Level 2 in a particular game, I would try a few risky moves to learn what happens. If I succeeded, the reward would be great. And I wouldn't lose too much if I didn't succeed.

Hiro I see, and you'd learn something for a future situation, which is a big advantage – in gaming and in business.

Celia Exactly. But you have to weigh the risk with the reward. You know, consider the options and think about the goal. I might take a risk if there is a possible negative effect, but I wouldn't risk losing my company.

Hiro So, back to gaming. What would you do if you were at Level 100?

Celia I probably wouldn't take as many risks because I wouldn't want to start over!

2 Vocabulary: Opportunities and risks

B That's not good.

A And he's a hard worker. He really pushes himself. But he thinks he's getting nowhere. If I had his job, I'd leave. **Don't you think**?

B **Yeah**, **I agree with you**. It's not worth it.

A But I wouldn't leave right away. I'd find a new job before I left.

B Hmm, not me. I wouldn't stay at a job if I didn't like it. And I wouldn't go out and get another job immediately. It would be a chance to start something new, **right**? I mean, Milo doesn't like his job, so maybe he should think about a new career.

A **Good point**. He needs to find something he likes.

C Pair work **Give your opinions. Try to get your partner to agree. You can use expressions to soften some of your opinions. When you're finished, tell the class which topic you chose and whether you agreed in the end.**

Technology is definitely driving people apart. Everyone just looks at their screens all the time. No one talks anymore.

True, but they're still communicating.

11.4 Outside the comfort zone

Lesson objective
- write a personal story

1 Reading

A Identify point of view **Read the article. Then read about point of view (POV) below. Which POV does the writer use? Why do you think she uses it? Check (✓) the correct answer.**

- ☐ First person: The writer talks about herself and her own experiences.
- ☐ Second person: The writer speaks directly to the reader.
- ☐ Third person: The writer talks about other people's experiences.

B Note taking Pair work **Read the article again. What is your "comfort zone"? Is it good or bad? Why? How does the article suggest "leaving your comfort zone"? Take notes. Then compare your notes with a partner.**

Leaving Your Comfort Zone

Maybe you've had the same job for several years. Or maybe you do the same things for fun over and over again. You're in your "comfort zone." On the one hand, you feel safe, successful, and ... comfortable. On the other hand, you aren't challenging yourself, and your life is pretty boring. Is it worth it to change?

Research shows there are a lot of advantages to doing new activities outside of your routine. Challenges help you think in new ways and learn new things about yourself. And they help you see that one bad event isn't the end of the world.

Don't worry – you don't have to begin by running a marathon! Start small. How about going to a new restaurant? At the gym, you might try a class you've never taken before. If you're into hip-hop, try listening to EDM or classical music! These are all small changes, but the benefits are huge.

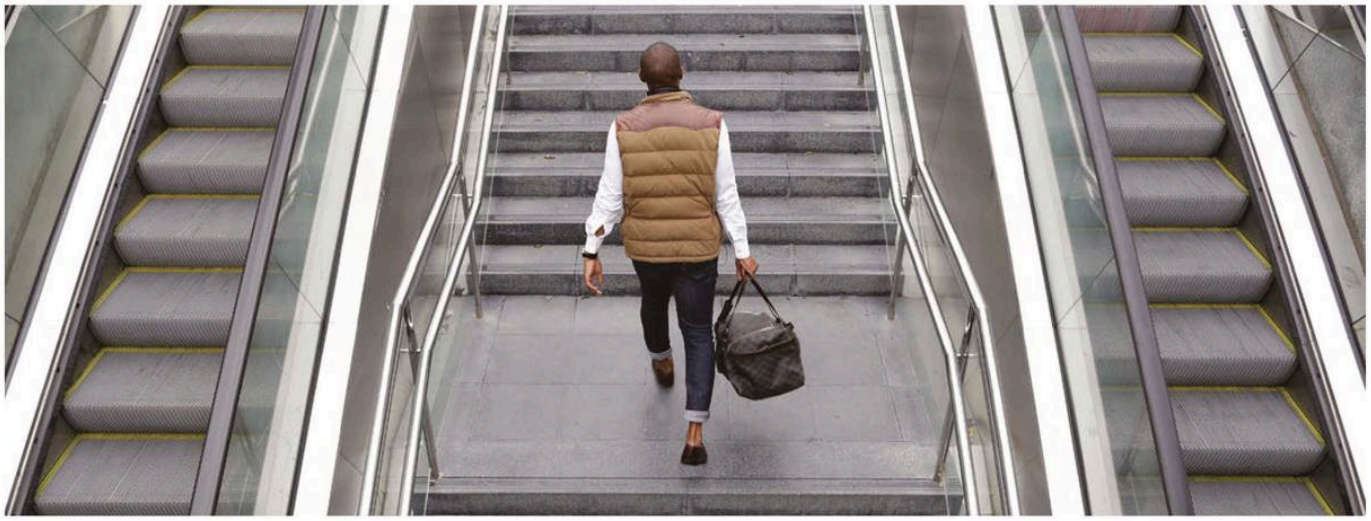
So, the next time you're ordering your favorite coffee, think about choosing something different. You might hate it ... or you might discover your new favorite drink!

Glossary
benefit *(n)* something that helps you

C Pair work **What is your comfort zone? Are you doing things that are outside that comfort zone? How does it make you feel?**

D Think critically **How far is "too far" to push yourself out of your comfort zone? Is there a risk to changing things in your life?**

2 Writing



A **Look at the photo and read Marty's story. What was his fear? How did he overcome it?**

Conquering a fear

I have a surprising secret: I used to be really frightened of escalators. Yes, escalators: those moving stairs you see everywhere. It's actually a very common fear. For years, if I saw an escalator, I would do anything to avoid it. If I did get on, my heart would beat really fast. My friends told me that very few people fall off escalators. "I know," I'd say, "but I don't want to be that one!"

Then one day I thought, "Enough! I'm going to deal with this now." I decided to start with a short escalator and then try the longer ones. At first, it wasn't too bad. The hardest part was facing an escalator in a subway station that went deep underground. That first step was awful! I was sure I was going to fall, but I held on and didn't give up. And the more I practiced, the easier it got. Now I ride those moving stairs with confidence!

I learned something useful from this. On the one hand, it's good to push yourself out of your comfort zone. On the other hand, you don't want to push yourself too far, too fast. Take it slow! You might surprise yourself.

B Writing skills **Read about comparing facts and ideas. Then underline the two opposite ways of thinking in Marty's story.**

We use *On the one hand, ...* and *On the other hand, ...* to compare two different facts or two opposite ways of thinking about a situation.

On the one hand, I was afraid to ride escalators. On the other hand, I was tired of being afraid.

Write it

C **Write a story about a time when you pushed yourself out of your comfort zone. It can be true, or you can make it up. Use *on the one hand* and *on the other hand* to compare facts or ideas. Give advice to the reader.**

D Pair work **Exchange stories. Would your partner's advice work for you?**

Register check

First-person stories often contain a lot of personal details and feelings. Articles in the third person often contain more facts and neutral information. Notice the differences between a sentence in Marty's story and a sentence that could be in an article about Marty.

My friends told me that very few people fall off escalators.

According to the National Institutes of Health, there are only 10,000 escalator injuries per year in the US that result in emergency room visits.

A 12.01 **Look at the photos. Why do you think the cakes look different? Then read and listen to the conversation to check. What other two projects did people try?**

12.01 Audio script

Vanessa I love looking at those websites where people try something they see online, and then, you know, it goes horribly wrong. Well, last week it happened to me! I was trying to make a chocolate cake I saw on a bakery's website. The flour spilled everywhere, so I don't think I used enough. And I accidentally left out the sugar. In the end, my cake fell over. I can only blame myself!

Felipe I know what you mean about being mad at yourself. One time, I tried to make a candle out of an orange. It was this cool project I saw online. When I lit the candle, the entire orange caught fire! When I put out the fire, I knocked the orange off the table. The burnt mess fell on my new rug. Luckily, no one was hurt, but it damaged the table and my rug!

Trinh You shouldn't feel bad about that. Accidents happen, and those projects never look anything like they do online. Last year, I tried to build a bookshelf. I followed the instructions, but it didn't look good. Then, in the middle of the night, I heard a loud noise. All of my books fell off the bookshelf! They slipped because the shelf wasn't straight.

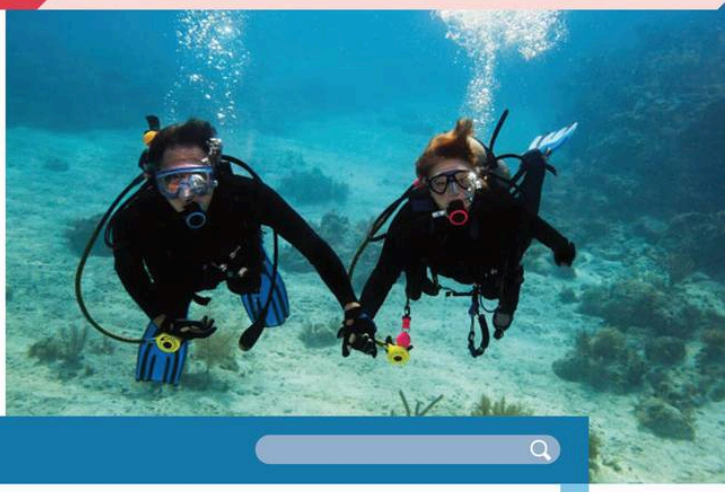
12.2 Learning underwater

Lesson objective
- talk about extreme experiences



1 Language in context

A Look at the photo. Would you like to do this? Why or why not?

B Read Bryce's social media post. How long has he been taking his diving course? What has he learned?

C Read the post again. Which two things made Bryce feel good today?

Profile | Wall | Friends

I'm exhausted ... but day two of my diving course was terrific! Last night, I said that I was feeling miserable after a difficult start. But today, I'm thrilled. Elena (my instructor) told me that I had done really well. She said that I was concentrating on my dives, and that had made a huge difference because I'd stayed calm today.

I definitely didn't feel calm this morning when Elena told us we were going to learn to deal with air problems. Then she said we would be at a depth of 45 feet (15 meters), so we couldn't swim to the surface quickly. She said we would have to work as a team and share air. We practiced a few times just below the surface of the water. And then we went down deep. I was terrified. But in the end, everything was fine. And while we were down there, hundreds of tiny fish swam past us. It was a magnificent sight. Suddenly, I realized I was enjoying myself.

So, the five things I've learned about diving are: concentrate, stay calm, work as a team, practice, and enjoy it. That's good advice for whatever you're doing, I guess.

2 Vocabulary: Describing extremes

3 Writing

A **Read Gavin's anecdote. What wrong lesson did he learn? What did he learn in the end?**

When I was ten, my teacher told me I had to write a report about volcanoes and make a model volcano. I delayed working on the project until the day before my presentation, and then I told my parents after dinner. At first, they were mad at me, and I felt really bad, but then they said they'd help me. We researched volcanoes online and went to a craft store just before it closed to buy things to make the volcano. We worked on it until midnight, and I wrote the report. The next day, I gave a terrific talk. All of my classmates said I had made a cool volcano, and the teacher took a picture of me with it.

This taught me that I could wait until the last minute and still do a magnificent job. But it was the wrong lesson to learn, and I spent the next ten years trying to unlearn it. In high school and college, everything was harder, but because of my volcano, I told myself I could wait until the last minute. I failed a lot before I learned how to manage my time well. I think now that it would have been better if my parents had let me fail when I was ten. I would have learned a valuable lesson a lot earlier.

B Writing skills **Read about using expressions with similar meanings. Then find expressions in exercise 3A that have similar meanings to 1–5 and write them in the correct place.**

We often use different expressions with similar meanings to make our writing more interesting and to avoid repeating the same words.

D Pair work **Exchange stories. Talk about the lessons you learned. Have you learned the same lesson? How would you change your behavior based on your partner's lesson?**
