EVOLVE

Speaking matters.

EVOLVE is a six-level American English course for adults and young adults, taking students from beginner to advanced levels (CEFR A1 to C1).

Drawing on insights from language teaching experts and real students as well as being research informed, EVOLVE is a general English course that gets students speaking with confidence.

This student-centered course covers all skills and focuses on the most effective and efficient ways to make progress in English.

"EVOLVE is teacher friendly. We know that whatever we do, our students are going to achieve their goal – they're going to speak."

Debora Teixeira Menezes Guimaraes, Brazil

EVOLVE is a globally popular course that has been shaped by unique **insights** gained from our extensive **research**. EVOLVE Second Edition builds on the success of the First Edition by preserving everything you love and value while updating and improving the course to make it even more motivating, supportive, and relevant.

What's new in EVOLVE Second Edition?

1 Enhanced grammar support

Additional grammar support, particularly in the early levels, makes learning more intuitive, with extra practice to enable students to gain a deeper understanding of the language.

- Students now encounter examples of the language being used before analyzing the grammar rules.
- More context is provided within the grammar tables, with extra support for more complex points.
- Further practice, with two additional grammar activities in every unit to help build knowledge and confidence for the communicative activities at the end of every unit.

2 Refreshed design

A contemporary design gives EVOLVE Second Edition an eye-catching, fresh look. All-new unit-opener photos help students engage with a range of themes.

3 New Reading and Listening

A selection of the reading and listening texts have been updated with contemporary, high-interest topics from around the world, helping to keep students motivated.

4 New videos

- **All new Real Student videos.** These videos feature students from a wide range of countries and cultures discussing new, up-to-date topics.
- **Selected new documentary videos.** Several of the documentaries have been replaced at every level to ensure content is current and of high interest. They can be found on the Cambridge One platform.

5 Sustainability

Sustainability is at the heart of everything we do at Cambridge University Press & Assessment, and this is reflected in EVOLVE Second Edition. Sustainability themes and content are embedded throughout the course.

6 Enhanced accessibility

Several key design changes have been made to the Student's Books to make the content more accessible for SEN (special educational needs) learners. These changes include more straight rather than tilted type, extraneous colors and icons removed, and simplified typography. Where possible, text is now in one column to simplify reading order.

Student-generated content

Student-generated content is one of the key features of EVOLVE. We spoke to more than 2,000 students from all over the world about the topics they would like to discuss in English and in what situations they would like to be able to speak more confidently.

Real Student videos

In EVOLVE Second Edition, we welcome a whole new cast of **Real Students** who feature in bite-sized videos throughout each book, ensuring that the material is interesting, relatable, and reflects the realities of our students' lives. The Real Students come from a wide range of countries, making EVOLVE Second Edition a truly international coursebook. Let's meet them!

The Real Student videos have a number of benefits. They:

- **Serve as an ideas prompt.** Students are prompted to think of their own answers to discussion questions in the book.
- **Provoke a response.** Students may find they agree or disagree with the featured speaker and want to react to what they say.
- **Demonstrate attainable speaking models.** The speakers are of a similar level to the students using the book. This gives them the confidence to try for themselves!

The videos are accessed using QR codes seen at different points throughout the book.

Time to speak

Students' progress in English is usually measured by how confident they feel speaking when they are faced with a real situation. To make the most of speaking opportunities in the classroom, students need a "safe speaking environment" where they feel confident, supported, and able to experiment with their English. That's why EVOLVE has dedicated the final lesson in each unit to speaking: **Time to speak**.

These lessons focus on a task with a cognitive challenge beyond language learning, which requires students to collaborate. These immersive activities include decision-making, negotiating, and problem-solving.

"EVOLVE also builds students' confidence by preparing them for everyday conversations."

Elena Farkas (U.S.A.)

Key features

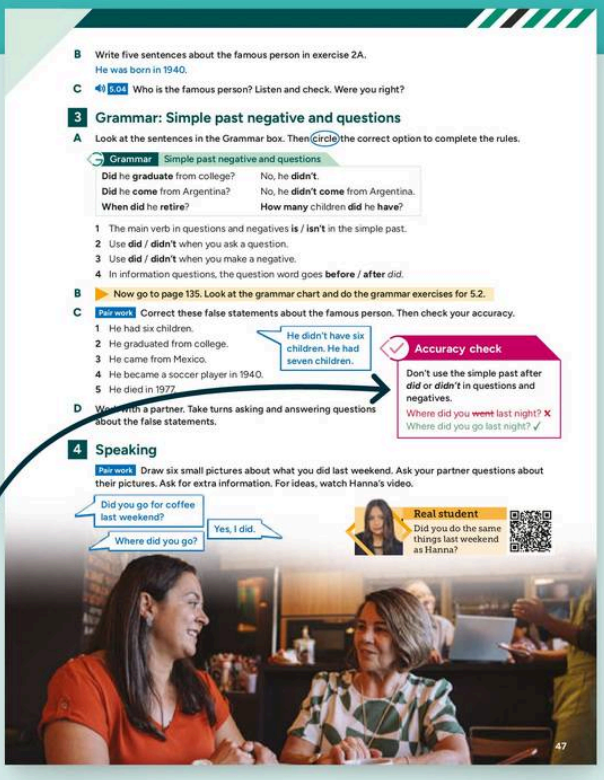
Accuracy check

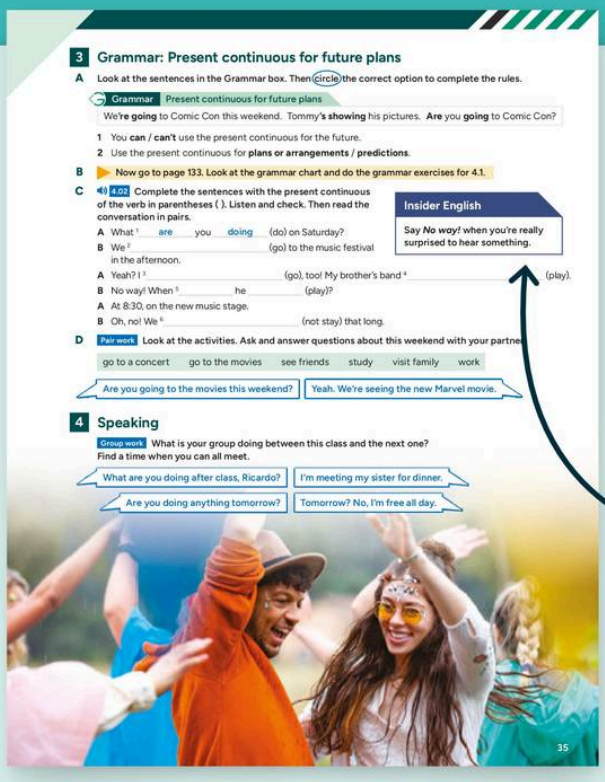
The **Accuracy check** feature shows students the most common errors that occur in written and spoken English and explains how to avoid them. These common learner errors are determined by using our unique research tool, the Cambridge Learner Corpus, and can be used for self-editing.

Accuracy check

Don't use the simple past after ***did*** or ***didn't*** in questions and negatives.

Where did you ~~went~~ last night? ✗
Where did you go last night? ✓





Insider English

Even in a short exchange or conversation, idiomatic language can inhibit a student's understanding. That's why we have **Insider English**. This feature focuses on the informal language and colloquial expressions frequently found in everyday situations, helping students become more confident about communicating in the real world.

Insider English

Say ***No way!*** when you're really surprised to hear something.

Students learn to recognize different levels of formality and understand when to use them appropriately.

Find it

Research with hundreds of teachers and students across the globe has revealed a desire to bring the real world into the classroom. With the **Find it** activities, EVOLVE is helping to make that happen. These mobile-friendly tasks allow students to bring live content into the class and personalize their learning experience with research and group activities. These activities are always optional, meaning the teacher can choose whether to include them as part of the lesson.

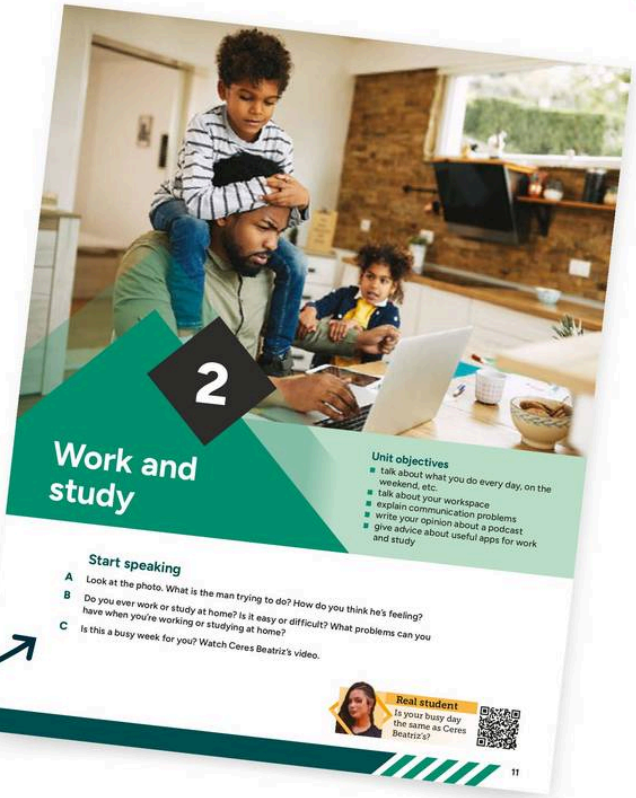
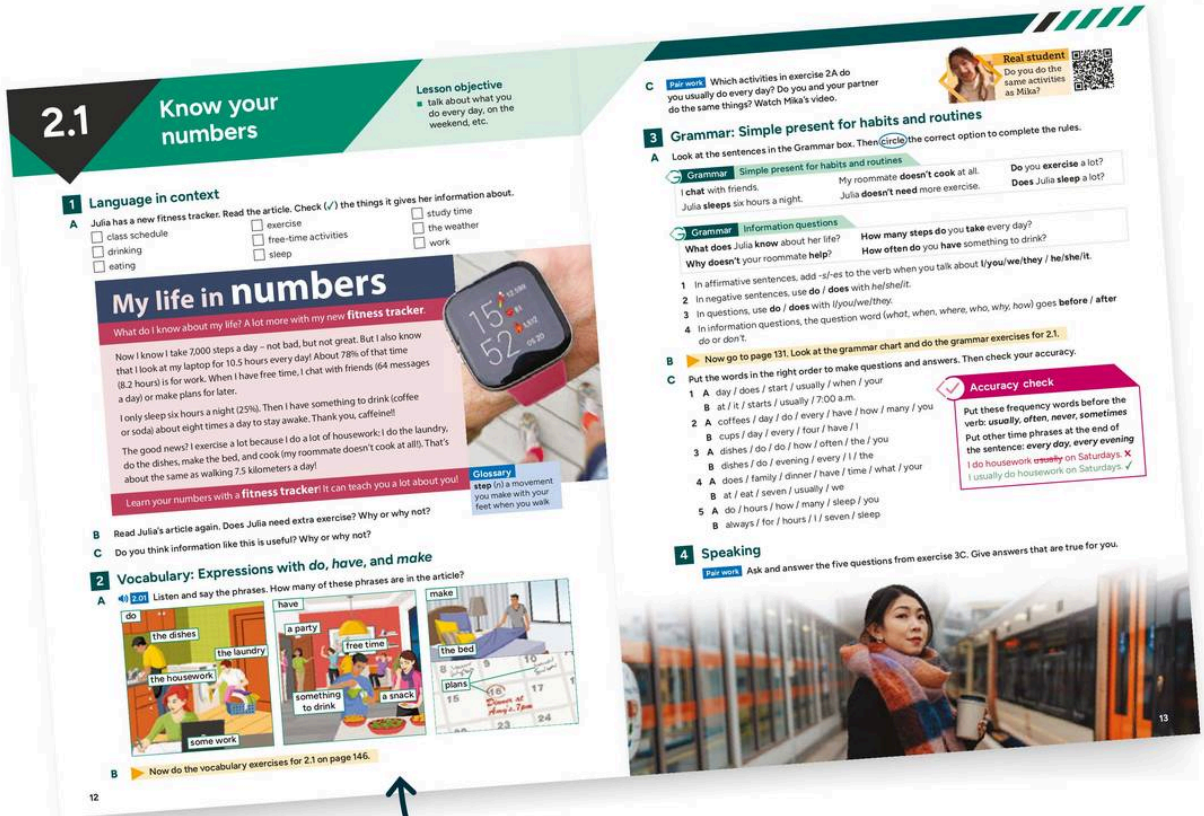
Unit structure

Unit opening page

Each unit opening page activates prior knowledge and vocabulary and immediately gets students speaking.



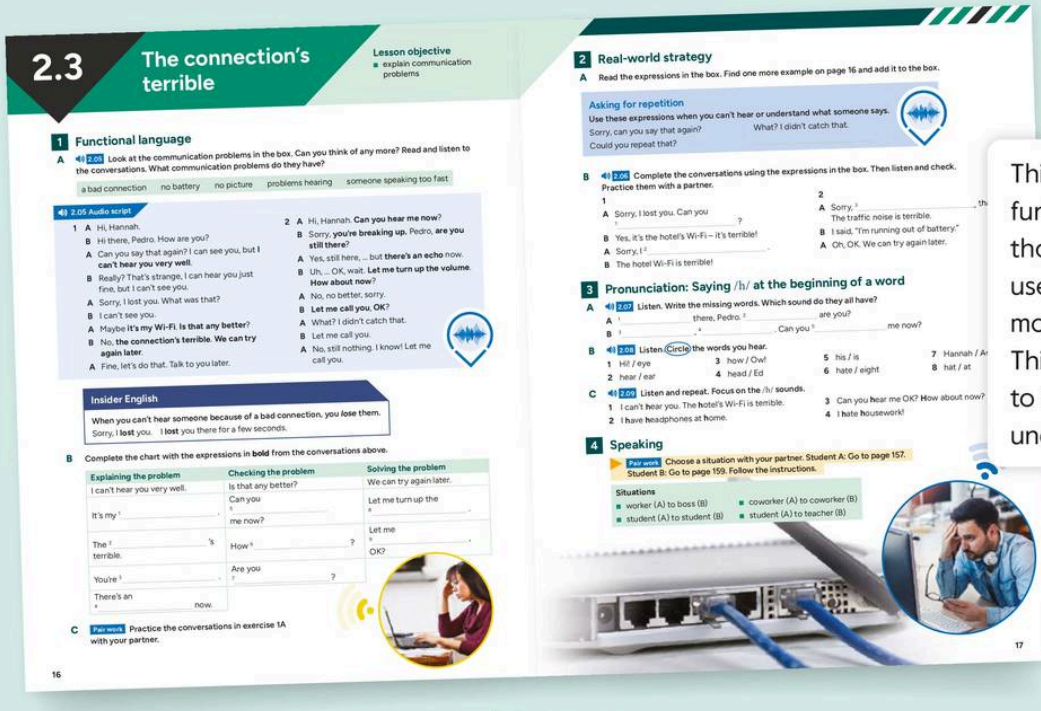


Lessons 1 and 2

These lessons present and practice the unit vocabulary and grammar in context, helping students discover language rules for themselves. Students then have the opportunity to use this language in well-scaffolded, personalized speaking tasks.

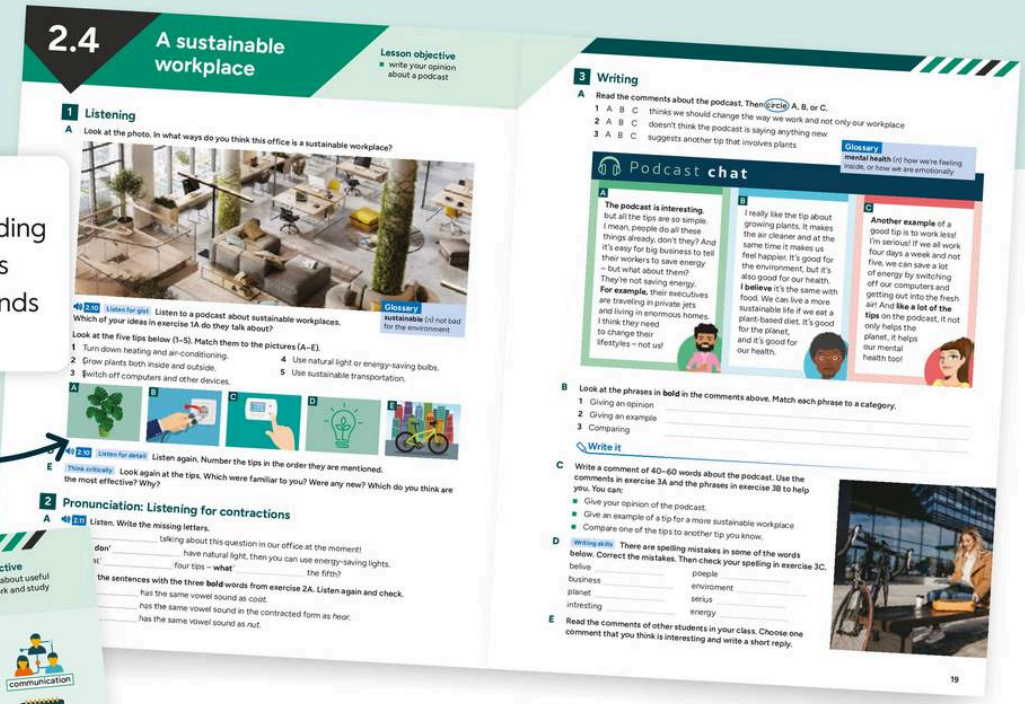
Lesson 3

This lesson is built around a functional language dialogue that models and contextualizes useful fixed expressions for managing a particular situation. This is a real-world strategy to help students handle unexpected conversational turns.



Lesson 4

This is a combined skills lesson based around an engaging reading or listening text. Each lesson asks students to think critically and ends with a practical writing task.



Lesson 5

Time to speak is an entire lesson dedicated to developing speaking skills. Students work on collaborative, immersive tasks that involve information-sharing and decision-making.

- ☐ class schedule
- ☐ drinking
- ☐ eating
- ☐ exercise
- ☐ free-time activities
- ☐ sleep
- ☐ study time
- ☐ the weather
- ☐ work

My life in numbers

What do I know about my life? A lot more with my new **fitness tracker**.

Now I know I take 7,000 steps a day – not bad, but not great. But I also know that I look at my laptop for 10.5 hours every day! About 78% of that time (8.2 hours) is for work. When I have free time, I chat with friends (64 messages a day) or make plans for later.

I only sleep six hours a night (25%). Then I have something to drink (coffee or soda) about eight times a day to stay awake. Thank you, caffeine!!

The good news? I exercise a lot because I do a lot of housework: I do the laundry, do the dishes, make the bed, and cook (my roommate doesn't cook at all!). That's about the same as walking 7.5 kilometers a day!

Learn your numbers with a **fitness tracker**! It can teach you a lot about you!

2 A B C doesn't think the podcast is saying anything new
3 A B C suggests another tip that involves plants

Glossary
mental health (*n*) how we're feeling inside, or how we are emotionally

Podcast chat

A

The podcast is interesting, but all the tips are so simple. I mean, people do all these things already, don't they? And it's easy for big business to tell their workers to save energy – but what about them? They're not saving energy. **For example,** their executives are traveling in private jets and living in enormous homes. I think they need to change their lifestyles – not us!

B

I really like the tip about growing plants. It makes the air cleaner and at the same time it makes us feel happier. It's good for the environment, but it's also good for our health. **I believe** it's the same with food. We can live a more sustainable life if we eat a plant-based diet. It's good for the planet, and it's good for our health.

C

Another example of a good tip is to work less! I'm serious! If we all work four days a week and not five, we can save a lot of energy by switching off our computers and getting out into the fresh air! And **like a lot of the tips** on the podcast, it not only helps the planet, it helps our mental health too!

B **Look at the phrases in bold in the comments above. Match each phrase to a category.**

1 Giving an opinion _____
2 Giving an example _____
3 Comparing _____

Write it

C **Write a comment of 40–60 words about the podcast. Use the comments in exercise 3A and the phrases in exercise 3B to help you. You can:**

- Give your opinion of the podcast.
- Give an example of a tip for a more sustainable workplace

D Writing skills **There are spelling mistakes in some of the words below. Correct the mistakes. Then check your spelling in exercise 3C.**

A stranger in a strange town

Rafael: I went to Chicago about ten years ago for a work project. I remember the moment I stepped off the bus from the airport. Everything was strange – the smells, the crowds, the language – and everyone was in a hurry. The weather was also very cold. I needed warm clothes, and fast! In Mexico, we don't have winters like that!

Nong: I'm from Hat Yai in Thailand. At age 20, I went to Japan as an exchange student. I remember my first day at the university in Kyoto. It was scary, but then I looked around and saw so many other people in my situation. I thought, "They must feel the same." That helped. And it was a beautiful September day. Suddenly, I felt so positive.

Kamal: I was born in Nepal, but I went to live in Melbourne, Australia, as an immigrant worker. On that first day, I didn't understand any English, but I remember that people were friendly. I smiled, and they smiled back. I walked along the river and felt very free. Everything was clean and new, like a fresh start.

Karl Great idea! Hey, I remember this jacket! Are you going to sell it? It's in really good condition.

Adam Yes, I'm not going to wear it again. It's too small. I'm going to sell it for $35. It **cost** me $50 six months ago.

Karl That's a great price! Someone is definitely going to buy that. What are you going to do with the money? **Spend** it on more clothes?

6.2 Shop this way

Lesson objective
- talk about shopping habits

1 Vocabulary: Shopping

A 6.03 **Pair work** Listen and say the words. Then, with a partner, find the words in the photos. Write a number in each box.

[1] (shopping) cart	[ ] cash register	[ ] checkout	[ ] customer	[ ] department store

B ▶ Now do the vocabulary exercises for 6.2 on page 150.

C **Pair work** Make notes about a recent shopping trip. How many words from exercise 1A can you use? Tell your partner about it.

2 Language in context

A **Pair work** Think of a time you bought something you didn't need. Why did you buy it?

B Read the blog post. Find three things that stores do to make us buy more things.

Never go to the grocery store when you're hungry!

I go grocery shopping most weekends, but I don't like it. I go early, and I don't waste time. But after work today, I went to get some pasta for dinner. Big mistake!

When I walked in, I turned right, as most people do. Stores always put their sale items to the right. I put some potato chips in my **cart** because they were on sale. Then I saw the desserts. All of them were on the middle **shelf**. Did you know that stores often put expensive things on the middle shelf? Why? Because that's where many customers look first. Of course, I put two desserts into my cart. Then I smelled the bread. Stores know that fresh bread makes people hungry. Yep, I bought bread, too. My cart was getting pretty full by now! On the way to the **checkout**, I counted 12 things but no pasta. PASTA! I almost forgot. I went to the Italian food section, but there was none left. All of the pasta was gone!

C **Pair work** What are your shopping habits? Tell your partner.

3 Grammar: Determiners

A **Look at the sentences in the Grammar box. Match each sentence to one of the rules (1–3) below. Then read the Notice box to find out when we use *no* or *none*.**

Grammar Determiners

I put **some** potato chips in my cart. ___
All of them were on the middle shelf. ___
That's where **many** customers look first. ___
I counted 12 things, but **no** pasta. ___
All of the pasta was gone! ___

1 After determiners (*no, some, many, most, all*), we use a non-count or plural noun to talk about things without being specific.
2 We use a determiner + *of* + *the* + a non-count or plural noun to talk about specific things.
3 We use a determiner + *of* + object pronoun (*you, us, them*) to talk about specific things.

B **Look at the bold words in the Grammar box and Notice box. Write them in the correct order below.**

none/no → _____ → _____ → _____ → _____
0% 100%

C Now go to page 136. Look at the grammar chart and do the grammar exercises for 6.2.

D **Pair work** **Write sentences about the stores in your town. Use *all*, *most*, *many*, *some*, *none*, or *no*. Tell your partner. Do you both agree?**

! ***no* or *none*?**
None **is a pronoun. It means *not any*. Use it without a noun or before *of* + *the* + noun or *of* + pronoun. Use *no* in front of a noun.**
There was **none** left.
none of the customers
no customers

4 Speaking

A **Group work** **Look at the customer survey. Ask your classmates the questions and make notes about their answers.**

3 Writing

A Read the advice website on how to save money. How many of the suggestions do you agree with?

Top tips
to save money
– spending less on the little things in life

1. One in, one out. When you buy a new shirt, sell or give away an old **one**.
2. Going to the movies? Don't buy snacks at the theater. Go to a store to buy **them** before you go.
3. When a store offers two big bags of chips for $5.00, and a single bag is $3.00, you save $1.00, and that's great! Or is it? If you didn't need all those chips, then you paid $2.00 for something that you didn't really want.
4. Better to borrow than buy. If you only need to wear something once – for example, a suit for a job interview – ask a friend to lend you one.
5. Don't join a gym! If you're going to exercise just once a week, don't waste money on an annual subscription. It's usually cheaper to pay for each fitness class.
6. Go grocery shopping in the evening. That's when supermarkets have sales on many items, and you can fill your cart with more for less!

Glossary

give away (*v*) give something to someone and not ask for money
snack (*n*) a small amount of food between meals
subscription (*n*) money that you pay regularly for a service

B With a partner, decide if the suggestions in exercise 3A are about clothes (C), free time (FT), or shopping (S). Then add two more suggestions for each one.

C Writing skills Look at the words in **bold** in the website. Underline the word in each sentence that *one* and *them* refer to. Find the other example of *one* in the website and underline the word it refers to.

Glossary
recipe (*n*) instructions for how to prepare and cook food

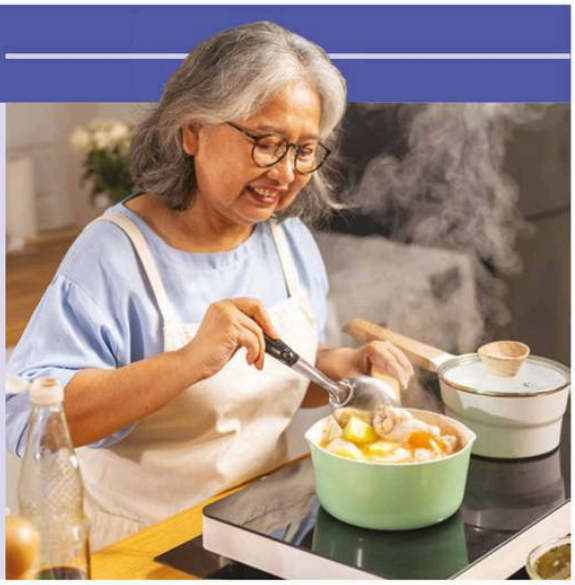
A Taste of **Home**

Everyone has their own idea of comfort food – that special dish you eat anytime you feel sad or worried.

For me, there's only one comfort food: my mom's chicken soup. Did you know that chicken soup is probably the world's favorite comfort food? It makes you feel happy, and it's quick to make – perfect when there's not much time to cook.

The classic recipe includes chicken and a little **onion**, but there are many other ways to cook it. Colombian *ajiaco* has a lot of corn and potatoes, in India it comes with an egg, and the Chinese serve it with noodles and sometimes a few chilies. In Korea they usually eat *samgyetang* in the summer, served with some rice.

Comfort food is very personal. It can be a full meal, a dessert, or just a snack. Tell us about *your* favorite comfort food.



B Pair work Find these words in the blog: *dessert*, *dish*, *meal*, *snack*. Think of an example of each one.

C **Read the whole Q&A page and answer the questions.**

1 Why is algae good for the planet and palm oil bad?

2 What other advice does Hiro give?

D Pair work Think critically **Read the Q&A page again. How much of this information do you think your friends, colleagues, or classmates know? Do you think people make these sustainable choices when they eat? Why or why not?**

Eating for the planet:

How can I make my diet more sustainable?

More and more people are making sustainable food choices. But how do we know if our diet is good for the planet? Our readers sent their questions to food expert Hiro Sugimoto.

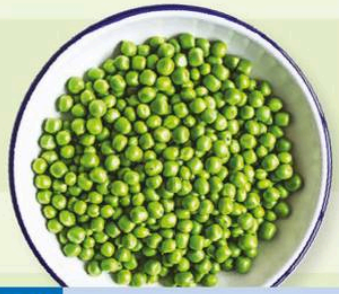
Food expert Hiro Sugimoto

Ágnes (Debrecen, Hungary): I know meat is not good for the environment but what else can give me that kind of protein?

Hello Agnes. That's easy! A lot of fresh green vegetables are high in protein – like avocados, spinach, and green peas. Some people also eat insects, which is a very sustainable choice. Insects don't use much water, they don't need a lot of space, and farm animals can eat them, too! But the best of all is probably algae or seaweed. Did you know that algae produce half of all the oxygen on the planet and almost all life depends on them? And it's delicious, especially in sushi!

Marcela (Medellín, Colombia): Hiro, is there one product that I should avoid if I want to eat for the planet?

Yes, foods made with palm oil! It's in nearly 50% of products in supermarkets, like pizza and chocolate. But people don't know that it's also in other products like shampoo, deodorant, and toothpaste. Why? Because you can't see that on the label! It is bad for the planet because palms are replacing natural forests in many parts of the world.



Boris (Christchurch, New Zealand): What other general things can we do to eat more sustainably?

Well, you can try to eat food that is in season and that people grow locally. It's always important to check where your food comes from. If you can grow your own food, it's the best solution of all, of course!

Glossary

algae (*n*) very simple, small plants that grow in or near water

seaweed (*n*) a green, brown, or dark red plant that grows in or near the sea

2 Writing

A **Look at the comments about the article. Who is positive and who is negative about Hiro's ideas?**

Sakura: It's normal to eat seaweed in Japan so why not for everybody? We use it in makis of course! So tasty!

Yang: Why eat insects when there are so many better things to eat? **If you ask me**, it's crazy!

Martha: Hiro is right about palm oil. But **I don't think** people know that it's so bad and that's really sad.

Oliver: I don't know ... Everybody loves burgers and steak here. **For me**, that's the most important thing. I can't see people choosing algae instead. Sigh ...

Manuel: **I think** eating insects is a great idea. In my country, Mexico, a lot of people eat them and nopales too, which is a kind of cactus! Both are super sustainable!

B Pair work **Look at the comments again. Which comments do you agree or disagree with? Why?**

C Writing skills **Look at the words in bold in the comments. Do we use these expressions to say something is true or to give an opinion?**

D **Read the Register check box. Then rewrite these sentences with a different expression than *I think*.**

1 I think eating more avocados is a great idea! I just love them!
2 Seaweed? I think it's a crazy idea. It has a horrible taste.
3 I think it's good for the planet to eat more green vegetables!

E **Do you think Hiro's ideas are popular now or will become popular soon? Write a comment to post on the website.**

Register check

Here are some ways to give an opinion:

I think ... If you ask me ... For me ...

For formal writing, like essays, use a more formal expression:

From my point of view ...
It seems to me that ...

Advice Forum

On today's "Backpack Nation," our listeners offered some advice for when you go to live in another country. What did you think of their ideas? Do you have any advice to give?

Thank you for the advice. It's a great idea to join a language club. **You could also offer** to give lessons in your own language. It's a good way to meet people and to make some extra money at the same time!

I agree that a comfortable place to live is really important. **I think it's a good idea** to get a room in an apartment or house with other people. You make friends, you practice the language, and it costs less. It worked for me!

Great advice, thanks! **I think it's also very important** to remember to stay in touch with your friends and family back home when you first arrive. If you don't, you can get really lonely. The internet makes it so easy. When I lived away from home, I talked to my family every day. It really helped!

A Look at the photos. What are they wearing? Now read an email from Mike to a friend. In the photos, which one is Mike, and which one is his new coworker?

< Inbox

Hi Angelica,

Well, here I am in Berlin! I still can't believe it – I had an interview one month ago, and I started work today!

So far, Europe's OK, very pretty. But the weather is worse than at home – colder, wetter, windier – horrible! For my first day on the job, I wore my winter suit with a blue tie.

I didn't know it, but the dress code at this company is a lot less formal than at my old company. Sneakers and T-shirts for almost everyone. My coworkers wear a lot of jewelry, too. Back home, they don't wear much, but here bracelets, earrings, and necklaces are really popular. And everything is more modern than at my old office. The work is more or less the same, but the people are much warmer and friendlier. Maybe it's the clothes!

It's definitely a more interesting place to work, and the money is better, too. I'm really lucky. But I'm going to need to buy some casual clothes!

Mike

How to sell … electric cars

Advertisers don't just sell *things*. They sell *ideas*. Here are the four most important ways that car companies use images to connect with buyers.

1

A car is speeding along a beautiful open road near the ocean, in the desert, or in the mountains. The air is clean and, most important of all, there are no other cars.

Picture ☐

2

Dad is driving, mom is smiling, and the two kids in the back seat are laughing. The car is full of things for a weekend trip to the beach – toys, towels, snacks – but there's always room for more.

Picture ☐

3

The driver is wearing fashionable clothes, and her best friend is sitting beside her. They're listening to music as she drives. The car is small, easy to drive, easier to park, and fun.

Picture ☐

4

Is this a car or a spaceship? This car is full of the most modern technology possible – cameras, screens, phone chargers, a virtual assistant. Its electric engine makes almost no noise as it drives smoothly along the highway. The car almost drives by itself, and it doesn't need gas, just electricity!

Picture ☐

C **Pair work** **Think critically** Discuss the ways that the car ads in the article are different from reality. Look at the ideas in the box and add two more.

Some families are not happy on long car trips.
It's often difficult to find any parking space, big or small.

B Read another submission to the contest. Divide the text into four sentences with correct punctuation. Check your work by looking at exercise 2A. What kind of customer are these images for?

my image is of a beach on a warm summer day the car is parked and the driver is getting beach things out of the back the driver's door is open and her dog is already running to the beach this image gives the idea of being young and full of energy

C Writing skills **Look at these other submissions. The sentences are too long, and the writers did not use any periods. Change the texts into two or three sentences. Don't forget the capital letters.**

1 the most important thing in my image is the famous football player next to the car he is standing with a football in one hand and the key to the car in the other

2 my image shows an open door of the car you can see the inside of the car it looks very modern and nice

Glossary
microbe (*n*) a tiny life form, including bacteria, viruses, and fungi
square inch (*n*) a unit of measurement: 1 in^2 = 6.5 cm^2

Danger at Work!

I'm an office worker. I spend my working life at my computer. It's not physically difficult, but it's not without danger. Dr. Charles Gerba, a germ expert from the University of Arizona, says there are millions of invisible enemies all around us ...

You don't have to stay home if you have a cold, but it's better if you do. Why? Because viruses ... love offices. Air-conditioning systems recycle air and the germs in it. When one person in the office has a cold, their germs are on 40–60% of their coworkers in just four hours. The virus can stay in the office for three days!

First thing to remember: you have to clean your keyboard! Some keyboards are dirtier than toilet seats – fact! Dr. Gerba did a study of more than 100 offices (law offices, call centers, accountant services, etc.) and found keyboards with 3,295 microbes per square inch. For toilet seats, that number is usually about 49 microbes!

Why? Food falls into your keyboard and produces bacteria. Dr. Gerba calls the keyboard a "bacteria cafeteria." Next lunchtime, ask yourself: "Do I really have to eat at my desk?"

a breathing
b city traffic

f rock concert

B **Predict** Look at the title of the article. Why do you think Janet Horvath is afraid of sound?

C **Read for main ideas** Read the article and check your answer. How does Janet face her fears?

A Musician Afraid of Sound

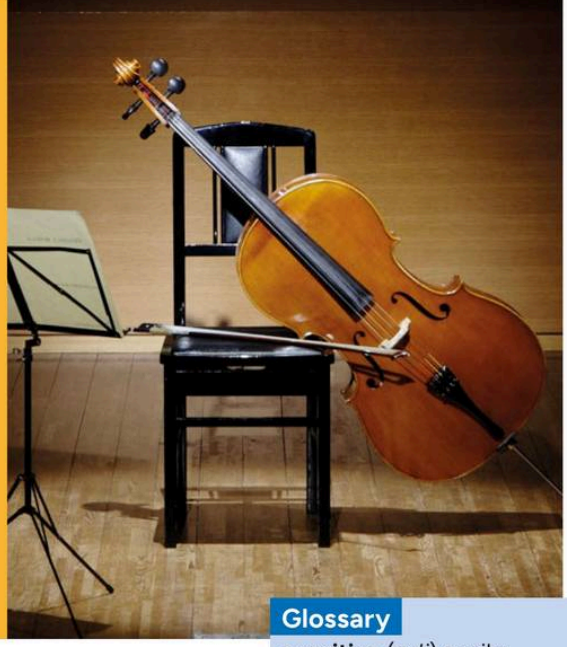
It's 2011 and my husband can't kiss me. The smallest touch hurts me. Everyday noises – a baby crying, the sound of an ATM – are very painful. I'm a professional musician, but I can't stand sound.

It was August 2006. I was a cellist for the Minnesota Orchestra. There were eight speakers on stage. Two of them were too close to my left ear. When I left the stage, I felt a pain in my ears. It went down my neck and into my face. It was terrible. Later, my doctor told me I had a permanent injury from being so close to loud speakers, and my brain was now extremely sensitive to all sound. That meant no TV, no radio, no phone. And, worst of all, no music. It was the worst thing in the world that the thing I loved so much – music – now gave me so much pain.

But I didn't want to give up my career. I loved the cello – it was my life. I had to try to play the cello again.

I had to face my fears. I got a hearing device, and I slowly taught my brain to receive sound again. I can now play with three or four other musicians in a room. I won't be in an orchestra again, but I'll never be without music.

Adapted from an article by musician Janet Horvath in The Atlantic *magazine*



Glossary
sensitive (*adj*) easily affected by something
device (*n*) a small machine

D **Read for details** Read the article again and find ...

1 two examples of everyday noises that hurt Janet.
2 four things she thought she had to live without.
3 one thing (of the four in number 2) that she didn't want to live without.
4 two things Janet did to play the cello again.

E **Pair work** **Think critically** How many decibels do you think the music from the speakers was? What noisy situations do you experience every day? How many are dangerously high? What can you do to protect your ears from high-decibel sounds?

2 Writing

A Adam is writing an email to himself on a website that will deliver it to him in five years. What is Adam afraid of? What's his advice to himself?

< Inbox

To: adam_g@xyzmail.com
From: adam_g@xyzmail.com
Subject: Hello from the past

Hello you! Or really, hello ME, but five years in the future.

It's July 20 and it's 2:03 p.m. I'm 25 years old. When I read this email again, I'll be 30.

I'm writing this email because I want to read about what I was afraid of when I wrote it. And I hope that when I read it in five years, I'll see that everything is OK, that I'm OK.

So, what am I afraid of? I'm afraid of starting a new life in the city. I'm afraid because I don't know anyone, and I'm worried that I won't make any friends and that I won't be successful in my new career.

I'm leaving a pretty good life. I live with my family in a great apartment. It's home. When I move to the city this fall, where will I live? Who will my friends be? Will I have any friends? Does it all work out well for me? Also, is my hair long, like I want it to be?

Anyway, I really just want to say that I trust you, ... me, ... us. It's a scary step to take, but it's for the best. You're smart and friendly, you're good at making the best of every situation. Don't be afraid that you made the wrong choice. You have to live your life and take chances! No matter what, it was a good choice.

By the way, you're still looking good. For 30.

Good luck with everything!

Adam (25 years old)

I loved this infographic! It's so good to see what real people say about videos. I think it's interesting that so many people stop watching videos after 30 seconds! That's definitely me! I also can't believe that the kitchen is the most popular place for making videos. Are you sure? 🤣

I watch videos all the time, but I've never stopped to think about them. This infographic has so much interesting information. I always thought people just made videos at home, in their rooms. I was surprised that one of the top locations was in a restaurant or eating out!
