EVOLVE

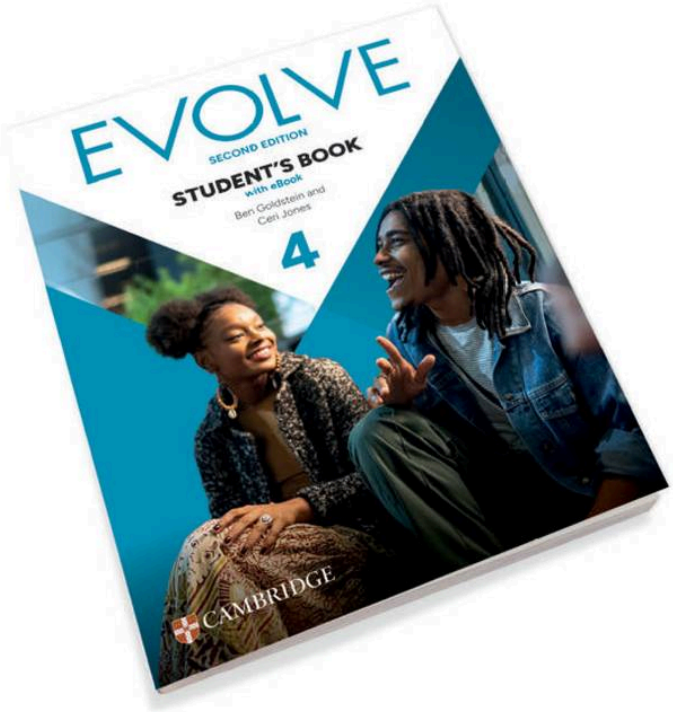
Speaking matters.

EVOLVE is a six-level American English course for adults and young adults, taking students from beginner to advanced levels (CEFR A1 to C1).

Drawing on insights from language teaching experts and real students as well as being research informed, EVOLVE is a general English course that gets students speaking with confidence.

This student-centered course covers all skills and focuses on the most effective and efficient ways to make progress in English.



"EVOLVE is teacher friendly. We know that whatever we do, our students are going to achieve their goal – they're going to speak."

Debora Teixeira Menezes Guimaraes, Brazil

EVOLVE is a globally popular course that has been shaped by unique **insights** gained from our extensive **research**. EVOLVE Second Edition builds on the success of the First Edition by preserving everything you love and value while updating and improving the course to make it even more motivating, supportive, and relevant.

What's new in EVOLVE Second Edition?

1 Enhanced grammar support

Additional grammar support, particularly in the early levels, makes learning more intuitive, with extra practice to enable students to gain a deeper understanding of the language.

- Students now encounter examples of the language being used before analyzing the grammar rules.
- More context is provided within the grammar tables, with extra support for more complex points.
- Further practice, with two additional grammar activities in every unit to help build knowledge and confidence for the communicative activities at the end of every unit.

2 Refreshed design

A contemporary design gives EVOLVE Second Edition an eye-catching, fresh look. All-new unit-opener photos help students engage with a range of themes.

3 New reading and listening

A selection of the reading and listening texts have been updated with contemporary, high-interest topics from around the world, helping to keep students motivated.

4 New videos

- **All new Real Student videos.** These videos feature students from a wide range of countries and cultures discussing new, up-to-date topics.
- **Selected new documentary videos.** Several of the documentaries have been refreshed at every level to ensure content is current and of high interest. They can be found on the Cambridge One platform.

5 Sustainability

Sustainability is at the heart of everything we do at Cambridge University Press & Assessment, and this is reflected in EVOLVE Second Edition. Sustainability themes and content are embedded throughout the course.

6 Enhanced accessibility

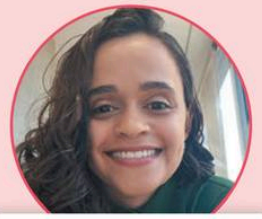
Several key design changes have been made to the Student's Books to make the content more accessible for SEN (special educational needs) learners. These changes include more straight rather than tilted type, extraneous colors and icons removed, and simplified typography. Where possible, text is now in one column to simplify reading order.

Student-generated content

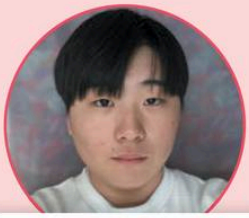
Student-generated content is one of the key features of EVOLVE. We spoke to more than 2,000 students from all over the world about the topics they would like to discuss in English and in what situations they would like to be able to speak more confidently.

Real Student videos

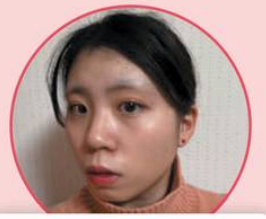
In EVOLVE Second Edition, we welcome a whole new cast of **Real Students** who feature in bite-sized videos throughout each book, ensuring that the material is interesting, relatable, and reflects the realities of our students' lives. The Real Students come from a wide range of countries, making EVOLVE Second Edition a truly international coursebook. Let's meet them!



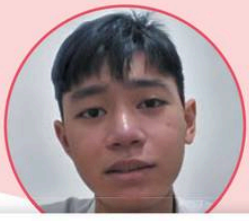
Rita de Cássia Santos Silva
Casa Thomas Jefferson, Brazil



Susumu Okita
Hokusei Gakuen University, Japan

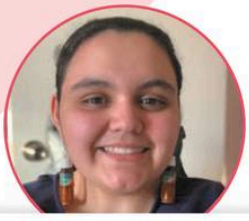


Momo Ogura
Hokusei Gakuen University, Japan



Atchariyapol Chanhorm
King Mongkut's University of Technology, Thailand

Kotchaporn Kamonkasemsunti
Assumption University, Thailand



Andrea Aragón Gassos
ITSON University, Mexico

The Real Student videos have a number of benefits. They:

- **Serve as an ideas prompt.** Students are prompted to think of their own answers to discussion questions in the book.
- **Provoke a response.** Students may find they agree or disagree with the featured speaker and want to react to what they say.
- **Demonstrate attainable speaking models.** The speakers are of a similar level to the students using the book. This gives them the confidence to try for themselves!

The videos are accessed using QR codes seen at different points throughout the book.

Time to speak

Students' progress in English is usually measured by how confident they feel speaking when they are faced with a real situation. To make the most of speaking opportunities in the classroom, students need a "safe speaking environment" where they feel confident, supported, and able to experiment with their English. That's why EVOLVE has dedicated the final lesson in each unit to speaking: **Time to speak**.

These lessons focus on a task with a cognitive challenge beyond language learning, which requires students to collaborate. These immersive activities include decision-making, negotiating, and problem-solving.

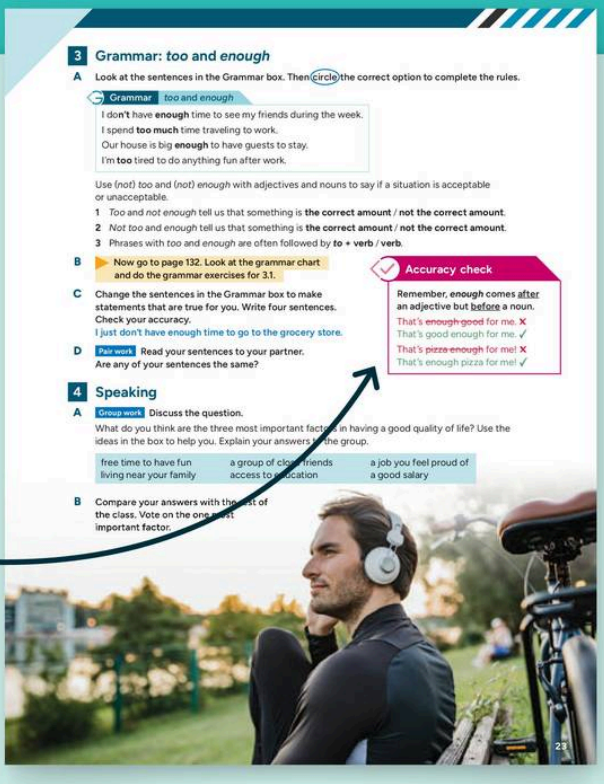
"EVOLVE also builds students' confidence by preparing them for everyday conversations."

Elena Farkas (U.S.A.)

Key features

Accuracy check

The **Accuracy check** feature shows students the most common errors that occur in written and spoken English and explains how to avoid them. These common learner errors are determined by using our unique research tool, the Cambridge Learner Corpus, and can be used for self-editing.



3 Grammar: *too* and *enough*

A Look at the sentences in the Grammar box. Then circle the correct option to complete the rules.

Grammar *too* and *enough*

I don't have **enough** time to see my friends during the week.
I spend **too much** time traveling to work.
Our house is big **enough** to have guests to stay.
I'm **too** tired to do anything fun after work.

Use (*not*) *too* and (*not*) *enough* with adjectives and nouns to say if a situation is acceptable or unacceptable.

1 *Too* and *not enough* tell us that something is **the correct amount / not the correct amount**.
2 *Not too* and *enough* tell us that something is **the correct amount / not the correct amount**.
3 Phrases with *too* and *enough* are often followed by **to + verb / verb**.

B Now go to page 132. Look at the grammar chart and do the grammar exercises for 3.1.

C Change the sentences in the Grammar box to make statements that are true for you. Write four sentences. Check your accuracy.
I just don't have enough time to go to the grocery store.

D Pair work Read your sentences to your partner. Are any of your sentences the same?

Accuracy check
Remember, ***enough*** comes after an adjective but before a noun.
That's ~~enough good~~ for me. ✗
That's good enough for me. ✓
That's ~~pizza enough~~ for me! ✗
That's enough pizza for me! ✓

4 Speaking

A Group work Discuss the question.
What do you think are the three most important factors in having a good quality of life? Use the ideas in the box to help you. Explain your answers to the group.

free time to have fun	a group of close friends	a job you feel proud of
living near your family	access to education	a good salary

B Compare your answers with the rest of the class. Vote on the one most important factor.

2.1 Menu with a mission

Lesson objective
- talk about trends

1 Language in context

A Read the online review about a sustainable restaurant. Which statement best summarizes the restaurant's ideas?
a Waste food can taste great. b Vegetarian food is becoming more trendy.

From Trash to Trending

In the restaurant industry, waste is bad for business and bad for the environment. Every year, an astonishing amount of food ends up in dumpsters, rather than on people's plates. And it's usually once fresh items like salad, potatoes, and apples that end up in the trash.

Now a restaurant here in Portland, Maine is doing something about it. Sustainable Bites is turning unwanted vegetables into **fashionable** cuisine! Now I'll admit, I had my doubts, but I've always believed that if it tastes good, eat it! And their food really does taste good!

This innovative eatery also transforms other commonly discarded items like bread, onion leaves, and carrot peel into delicious meals. Its creative dishes prove that using only luxury ingredients could be **a thing of the past**. This season, its "throwaway tapas" are **all the rage**. Inventive food like this is perfect for a more sustainable snack!

Similar businesses are **gaining popularity** in other U.S. cities, suggesting zero waste is not just a **fad** but a real foodie movement. So, why not give it a try? If you go, you won't regret it!

Glossary
dumpster (*n*) large metal container into which people put waste
peel (*n*) the skin of fruit and vegetables, especially after it has been removed

2 Vocabulary: Describing trends

A 2.01 Pair work Look at the expressions in the box. Listen and say the words. Are they talking about an upward trend, a downward trend, or a description of something's popularity? Think of examples to support your answers.

be a fad	be a thing of the past	be all the rage	be fashionable
be old-fashioned	be on the way out	be the latest thing	be the next big thing
be trendy	come back in style	gain interest	gain popularity
go out of style	lose interest	lose popularity	

A fad is something that is popular for a short time, so that's a description of popularity.
Yeah, do you remember when fidget spinners were a big fad?

B Now go to page 147. Do the vocabulary exercises for 2.1.

C Group work Give your opinion about other trends. Use the prompts below and explain your reasons.
1 For men, beards are definitely ...
2 A trend I really like is ...
3 ... is definitely going out of style.
4 Some old-fashioned things are nice. I hope ... come(s) back in style.

Insider English

Even in a short exchange or conversation, idiomatic language can inhibit a student's understanding. That's why we have **Insider English**. This feature focuses on the informal language and colloquial expressions frequently found in everyday situations, helping students become more confident about communicating in the real world.

Register check

Teachers often report that their students struggle to master the differences between written and spoken English. The **Register check** feature in EVOLVE draws on research into the Cambridge English Corpus and highlights potential problem areas. Students learn to recognize different levels of formality and understand when to use them appropriately.

Register check

In informal writing, use ***a bit*** or ***a little*** to soften a negative comment or opinion.

Find it

Research with hundreds of teachers and students across the globe has revealed a desire to bring the real world into the classroom. With the **Find it** activities, EVOLVE is helping to make that happen. These mobile-friendly tasks allow students to bring live content into the class and personalize their learning experience with research and group activities. These activities are always optional, meaning the teacher can choose whether to include them as part of the lesson.

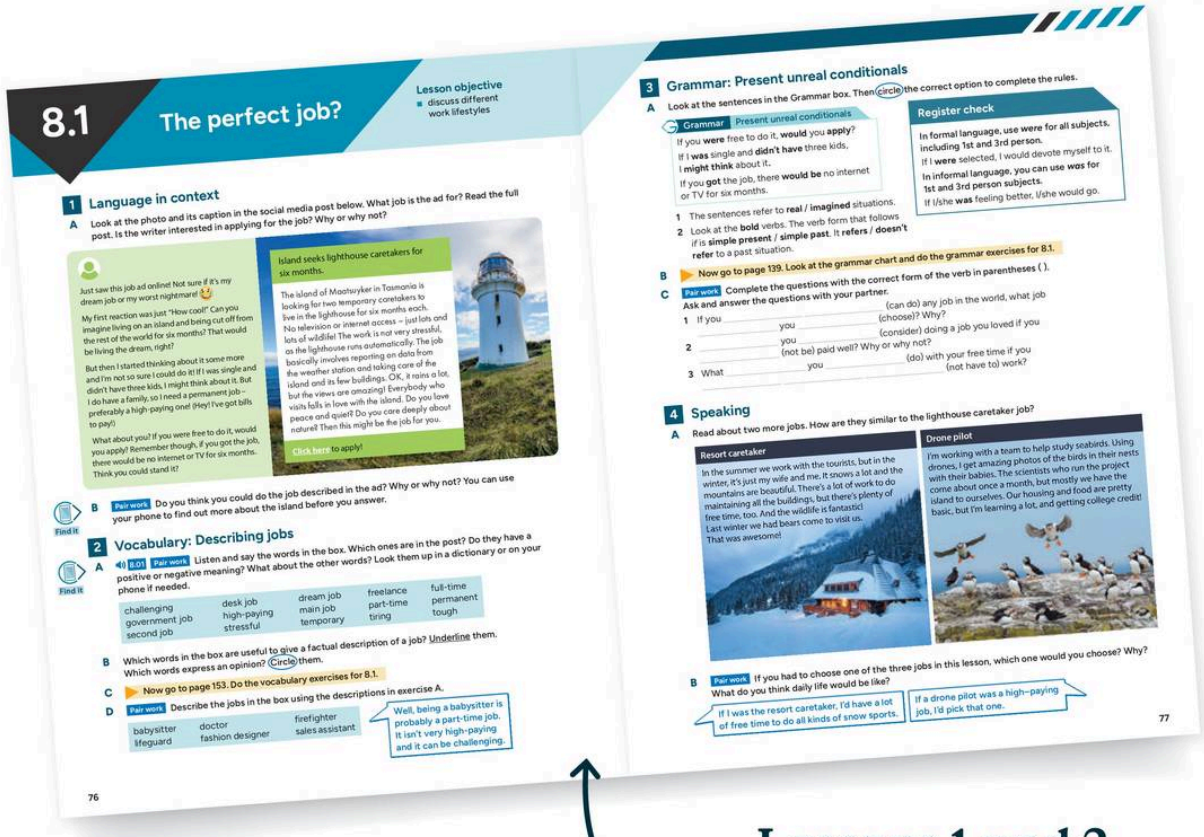
Unit structure

Unit opening page

Each unit opening page activates prior knowledge and vocabulary and immediately gets students speaking.

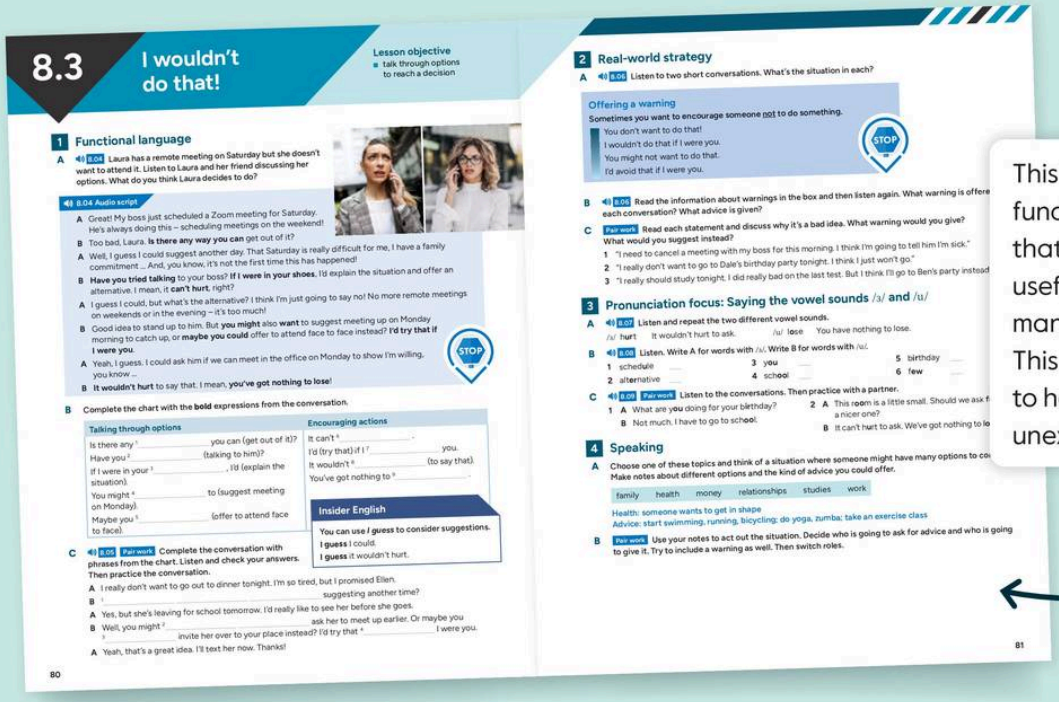


Lessons 1 and 2

These lessons present and practice the unit vocabulary and grammar in context, helping students discover language rules for themselves. Students then have the opportunity to use this language in well-scaffolded, personalized speaking tasks.

Lesson 3

This lesson is built around a functional language dialogue that models and contextualizes useful fixed expressions for managing a particular situation. This is a real-world strategy to help students handle unexpected conversational turns.



Lesson 4

This is a combined skills lesson based around an engaging reading or listening text. Each lesson asks students to think critically and ends with a practical writing task.

Lesson 5

Time to speak is an entire lesson dedicated to developing speaking skills. Students work on collaborative, immersive tasks that involve information-sharing and decision-making.

- write a comment in response to an article

1 Reading

A Predict **Look at the photo. What are the people waiting for? How are they feeling?**

B Read for gist **Read the article from a job search site. Match each heading to the correct section in the article and write it there.**

Questions = Answers The big day A two-way street

Flipping your **job interview**

A _____

Finally! You've landed an interview for a great job. You've done your homework, prepared answers for all the usual questions, done your research on the company, its products, and its customers. There's nothing left to do but cross your fingers and hope. Or is there?

B _____

A job interview is not a one-way conversation. The company is looking for the right candidate, but you're also looking for something – the right job for you.

Come prepared with a few questions that show you are serious about the job. Think about how you want to develop your skills, your training interests, the types of projects you'd like to work on. You can also ask about the social side, if it's a fun place to work – though maybe not in so many words!

C _____

Your answers to their questions are important, but the questions you ask will also help you make a good impression. If you ask about training opportunities, they know you want to learn. If you ask about career paths, they know you have long-term goals. If you ask your interviewer about their own career, they know you are a person who respects their coworkers.

Flip the interview! Be confident and ask the questions that will help you decide if this is the job for you.

C **Read the article again. Choose the best summary.**

a The article recommends different ways to impress an interviewer.

b The article suggests a different way to prepare for a job interview.

c The article explains what happens after a job interview.

D Infer meaning **Explain the meaning of the bold phrases.**

1 You've **landed an interview** for a great job.

2 You've **done your homework**, prepared answers for all the usual questions ...

3 There's nothing left to do but **cross your fingers** and hope.

E Group work Think critically **Do you agree with the ideas in the article? Do you think this is a good approach in all job interview situations? Why or why not?**

I'm not sure this is good advice because ... I disagree. I think this is good advice because ...

2 Writing

A **Read the comments on the article. Which one is ...**

1 asking for more information? ___
2 disagreeing? ___
3 agreeing? ___

Comments

A

I'm sorry, but I think you're being a bit unrealistic. In today's job market, not all jobs are going to be the perfect job. I think it could have a negative effect if you ask too many questions. And what if your questions tell the interviewer that you're NOT right for the job? You could hurt yourself rather than help yourself!

B

Thank you for the really useful information. Can you help me with one thing? I'm not too clear on how best to phrase the questions you suggest. I don't want to look like I'm interviewing them, but I do want to show them that I am a strong, focused, career-minded person. Your help would be great. Thanks!

C

I'm a career counselor with an employment agency. I interview clients all day long and find possible jobs for them. Then they interview for the job with the company. The advice you give in this article is completely right. Companies love it when candidates have good questions and aren't afraid to ask them. It really shows them that you are serious about your career and the company.

B Writing skill **Read the comments again. Find phrases used for the following purposes.**

1 to agree: _____
2 to disagree: _____
3 to show appreciation: _____

Write it

C **Write your own comment in response to the article. Use appropriate phrases for agreeing, disagreeing, and/or showing appreciation. Write 50–75 words.**

D Group work **Share your comment with your group. Do you agree with each other's comments? Why or why not?**

Register check

In informal writing, use ***a bit*** or ***a little*** to soften a negative comment or opinion.

Group B: You have applied for the job. Prepare yourself for the interview (come up with any qualifications and experience you want) and think about questions you can ask about the job and the company.

- write the results of a survey
- create a plan to improve a restaurant

Start speaking

A Look at the photo. What can you see? Would you like to go there? Why or why not? How do you feel about technology replacing people in cafés and restaurants?

B What are the latest trends in food and drink? Which trends do you like? How do you think eating out will change in the future? For ideas, watch Rita de Cássia's video.

Real student

Are your ideas the same as Rita de Cássia's?

2.1 Menu with a mission

Lesson objective
- talk about trends

1 Language in context

A **Read the online review about a sustainable restaurant. Which statement best summarizes the restaurant's ideas?**

a Waste food can taste great.

b Vegetarian food is becoming more trendy.

From **Trash** to **Trending**

In the restaurant industry, waste is bad for business and bad for the environment. Every year, an astonishing amount of food ends up in dumpsters, rather than on people's plates. And it's usually once fresh items like salad, potatoes, and apples that end up in the trash.

Now a restaurant here in Portland, Maine is doing something about it. Sustainable Bites is turning unwanted vegetables into **fashionable** cuisine! Now I'll admit, I had my doubts, but I've always believed that if it tastes good, eat it! And their food really does taste good!

This innovative eatery also transforms other commonly discarded items like bread, onion leaves, and carrot peel into delicious meals. Its creative dishes prove that using only luxury ingredients could be **a thing of the past**. This season, its "throwaway tapas" are **all the rage**. Inventive food like this is perfect for a more sustainable snack!

Similar businesses are **gaining popularity** in other U.S. cities, suggesting zero waste is not just a **fad** but a real foodie movement. So, why not give it a try? If you go, you won't regret it!

Glossary
dumpster (*n*) large metal container into which people put waste
peel (*n*) the skin of fruit and vegetables, especially after it has been removed

2 Vocabulary: Describing trends

be old-fashioned	be on the way out	be the latest thing	be the next big thing
be trendy	come back in style	gain interest	gain popularity
go out of style	lose interest	lose popularity	

A fad is something that is popular for a short time, so that's a description of popularity.

Yeah, do you remember when fidget spinners were a big fad?

B Now go to page 147. Do the vocabulary exercises for 2.1.

Find it

Today we're going to prepare *kimchi*, a spicy cabbage recipe from Korea. Even if you don't like cabbage, after you hear this recipe, you'll want to try it. Let's begin!

First, **chop** a head of cabbage into small pieces, cover it with salt, and leave it in water. Let it stand for about two hours, then **rinse** the cabbage in cold water and drain it. **Stir** together the garlic, ginger, and sugar. Add in shrimp paste and a chili powder called *gochugaru*. Then add in the spring onions and radish. Use your hands to mix it all together with the cabbage – remember to wear gloves!

Finally, put the kimchi into a jar and leave it to ferment. You'll have to wait about five days until the kimchi is ready to eat. When the flavor is just right, transfer it to the fridge – that stops the fermentation process.

Kimchi will stay fresh in the fridge for up to three months. Your guests will be so impressed when they try it. You'll see!

3 Writing

A **Read the research findings about vegetarianism in different countries from a recent study. Why can vegetarianism be seen as a positive option? In which countries have there been the biggest changes?**

In recent years, there's been a rise in the number of people choosing vegetarianism or veganism in many parts of the world. Health benefits, environmental concerns, and animal welfare have all been stated as reasons for this trend. For example, studies have shown that a vegetarian or vegan diet can help reduce the risk of serious medical conditions, such as heart disease, while production of plant-based foods results in lower greenhouse gas emissions than meat production.

For this study, people in eight countries were surveyed about their diet. The survey was carried out in 2018/19 and repeated in 2021/22. The results show that people are changing what they eat, but they are not always doing so in the same way. In seven of the eight countries, over 90% of the people who were surveyed said they still ate meat, so vegetarians are still in the minority. However, that does not paint the full picture. For instance, the numbers are growing in places like Germany and the UK, while in the U.S., vegetarianism almost doubled from 2.9% to 5.1% over the three-year period. In contrast to this trend, Mexico has seen little change.

Findings in Asia were mixed. In South Korea, the number of people who reported that they were vegetarians rose by 1.6%. However, in China, there was a 4.2% drop. Meanwhile, in India, 6% of the people who were interviewed said they were no longer vegetarians. This may have to do with changing eating habits influenced by other cultures. However, India is still the country with the most vegetarians in the world – over a quarter of the population.

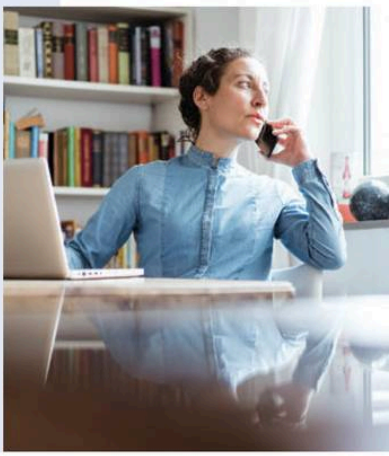
1 Language in context

A 3.01 **Do you, or does anyone you know, work from home? What are the advantages and disadvantages? Listen to a podcast interview with two young professionals. Do they like working from home? Why or why not?**



3.01 Audio script

Host A recent survey showed that most workers in the U.S. are happy to [a]**take a cut in salary** if they are able to work at least part of the time from home. [b]**Hybrid working**, [c]**flexible working hours**, and [d]**remote working** help them find a better [e]**work-life balance**. Last fall, Henry Ciprani left his full-time office job and started working from home.

Henry I used to work in an office downtown five days a week. I spent around two hours a day traveling. That was just too much time! When I got home, I was too tired to do anything fun. It really [f]**wasn't worth it**. It was affecting my [g]**quality of life**, so I quit. Now I work from home. It's made such a big difference. I make less money, but now I have enough time to see friends and go swimming. I really [h]**value** the extra time and I love my new [i]**lifestyle**!

Host Dana's company switched to remote working, and her family made some big changes to their lifestyle.

Dana When I started remote working, we sold our apartment in the city and moved to a small town. The [j]**cost of living** here is much lower and the difference is big enough that we've seen a real increase in our [k]**standard of living**. We have a bigger home, and we [l]**can afford** to go on vacations as a family. I'm starting a new job now and hybrid working, so I'll be going into the office two days a week. It isn't ideal, but it'll be good to see my co-workers in person!

3.2 The price of coffee

Lesson objective
- discuss value and how we measure it

1 Language in context

A **How often do you go to cafés? What do you order to drink there? How much does it cost? Do you think it's a good price? Why or why not? Read the review of a coffee shop. What makes it different from other coffee shops?**

A coffee shop with a difference

I just treated myself to by far the best coffee I've ever had, and it was nowhere near as expensive as my usual coffee shop! There's nothing special about the café, though it is a little busier than other places. There's really just one thing that makes it different: you pay what you want.

Every café comes up with its own price to charge for a cup of coffee. It can be much cheaper than other places or a whole lot more expensive, depending on the café's own costs, but also things people are willing to pay more for, like atmosphere. If there's a beautiful view, a café makes the most of it with big windows and raises the price a penny. If customers want to take advantage of the free Wi-Fi, there's another penny. It all has an effect on the price.

This café, however, suggests a price for its coffee, but most people pay more. They know they can rely on the quality of the coffee, and they like that the café trusts them to pay a fair price for it. They feel they play an important role in the business. And when customers feel invested in your success, how can you lose?

B **Read the review again. Does the reviewer like the café? Do other customers like it? How do you know? Have you ever been to a café or restaurant where you can pay what you want?**

! A *penny* is a coin worth 1/100th of a U.S. dollar. The phrase *a penny* is often used to represent any small amount of money.

2 Vocabulary: Talking about prices and value

8 suggest a price _____
9 rely _____
10 pay a fair price _____
11 play an important role _____
12 invest _____

B **Now go to page 148. Do the vocabulary exercises for 3.2.**

C Pair work **Discuss the questions.**

1 Where do you go when you want to treat yourself to a special meal? Does that place charge a fair price for their meals? How much would you pay if you could come up with your own price?
2 Do you think it's a good idea for businesses to suggest a price rather than charge for things? Why or why not?

I like to treat myself to dessert at a little café near the station. They charge a lot for some things, but it's worth it!

3 Grammar: Modifying comparisons

A Look at the sentences in the Grammar box. Then circle the correct option to complete the rules.

Grammar Modifying comparisons

I just treated myself to **by far the best** coffee I've ever had.
It was **nowhere near as expensive as** my usual coffee shop.
It's **a little busier** than other places.
The price can be **much cheaper** or **a whole lot more expensive**.

1 To show a **small** difference using comparative adjectives, use **a little or a bit** / **a whole lot or much**.
2 To show a **big** difference using comparative adjectives, use **a little or a bit** / **a whole lot or much**.
3 To show a **small** difference using an *as* ... *as* ... comparison, use **nowhere near** / **almost or nearly**.
4 To show a **big** difference using an *as* ... *as* ... comparison, use **nowhere near** / **almost or nearly**.
5 To show a **big** difference using superlative adjectives, use **nowhere near** / **by far**.

B Now go to page 133. Look at the grammar chart and do the grammar exercises for 3.2.

C **Pair work** Compare the products and services (1–3) using the adjectives in the boxes. Make at least three comparisons for each item. Use modifying expressions where you can.

cheap expensive delicious

1 a burger from a fast-food restaurant / a burger from a local restaurant / a gourmet burger at a five-star restaurant
A burger from a fast-food place is much cheaper than a gourmet burger. A gourmet burger may be a whole lot more expensive, but it is by far the most delicious of the three.

cheap comfortable expensive fashionable

2 some sandals to wear on the beach / a pair of sneakers you bought at the mall / a pair of shoes you bought to go to a wedding

a birthday present	a bottle of perfume
a new phone	a pair of jeans
a pair of sunglasses	a set of earbuds

I don't really care about clothes, so I wouldn't spend more than $50 on a pair of jeans. I'd spend a lot more on a nice bottle of perfume!

A Well, not the whole bike ... just the front tire.
B You mean you didn't lock the front tire?
A I know, Kathy, I know, **I can't believe I didn't lock it**. **I can't tell you how sorry I am**! I'll go out today and get you another one. I am so, so sorry.
B It's OK, Justin. It's not the end of the world. A new front tire shouldn't cost too much. How about I order one and let you know how much it is?
A Yes, yes, whatever you want. I'll pick it up from the bike store for you, too.
B OK, deal!

C Complete the chart with the **bold** expressions from the conversation.

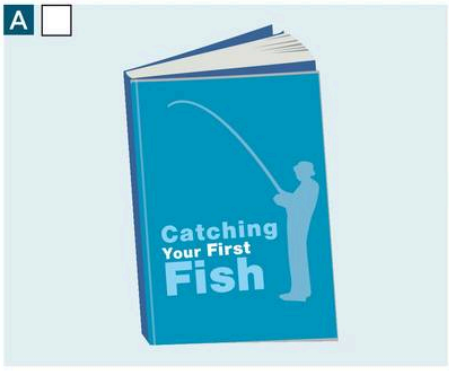
3.4 Buyer beware!

Lesson objective
- write a product review

1 Reading

A Look at the three photos. What problems might people have when they buy these things online? Read three stories about online shopping. Match them with the photos. What were the problems each time? Which story has a happy ending?

A ☐



B ☐

C ☐

What is your best or worst online shopping story?

1 I saw a photo of a rug that was perfect for my room. The price was amazing, too – about a quarter of the price of other rugs. So, I bought it. When it came, I was surprised. The box seemed really small for a rug. When I opened it, I saw why. It wasn't a rug at all – it was a mouse pad! I guess I got what I paid for! (Jensen, Texas)

2 I ordered a beautiful cake for my parents' anniversary – simple and elegant, just what I wanted. The website asked what I wanted written on the cake, and I wrote "nothing," because I wanted to do that myself. When it arrived, I opened the box and, you guessed it, **NOTHING** was written on top, in big black letters! I couldn't believe it! (Bella, Minnesota)

3 It was my grandfather's 75th birthday and I wanted to get him something special. When he was young, he wrote a book about fishing, but he lost his only copy in a fire years before. I tried to find another one at used bookstores and online book sites. One place claimed they could find it. They had no reviews, but I was desperate, so I took a chance. Three days later the book arrived! Grandpa was so happy. It's by far the best birthday present I've ever bought for anyone! (Harry, Chicago)

B Read for details **Read the stories again. Answer the questions.**

1 Why did Jensen want that particular rug?
2 What did Bella want to put on the cake?
3 Why was Harry unsure about the online bookstore?

C Pair work Think critically **Discuss the questions.**

1 Who is to blame for Jensen's and Bella's shopping fails? The store owners? Jensen and Bella themselves? Why?
2 What could Jensen and Bella do differently next time, so they don't repeat their shopping fails?

Insider English

You get what you pay for.

People use this phrase when they think they bought something of high quality at a low price, but in the end they were wrong. The quality is right for that price.

I was really pleased with this product.

They're so comfortable to wear – much more comfortable than my last ones. And I love the little case – it's very convenient.

They have great sound quality and are really simple to take phone calls on. They also really block out background noise.

Lesson objective

A **Prepare** With a partner, look at the photo. What problem are the people having? Did something like this ever happen to you?

B Read the reviews. What problems did each customer have? How do they feel about their experiences? How many stars do you think each customer will give in their product review?

So disappointed! The photos on the website looked amazing: a peaceful campsite under some trees at the edge of a beautiful lake. It looked like paradise. It wasn't! The lake and the trees were there, but what we didn't see in the photos was the huge music festival on the other side of the lake. It was so loud! We hardly slept at all. We packed up and left in the morning. Never again!

Great bike... if you can put it together. I got this bike for my son's birthday. I knew that I needed to put it together myself, but I didn't know it would be this hard! There's like 100 pieces and ONE page of instructions. It took me five hours to finish it, but now I'm afraid for him to ride it!

apologize	offer a refund	offer a replacement

D **Present** Form a new group with three new partners. Take turns and present your original group's solution to the new group. Ask and answer questions and offer advice for improvement. Then return to your original group and compare notes. Revise your plan of action.

- exchange and discuss opinions
- write a response to a post about local businesses
- design an ad for a product

Start speaking

A Look at the photo. Where do you think it was taken? How many different signs can you see? What do you think they are selling?

B How many different places do you see ads? How many ads do you think you see in one day? How many do you pay attention to? For ideas, watch Kotchaporn's video.

Real student

Is your experience like Kotchaporn's?

4.1 More than just a jersey

Lesson objective
- speculate about a photo

1 Language in context

A Look at the infographic. Do you recognize any of the team names? What sport do they represent? What type of information does the infographic give about the teams?

B Read part of an article on sports marketing. What is a major source of income for these soccer teams? Think of sports teams in your town or country. Do they make money in similar ways?

Soccer is the world's highest earning sport. You might think that the money comes from ticket sales. But actually, a lot of it comes from sales of **merchandise**.

Take Real Madrid, for example. Business from its **sponsor** represents nearly half of the team's total revenue. For the French team Paris Saint-Germain (PSG), sponsorship and **merchandising** also represents around half. That could mean that PSG's **brand** is as valuable as the team itself!

All teams have corporate sponsorship deals, which usually means putting the sponsor's **logo** on the jersey. In the case of Real Madrid and PSG, the sponsors are both airlines – Emirates for the former and Qatar for the latter. So, the teams are sports rivals and represent direct commercial rivals, too.

Sponsorship is everywhere in professional sports. These days if teams don't have sponsors on their jerseys, they can't be taken seriously. Even in the U.S., where the idea was initially not popular, most NBA teams now have sponsors on their shirts. TV **commercials** that **advertise** games are also **ads** for the sponsors' **products**.

Because sports team brands are so valuable, authentic jerseys are **status symbols** and **fashion statements**. Other branded products, from coffee mugs to mousepads, also bear the team's (and sponsor's) logo and/or **slogan**. All of this merchandising means fakes are everywhere, too. But if your Real Madrid jersey costs three times the price of one you see on the street, it must be the *Real* thing!

C Read the article and the infographic again. Check (✓) the statements that are true. Correct the false ones.

- ☐ **1** All soccer teams now get most of their revenue from merchandise sales.
- ☐ **2** The soccer teams Real Madrid and Paris Saint-Germain have two things in common.
- ☐ **3** Sponsorship of NBA teams is a relatively new trend.
- ☐ **4** The sponsor's name only appears on a team's jersey.

! **All the money a company takes in is its *revenue*. The money that is left after all expenses are paid is its *profit*.**

Revenues from merchandising and ad sales are down, but **profits** from ticket sales and parking will balance that.

2 Vocabulary: Talking about advertising

Find it

A 4.01 **Listen and say the words. Find the words below in the article and try to guess their meaning. You can use your phone to help you. Then discuss the questions.**

ad / advertisement	merchandising	advertise	brand
merchandise / products	status symbol	sponsor	logo
fashion statement	commercial	slogan	

What is the difference between ...

1 a sponsor (*n*) and sponsor (*v*)?
2 merchandise and merchandising?
3 a brand, a logo, and a slogan?
4 advertise (*v*), an advertisement, and a commercial?
5 a status symbol and a fashion statement?

B **Now go to page 149. Do the vocabulary exercises for 4.1.**

3 Grammar: Modals of speculation

A **Look at the sentences in the Grammar box. Then complete the rules.**

Grammar Modals of speculation

You **might** think that the money comes from ticket sales.
If it's three times the price, then it **must** be the real thing.
If teams don't have sponsors, they **can't** be taken seriously.

We can use *must, must not, may, might, can't,* and *could* to speculate.

1 When you're not sure that something is true, use _____, *could*, or *may*.
2 When you're sure that something is true, use _____.
3 When you're sure that something is not true, use _____ and *must not*.

Accuracy check

Don't use *can* for speculation.

They ~~can~~ be the best soccer team this season. ✗
They might be the best soccer team this season. ✓

B **Complete the sentences with an appropriate modal of speculation. Then check your accuracy.**

1 They _____ be a very good team. They haven't won a game this season!

3 They _____ win the league this season. They're playing so well!

C **Now go to page 133. Look at the grammar chart and do the grammar exercises for 4.1.**

4 Speaking

A Group work **Look at the photo. Speculate about what is happening. Who makes the most interesting guess?**

It can't be an actual game. It must be during practice.

He might be teaching the dog to play soccer.

4.2 Viral stories

Lesson objective
- talk about viral stories

1 Language in context

A 4.02 **Look at the photo. Do you know about this image? What do you think the story is about? Listen to the podcast and check your answers.**

4.02 Audio script

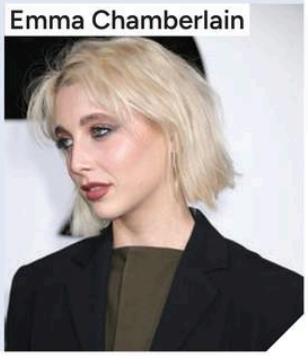
Today we're talking about viral stories and their impact. The internet is full of viral stories – stories that we see and share, and then others reshare again and again and again. Surprisingly, viral stories are often not about **celebrities.** You don't have to be a famous **entertainer** or a cultural **icon** to go viral. In fact, many of the most popular viral stories involve children.

Take the story of Professor Robert Kelly who was giving a live BBC interview at home in South Korea when his kids interrupted him. The comedy of this very human moment made a huge impact on people. It went viral on YouTube where Kelly became an unlikely celebrity.

Stories which warm our hearts are not the only ones that can go viral. Many are just silly or amusing. There are countless online **performers** that we only know thanks to YouTube. Many are people who are just filming their everyday lives.

There are people like influencer Emma Chamberlain who became famous for doing funny things. Her YouTube channel, which she started at the age of 15, has 12 million subscribers and her videos have gained over 1.5 billion views. Her road trips around the U.S. and fashion advice are among the most popular. Her videos are not going to change the world, but they might make us laugh. And sometimes, maybe that's enough.

Emma Chamberlain



B 4.02 **What categories do viral stories or videos usually fit in? Listen again and check.**

C Pair work **What people can you think of who have become famous overnight and/or online? Do you think they deserve to be famous? Why or why not?**

2 Vocabulary: Talking about people in the media

1 audience
2 celebrity
3 comedian
4 designer
5 DJ
6 entertainer
7 filmmaker
8 hero
9 icon
10 model
11 movie producer
12 performer

B **Pair work** Think of an example of one person for each word.

A celebrity can be anybody who is famous for something. For example, Stephen Hawking was a scientist, and he was definitely a celebrity.

C Now go to page 149. Do the vocabulary exercise for 4.2.

D Complete the sentences so that they are true for you.

1 A performer I really admire is ...
2 My hero from childhood was ...
3 An icon in my culture / country is ...
4 A DJ I love to listen to is ...
5 My favorite filmmaker is ...
6 A well-known fashion designer here is ...

3 Grammar: Subject and object relative clauses

A Look at the sentences in the Grammar box. Then complete the rules.

Grammar Subject relative clauses

Take the story of Professor Robert Kelly **who was giving a live BBC interview** at home in South Korea when his kids interrupted him.

Grammar Object relative clauses

The internet is full of viral stories – stories **that we see and share**, and then others reshare again and again and again.
It went viral on YouTube **where Kelly became an unlikely celebrity**.

1 Relative clauses give extra information about _____ , things, or places.
2 A relative clause begins with a relative pronoun: *who*, *which*, _____ , or *where*.
3 In subject relative clauses, the relative pronoun is the subject of the clause and is always followed by a **noun or pronoun** / **verb**.
4 In object relative clauses, the relative pronoun is the object of the clause and is followed by a **noun or pronoun** / **verb**.

B Now go to page 134. Look at the grammar chart and do the grammar exercises for 4.2.

C **Pair work** Choose <u>three</u> people from exercise 2D. Ask your partner to tell you about them.

Tell me about a performer who you really admire.

I really admire Carlos Vives. He's so talented. He can sing and he can act!

4 Speaking

1 Most people who become famous online have no real talent.
2 It's too easy to be a celebrity these days. In the past, you had to be really good!
3 It's great that we can all become stars. Anyone can be discovered – it's more democratic!
4 The media spend too much time talking about celebrity gossip. It's boring and unimportant.
5 I love all the news about celebrities. It's funny and distracts me from all the serious news in the world.

Real student

4.3 That's a good point, but ...

Lesson objective

4.04 Audio script

A Colombia is playing Uruguay this afternoon, want to watch it?

B Soccer? Well, not really. **As I see it**, soccer is just two teams running around for 90 minutes to score two, maybe three goals. To be honest, **I find it** really boring.

A **Now, just a second**. That's not fair at all. Even if the score is low, there's *a lot* happening. Sports are about strategy.

B OK, **that's a good point, but** 90 minutes? The strategy is that interesting?

A Yes, absolutely. And soccer is a cultural experience, too. **I really think** you'd enjoy that side of it at least.

B **It's not so much that** I'm not interested. **It's just that** I don't really understand the game. I just feel lost when I watch it.

A OK, **but the thing is,** you have to watch a sport to understand it. You like basketball now, but you didn't before we went to some games.

B **That's true, but** basketball was more familiar to me. With soccer, you're going to have to explain everything!

A I have to talk about soccer all afternoon? Hey, no problem.

1 **A** Soccer is a multimillion-dollar sport now, and money is destroying the game.
B Now, [1] _____ – destroying the game? That's a bit strong.
A Maybe, but I really [2] _____ it's true. It's all about money now.

2 **A** Advertising is such a creative industry these days, don't you think?

2 Real-world strategy

A 4.06 **Listen to two people talking about movies. What do they disagree about?**

Make opinions more emphatic

When we disagree strongly with someone, we often want to express an opinion more emphatically.

That's not true **at all.**

I **couldn't** disagree **more**.

You have it **all** wrong.

B 4.06 **Read the box above. Complete the conversation with expressions in the box. Listen and check.**

A Hey, do you want to go see that new superhero movie with me?

A What? I [1] _____. The special effects are great, and they're really funny.

B Funny? Come on. They're written for 12-year-olds.

A That's [2] _____. Take *Deadpool*, for instance. That movie's very funny, and the jokes are definitely written for adults.

B If you say so. Personally, I'd much rather see a spy movie, like James Bond. They're exciting, but realistic.

A You've got to be kidding. Evil villains and spy gadgets? Now, that's silly.

B No, no. You [3] _____. That's the old ones. The new ones are really good.

C Pair work **Student A: Give an opinion about a sports team, a movie, or an entertainer that you know. Student B: Disagree emphatically with A. Then switch roles and have a similar conversation.**

3 Pronunciation focus: Saying the vowel sounds /ɔ/ and /ɑ/

4. The price of a pair of Havaianas in Brazil is **much less** / **much more** than in international markets.
5. The international success of this product is due to **the product itself** / **its marketing**.

Insider English

Flip-flops get their name from the sound they make as you walk in them: ***flip-flop, flip-flop***. There are a number of words in English that come from the sound something makes: ***clap*** your hands; a dog's ***bark***.

Find it

D **Pair work** **Think critically** Havaianas were originally workers' shoes and are now a global fashion item. What other companies can you think of that started local and went global? Share the story with the class. You can use your phone to help you.

3 Writing

A **Read the post on social media about the impact of global brands on local communities. What change does the writer describe? From whose point of view is this written?**

Posts Log in Sign up

Recently, an international company opened a couple of convenience stores right on Main Street. There weren't any chain stores like this before, only small, family-run stores that sell local products. As a result, our town had a nice traditional feel.

These new stores are ugly, but they stay open late. Due to the large number of people who work the late shift at local factories, these stores are sometimes their only option for grocery shopping. Also, thanks to the fact that they're part of a large chain, they can offer a bigger range of products at lower prices than independent stores.

Consequently, a lot of the independent stores downtown are closing. They just can't compete. I think this is a real shame, as we are losing more than stores, we're losing an important part of the community.

Is the same thing happening where you are? Share examples from your community.

B **Read the post again. What reasons does the writer give for the new stores' success? Does he have a positive or negative opinion of the changes in his town?**

C Writing skill **There are five expressions in the post that introduce reasons and consequences. Find them and write them below based on similar meaning.**

1 because (of): _____

_____

_____

2 so: _____

_____

D Pair work **Think of an example from your community. Consider the following questions:**

- Which new stores have appeared and which have disappeared?
- What are some reasons for the success of the new stores?
- How do the new stores affect local employment and/or local traditions?
- Is it, generally speaking, a change for the better or for the worse?

Write it

E **Write a response to the post using your community as an example. Write 100–120 words. Include a description of the new business(es), the old business(es), and the reasons for and consequences of the change.**

A big supermarket has opened in the downtown area. It sells food at cheaper prices and they have more choice. As a result, the little shops selling fruit and vegetables have closed. It's not good for the community at all.

F **Read your response to the class. Do your classmates agree with you? Why or why not?**

4.5 Time to speak
Design an ad

Lesson objective
- design an ad for a product

A **Research** Read about advertising techniques. With a partner, think of types of products (toothpaste, running shoes, medicine, etc.) and discuss which techniques are typically used in their ads.

Ads for high-end watches often have athletes in them.
So that's an endorsement by a celebrity.

1 Endorsement: a respected expert or celebrity supports the product, e.g. a movie star does commercials for a brand of shampoo, or a famous soccer player puts his name on a new cologne for men

2 Association of ideas: the product is connected to a particular idea, e.g. a brand of clothing and having fun

3 "The camera never lies": the product looks visually attractive or appealing, such as the perfect snack

4 Technology: the product is (or uses) the latest and best technology, for example, the latest generation smartphone

5 Guilt: the ad makes the customer feel bad for not having the product already, for example, a safer car seat for children

B **Decide** Work in small groups to design an ad for a product. Choose one of the products in the box or think of another one. Decide on the central idea or main image for your ad and also the technique(s) that would be best to sell your product. You can draw it or write a plan for it.

car | cosmetics | food product | jewelry | sports equipment | TV show

Our product is jeans. We could use a DJ in a club where people are dancing. The technique might be association of ideas because people will want to have a cool lifestyle like this.

C **Present** Explain your group's idea to a student from another group. Ask for their feedback and take notes. Rejoin your group and share all the feedback. Work with your group to refine and improve your ad. Be sure your final ad includes the following:

- a main image (or an idea for one)
- a slogan
- a short text to accompany the ad

D **Agree** Present your ads to the class and explain the technique(s) you chose to use. Watch the other presentations and decide which one is the most effective and most original. Explain your opinion.

Useful phrases

Research
- The ad for ... uses ...
- The people in the ad look like they ...
- Ads for ... make me feel ...

- How about a food product?
- Let's use the ... technique.

A What's up with Suzie lately? She's just so unreliable. Last night, we were going to get together, and I was really looking forward to hanging out with her. Then, at the last minute, she sent me a message to say that she was held up at work and to go ahead without her. I ended up just staying home.

B You're right! Last week, she really messed things up for me, too! I'd bought tickets for both of us to see a concert. About an hour before we were supposed to meet, she messaged, said she was sorry to let me down, but she couldn't go. She said her sister had split up with her boyfriend and she had to try to cheer her up.

A No way! She's always making up excuses.

B I know! And it's always in a message.

A I'm about ready to give up on her!

5.4 The perfect apology?

Lesson objective
- write a formal apology

1 Reading

A Pair work **Look at the photo. What sport are they playing? How do you think the fans feel at this moment? How do you feel when a team or sportsperson you like wins? And when they lose?**

B **Read an article about a team that didn't perform very well. How did the fans feel? Do you think they felt better after the apology?**

The Perfect Apology

The Toronto Maple Leafs are one of Canada's most famous and popular ice-hockey teams. They have dedicated fans who follow their heroes through the good times and the bad. And when the team does badly, the fans suffer.

One season the Maple Leafs did especially badly. And it came as no surprise that the fans felt disappointed, hurt, and angry. What did come as a surprise though, was the club's response. The team had performed so poorly that the manager felt it was necessary to issue a public apology on behalf of the club. The letter he wrote has been held up since then as an example of the perfect corporate apology.

The manager's letter was published on the team's website. It was addressed to "the greatest fans in the world." He started by recognizing that the team had let the fans down. He then apologized sincerely and said that he accepted responsibility for the disappointing results. This is what he said:

"We have fallen short of everyone's expectations, and for that we are sorry. We take full responsibility for how this team performs on the ice, and we make no excuses. The way this year ended was unacceptable."

The apology was effective because it was honest and heartfelt. He openly admitted that the team had played badly, he recognized that the fans had suffered, and he made a commitment to do better the following season.

"We are 100% committed to ensuring we ice a team that competes with the NL's best. ... The Toronto Maple Leafs are privileged to have such passionate and loyal fans. We do not take that for granted. Our entire organization wants nothing more than to deliver a team that makes you proud."

In short, he followed the three golden rules for a perfect apology: say you're sorry, be honest and open about the mistakes you have made, and show a genuine commitment to doing better in the future. These are rules that anyone can, and should, follow.

C Interpreting attitude **Read the article again. Why does the writer think the apology was so good? Underline the positive adjectives and adverbs they use to show their opinion.**

D Understanding meaning from context **Find words in the article with the following meanings:**

1 (*phr*) representing _____
2 (*adj*) associated with business _____
3 (*phr v*) not reach a particular level _____
4 (*n*) a firm promise to do something _____

E Think critically **Why did the club manager make a public apology? Is it usual for professional sports teams or corporations to apologize when they make a mistake? Can you think of any recent examples? Is a public apology enough? Why or why not?**

2 Writing

A **Read an excerpt from another famous corporate apology. In what way is it similar to the apology in the Toronto Maple Leafs article? Does it follow the three rules for a good apology?**

> We sincerely apologize to *Moonlight*, *La La Land*, Warren Beatty, Faye Dunaway, and Oscar viewers for the error that was made during the award announcement for Best Picture. The presenters had mistakenly been given the wrong category envelope and when discovered, it was immediately corrected. We are currently investigating how this could have happened, and deeply regret that this occurred.

B **Read the apology again. What does "this" refer to in the final sentence? Which of the phrases below could you use to replace "this"?**

our regret	the mistake
our apology	the category

C Writing skill **Look at this short corporate apology. Rewrite the second sentence to avoid repetition.**

> Last week our company accidentally released the personal data of some of our customers. We are deeply sorry for releasing the personal data of some of our customers.

Find it

D **Look at the situation below, or go online and find a similar situation that has been in the news recently. Think about the questions.**

An online streaming service has discovered that it accidentally overcharged two million of its customers for one of its services.

- How much did they overcharge the customers and for which service?
- What can the company do to show they're sorry?

Write it

E **Write a public apology from the CEO of the streaming company. Write about 80 words. Remember to avoid repetition where possible.**

6.2 Random acts of kindness

Lesson objective
- discuss acts of kindness in your community

1 Language in context

A **When you borrow money and then return it, you "pay it back." But what do you think it means to "pay it forward"? Circle the correct option. Then read the blog post to check your answer.**

a Be generous to everyone you meet and they will be generous to you someday.

b Be nice to someone because someone else has been nice to you.

c When you don't owe anyone anything, you feel good about yourself.

Can a cup of coffee really **change the world**?

1 I recently came across this amazing book called *Paying it Forward: How one cup of coffee could change the world*. The author, Sandi Mann, came up with a simple, but original, social experiment. She would **lend a helping hand** to strangers – for example paying for their coffee or offering her umbrella in the rain – and in return ask them to do a nice thing, too. But not for her – for someone else! She wanted them to "pay the **kindness** forward." I loved the book and I started thinking, "Why don't I try it?" I mean, how hard can it be, right? Well, according to the author, pretty hard!

2 Firstly, Sandi's experiment showed that, for an **act of kindness** to be paid forward, the original good deed must be met with **gratitude**. You see, not all offers of help are actually, well, **helpful**. Sometimes they can be interpreted as unwanted attention. Your **thoughtful gesture** might not be accepted with a **grateful** smile. And if the person isn't **appreciative** of your good deed, well, the chain breaks down.

3 And a lack of gratitude is not the only problem. Even when someone does **appreciate** your help, that may not be enough for them to pay it forward. You know they say that "**kindness is its own reward**," right? Unfortunately, that's not always true. Sandi points out that a kind act will not be paid forward if it is too difficult or takes too much time.

4 So, were all these challenges enough to put me off? No way! I was determined to start my own chain of good deeds. And this morning, that's exactly what I did. I bought someone *that* cup of coffee and asked only that they pay it forward. I wonder if they will.

B **Read the blog post again. Which description a–d matches each paragraph 1–4?**

a Not all kind acts are paid forward.

b Acts of kindness are not always welcome.

c Deciding to give it a try

d The idea behind a unique experiment

_____	appreciation	_____	show your appreciation
	_____	rewarding	... is its own reward

B Now go to page 151. Do the vocabulary exercises for 6.2.

C **Group work** **Discuss the questions.**

The original good deed **must be met** with gratitude.
Your thoughtful gesture **might not** always **be accepted** with a smile.
Some offers of help **can be interpreted** as unwanted attention.
A kind act **will not be paid forward** if it is too difficult.

1 To form the passive with a modal, use modal verb + *be* + **simple past** / **past participle**.
2 For something that is probable but not definite, use the modal **can** / **might** / **must** / **will**.
3 For something that is one of many possibilities, use the modal **can** / **might** / **must** / **will**.
4 For something that is definite or necessary, use the modal **can** / **might** / **must** / **will**.

A Look at the photo of another project. What do you think the idea behind it is? Read the report to check your answer.

Vertical gardens cover the walls of art centers and apartment blocks in many cities around the world, but Mexico City is doing something more ambitious. Their "Verde Vertical" project is aimed at transforming hundreds of pillars that support overpasses into vertical gardens.

A spokesman from the company responsible for the gardens promises that pollution will be reduced and the cityscape will be improved: "We live in a very gray city, but as soon as we find a park, a green landscape, our mood changes. This is going to change people's routines."

When asked for comment, one driver said, "I drive to work every day on this road and there's a lot of traffic. It's stressful. Just seeing something green relaxes me, you know?"

However, a pedestrian disagreed: "A road is a road. They can disguise it with these plants, but it doesn't change anything."

The project aims to provide the city with an extra 40,000 meters of greenery to improve both air quality and the mood of the city's 20 million residents. The lives of those stuck in the city's traffic jams should be improved greatly – at least in theory!

B Read the report again. What is the difference between this project and the Portland project (from exercise 1)? What do they have in common? Consider these points:

- the people who benefit from the project
- the goals of the project

Which project do you prefer? Which one do you think is going to help the community more?

Your urban art project

Lesson objective
- design an urban project for your community

Find it

A **Research** Look at the photo and read the description. Go online to find out more if you can. Then discuss the questions.

- What do you think is especially interesting about this art project?
- How do you think it benefits the community and its people?
- How might this project inspire others?
- Is there anything similar (in appearance or inspiration) in your area? Describe it. Find photos online if you can.

The Morrinho Art Project is a model of a *comunidade* (neighborhood) in Rio de Janeiro. It was created by 14-year-old resident Cirlan Souza de Oliviera to show pride in his community.

B **Decide** Work in small groups. Think of a space in your town or city which could benefit from urban art. Discuss these points:

1 The place: Decide on a place in your town or city that could benefit from a project.
2 The project: What are you going to create in this space?
3 The benefits to the community: What advantages will the project bring to the community? How will that happen?

The old city walls should be restored and volunteers from each of the city's neighborhoods can create a mural that explains something about their area – a visual history of the city.

C **Discuss** Work with a student from a different group. Explain your projects to each other. Suggest improvements and possible changes to the projects. Make notes to show to your group.

D Return to your original group and compare notes. Make any changes necessary. Identify the main points of your project, give it a name, and prepare your presentation.

E **Present** Present your project ideas to the class. Listen to all the presentations and decide on the most effective and the most original. Be prepared to support your opinion.

7.1 A common language

Lesson objective
- discuss the importance of messaging apps

1 Language in context

A **Pair work** Look at the photo and the title of the article. What are the people doing? Where are they? Read and check your answers.

More than just an app

We use messaging apps all the time – to **keep in touch with** family, **catch up with** friends, **congratulate** people on special events, **respond to** invitations, and even **gossip** about our favorite celebrities.

But for migrants who leave their families behind in search of a better life, messaging apps provide the best (sometimes the only) way to **inform their families of** their progress. Many migrants have limited resources, but their relatives **persuade** them to buy a device. Refugee camps often provide charging stations. International charities such as Greenpeace **reported** that use of their stations had increased greatly.

Some recent immigrants to the U.S. **commented** that WhatsApp had eased their sense of isolation. One new arrival **explained** that the app allowed him to **contact** his family: "I tell them about things I wouldn't have **mentioned** in a once-a-week phone call, and they can **reply to** me at once. You feel they are really close."

For most of us, messaging apps make daily life easier and more fun, and we even **criticize** people for using them too much. For some people, however, they are an absolute lifeline.

Glossary
lifeline (*n*) something that you depend on to live your life

B Circle the correct phrase to complete the statements.

7.4 The emoji code

Lesson objective
- write an email in a formal and an informal register

1 Reading

A **Pair work** Look at the pictures. In what contexts do you think the emoji and hashtag were used? In what situations do people generally use emojis, hashtags, and abbreviations (e.g. OMW)?

The #Paris might be to promote tourism.

B **Read for main ideas** Read the article from a student website and take notes. What is Dr. Patel's main argument? What is Prof. Yilmaz's main argument?

IT'S A #WORLD

We all know that languages grow and change over time, new words are added to the dictionary, and old ones are removed. But what do we do with things like emojis and hashtags? They help us communicate, but are they language? We asked two professors for their opinions.

Arundhati Patel, professor of linguistics, says yes. "Emojis are language because when you send a 😀 or a 😭, your message is immediately clear. Modern communication symbols are like body language – they help you express yourself."

Daniel Yilmaz, professor of English, disagrees. "There is a reason that the English language has more than 100,000 words in common use," he said. Real communication is complicated.

Symbols reduce our thoughts to simple personal opinions: #IhateMondays, 😣. Language, on the other hand, expresses deeper thoughts and complex ideas.

"But most of our daily communication needs are simple," Dr. Patel pointed out, "so why not satisfy them simply?" Prof. Yilmaz believes this "simplicity" is actually laziness. On most phones, for example, emoji menus come up automatically, so people take the easy road.

Dr. Patel and Prof. Yilmaz agree on one thing: hashtags are not language, they are politics. They unite people around ideas and attitudes.

So the debate continues. Do these modern communication symbols belong in the dictionary or not? Do we really have to decide? 🤔

C **Identify opinions** Read the article again and answer the questions.

1 Why does Dr. Patel think modern communication symbols are the same as language? What comparison does he make?

2 Why does Prof. Yilmaz claim emojis are not language? What does he think of emoji menus on smartphones?

3 What do the two professors agree on? What is their shared opinion?

D **Pair work** **Think critically** Do you think symbols help people communicate better? Why or why not? Use your phone to find examples of emojis to support your view. For ideas, watch Andrea's video.

8.1 The perfect job?

Lesson objective
- discuss different work lifestyles

1 Language in context

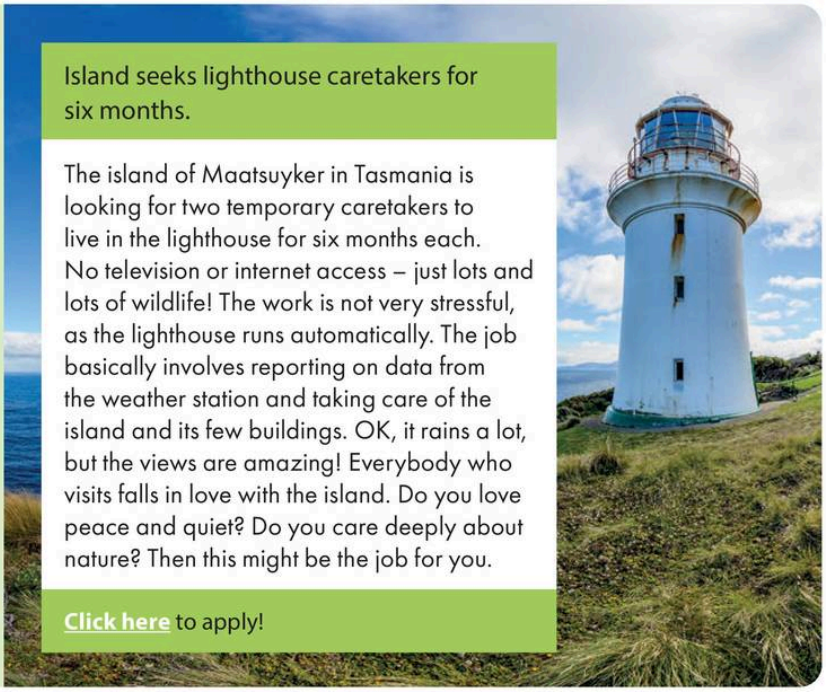
A Look at the photo and its caption in the social media post below. What job is the ad for? Read the full post. Is the writer interested in applying for the job? Why or why not?

Just saw this job ad online! Not sure if it's my dream job or my worst nightmare! 😂

My first reaction was just "How cool!" Can you imagine living on an island and being cut off from the rest of the world for six months? That would be living the dream, right?

But then I started thinking about it some more and I'm not so sure I could do it! If I was single and didn't have three kids, I might think about it. But I do have a family, so I need a permanent job – preferably a high-paying one! (Hey! I've got bills to pay!)

What about you? If you were free to do it, would you apply? Remember though, if you got the job, there would be no internet or TV for six months. Think you could stand it?



Island seeks lighthouse caretakers for six months.

The island of Maatsuyker in Tasmania is looking for two temporary caretakers to live in the lighthouse for six months each. No television or internet access – just lots and lots of wildlife! The work is not very stressful, as the lighthouse runs automatically. The job basically involves reporting on data from the weather station and taking care of the island and its few buildings. OK, it rains a lot, but the views are amazing! Everybody who visits falls in love with the island. Do you love peace and quiet? Do you care deeply about nature? Then this might be the job for you.

Well, being a babysitter is probably a part-time job. It isn't very high-paying and it can be challenging.

If you **were** free to do it, **would** you **apply**?

If I **was** single and **didn't have** three kids, I **might think** about it.

If you **got** the job, there **would be** no internet or TV for six months.

In formal language, use *were* for all subjects, including 1st and 3rd person.

If I **were** selected, I would devote myself to it.

In informal language, you can use *was* for 1st and 3rd person subjects.

If I/she **was** feeling better, I/she would go.

1 The sentences refer to **real** / **imagined** situations.

2 Look at the **bold** verbs. The verb form that follows *if* is **simple present** / **simple past**. It **refers** / **doesn't refer** to a past situation.

B Now go to page 139. Look at the grammar chart and do the grammar exercises for 8.1.

C **Pair work** Complete the questions with the correct form of the verb in parentheses ( ). Ask and answer the questions with your partner.

1 If you _____ _____ (can do) any job in the world, what job _____ you _____ (choose)? Why?

2 _____ you _____ (consider) doing a job you loved if you _____ (not be) paid well? Why or why not?

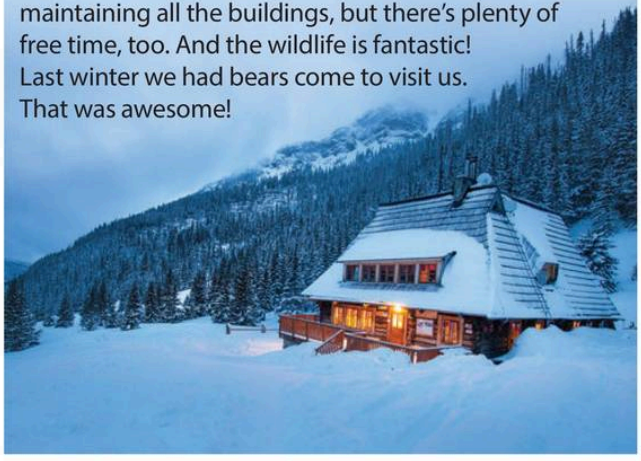
3 What _____ you _____ (do) with your free time if you _____ _____ _____ (not have to) work?

4 Speaking

A Read about two more jobs. How are they similar to the lighthouse caretaker job?

Resort caretaker

In the summer we work with the tourists, but in the winter, it's just my wife and me. It snows a lot and the mountains are beautiful. There's a lot of work to do maintaining all the buildings, but there's plenty of free time, too. And the wildlife is fantastic! Last winter we had bears come to visit us. That was awesome!



Drone pilot

I'm working with a team to help study seabirds. Using drones, I get amazing photos of the birds in their nests with their babies. The scientists who run the project come about once a month, but mostly we have the island to ourselves. Our housing and food are pretty basic, but I'm learning a lot, and getting college credit!

B **Pair work** If you had to choose one of the three jobs in this lesson, which one would you choose? Why? What do you think daily life would be like?

If I was the resort caretaker, I'd have a lot of free time to do all kinds of snow sports.

If a drone pilot was a high-paying job, I'd pick that one.

8.2 I wish I had more me time!

Lesson objective
- talk about wishes and regrets

1 Language in context

A 8.02 **Listen to a psychologist discussing the problem of finding the right work-life balance. What solution does she suggest?**

B 8.02 **Listen again and read the script. Find at least three examples of things we associate with work and three things we associate with free time.**

8.02 Audio script

Have you ever said, "I wish I didn't have to work such long hours?" Whether you're an executive with one meeting after another, a full-time student attending **lectures** and **seminars**, or a parent who works the late **shift**, the problem is always the same – how can I have a life with such a **busy schedule**?

I hear it all the time: I wish I had more time for **family life**, I wish I hadn't promised to work this weekend, I wish I could take some **time off**, I wish I had more **me time**! There are hundreds of articles out there about how to balance work and life, but we need to stop seeing work and life as two opposing forces that we have to balance. We need to think about how to *combine* them.

Take this example: a client of mine now schedules **downtime** into his working day. He takes a short walk, has a relaxing lunch with a friend, or goes home a little early to spend time with the kids. Then, after they're asleep, he sits down and writes that report he needs for tomorrow.

Making your job and your life work together is a great way to enjoy them both.

C Pair work **Do you think it's a good idea to combine your work or school life with your social life? Why or why not?**

2 Vocabulary: Talking about time management

always connected	assignments	busy schedule	chilling out	commitments
downtime	family life	lectures	me time	office hours
seminars	shift	social life	time off	9-to-5

Commitments: I guess that could be work, school, or home life. Let's put it in the middle.

B Now go to page 153. Do the vocabulary exercises for 8.2.

C Group work **Do you feel you have a busy schedule? Do you get enough downtime? Is your downtime also "me time"?**

3 Grammar: *I wish*

A Look at the sentences in the Grammar box. Then circle the correct option to complete the rules.

I **can't take** any time off next week.	→	I wish I **could take** some time off next week.
I **promised** to work this weekend.	→	I wish I **hadn't promised** to work this weekend.

1 *I wish* sentences express that you want things to **stay the same** / **be different**.
2 The main verb of the sentence **stays in the same tense** / **changes tense**.
3 Affirmative statements **change to negative** / **stay affirmative**.
4 Negative statements **change to affirmative** / **stay negative.**

B Now go to page 140. Look at the grammar chart and do the grammar exercises for 8.2.

2 I wish I could _____
3 I wish I wasn't/weren't _____
4 I wish I didn't have to _____
5 I wish I hadn't _____
6 I wish I had _____

I hope you'll be there on Saturday.

Use ***wish*** to talk about a situation you can't change.
I wish you could come on Saturday, but I know you have to work.

4 Speaking

A Great! My boss just scheduled a Zoom meeting for Saturday. He's always doing this – scheduling meetings on the weekend!

B Too bad, Laura. **Is there any way you can** get out of it?

A Well, I guess I could suggest another day. That Saturday is really difficult for me, I have a family commitment … And, you know, it's not the first time this has happened!

B **Have you tried talking** to your boss? **If I were in your shoes**, I'd explain the situation and offer an alternative. I mean, it **can't hurt**, right?

A I guess I could, but what's the alternative? I think I'm just going to say no! No more remote meetings on weekends or in the evening – it's too much!

B Good idea to stand up to him. But **you might** also **want** to suggest meeting up on Monday morning to catch up, or **maybe you could** offer to attend face to face instead? **I'd try that if I were you**.

A Yeah, I guess. I could ask him if we can meet in the office on Monday to show I'm willing, you know …

B **It wouldn't hurt** to say that. I mean, **you've got nothing to lose**!

A Yeah, that's a great idea. I'll text her now. Thanks!

2 Real-world strategy

A 8.06 **Listen to two short conversations. What's the situation in each?**

Offering a warning

Sometimes you want to encourage someone not to do something.

You don't want to do that!
I wouldn't do that if I were you.
You might not want to do that.
I'd avoid that if I were you.

B 8.06 **Read the information about warnings in the box and then listen again. What warning is offered in each conversation? What advice is given?**

C Pair work **Read each statement and discuss why it's a bad idea. What warning would you give? What would you suggest instead?**

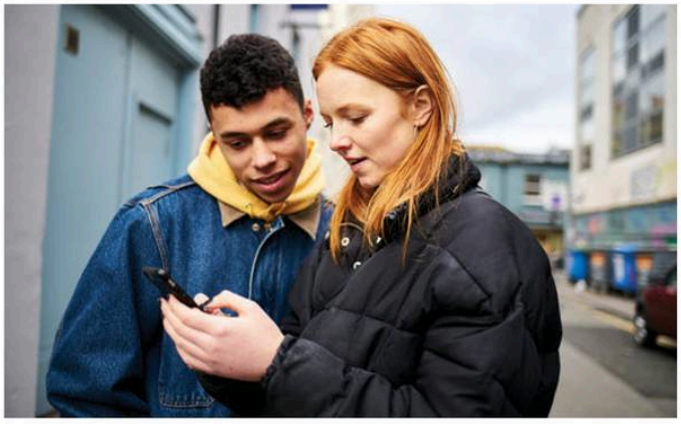
1 Listening

A **Pair work** Look at the photos. How are the two situations different? Which one do you think shows a more positive use of mobile technology? Why?



B 8.10 **Listen for attitude** Listen to an extract from a podcast about mobile technology. What is a "digital detox"? How do Tim and Kayla feel about the idea? Would you ever consider a digital detox?

C 8.10 **Pair work** Read the extracts. Who do you think said each one? Write *T* (Tim) or *K* (Kayla). How do you know? Listen again to check your answers.

4 What's wrong with sharing? ___
5 It's so important that we know what's going on in the world. ___
6 I could be doing something better. ___

Insider English

The phrase ***not for a million dollars*** is often used to show strong dislike for an idea.

I'd never give up my phone – **not for a million dollars**!

D **Think critically** Who do you agree with more? Do you think people need to learn how to control their use of digital devices? Is a digital detox the best way? Can you think of others?

Comments

1 I really enjoyed listening to this week's podcast. Good for you, Tim, trying a digital detox! It's something I've often thought about doing because I do spend way too much time just looking at a screen. If I had the time, I'm sure it would do me good. There was one thing in particular that interested me in your conversation. When you were talking about sharing photos, it made me think of how I use social media to keep in touch with friends and family that I don't get to see that often. I don't think I'd be as good at keeping in touch if I didn't have social media. Do you think social media might actually help us have better social relationships? And, as Kayla said, it is important to keep up with what's going on in the world. Looking forward to hearing your opinion!

2 Hi there. Thanks for leaving your comment. That's a really interesting question. You point out that social media makes it easier to keep in contact with friends and family, but it can also be distracting and, well, superficial. Personally, I think face-to-face contact with people is always better, and nothing beats spending time with someone. But if they live in another city or country, then I guess maybe phones and social media do help a lot. I wonder what other people have to say about that!

B Writing skill **Look at the two comments again. Underline the phrases that reference another person's statement or opinion.**

C Pair work **Read the comments again. Do you think phones help us to have better social relationships? Why or why not?**

Write it

D **Write a response to the two comments. Remember to 1) refer back to both the question and the answer, 2) make a positive reference to the podcast, and 3) invite other opinions on the topic.**

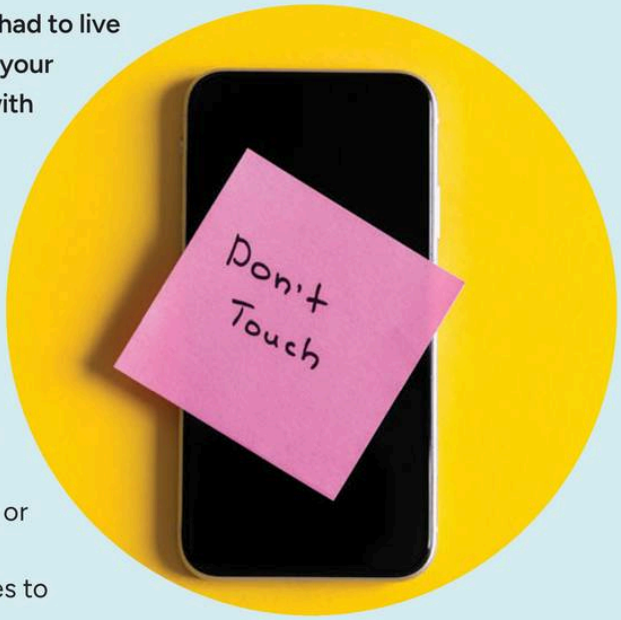
8.5 Time to speak

Planning a digital detox

Lesson objective

- plan and discuss a digital detox weekend for your class

A **Discuss** As a class, discuss this question: If you had to live without your phone for a week, how would that affect your day-to-day life? Think of all the things you usually do with your phone. What would you miss the most?



B You and a partner are going to arrange a digital detox weekend for your class. Think of the answers your classmates gave. Who do you think would struggle the most with the detox? Why?

C A TV company is going to sponsor your weekend and make a documentary about the experience. Think about these things:

- Where could you hold the detox? Think of places in or near your city.
- What facilities would you need? Think of alternatives to digital devices, for example, a gym or a library.
- What activities would you like to offer? How could you help people when they're missing their phones? Think of a variety of different activities for both daytime and evening hours.

There are some big houses by the beach. We'd need lots of bedrooms but just one kitchen. A gym would be great, and if we had a library, people could still read, just not on their tablets.

D **Decide** Create a plan for the weekend. Include this information:

- the different places where the activities will take place
- what to bring and who to invite
- morning, afternoon, and evening activity choices for the full three days

E **Present** Present your program to the class. Answer any questions from the audience.

F **Agree** Which pair of students has planned the best program? Why do you think so?

9.1 Reading the signs

Lesson objective
- talk about rules and regulations in your everyday life

1 Language in context

A 9.01 **Pair work** Look at the signs. What do you think they mean? Listen to two people discussing some of the signs. Check (✓) the ones they mention. Were you right about their meanings?

A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G ☐ H ☐ I ☐

9.01 Audio script

Bart So many signs everywhere! *No parking. No skateboards. No entry* ...

Luisi There's one saying you aren't supposed to bring your pets inside. And there, you *are* allowed to bring your guide dog inside.

Bart And look there! You're required to wear a hard hat on the **construction site**.

Luisi That makes sense, but I've noticed some strange ones recently. Outside the **arts center** one said you aren't allowed to wear a hoodie inside! I think it's so someone can't hide their face – the security cameras should be able to see you clearly.

Bart Oh, I get it. I saw a cool sign at **city hall**, just outside the **courthouse**. It's a pair of hands and a speech bubble. It means that you may request a sign language interpreter if you need one.

Luisi Hey, that *is* cool! Oh! I saw a great one on the sidewalk. It was two people walking and looking down at their phones.

Bart Looking at their phones? Oh, I get it! So they aren't looking where they're going?

Luisi Yes, that's exactly it. Crossing the road with their phones in their hands. I mean, how dangerous can you get!

Bart Tell me about it! They should put that sign up everywhere.

9.2 Rules of the road

Lesson objective
- discuss rules and regulations in the past

1 Language in context

A Look at the signs. What can you see in each one? What traffic rules are represented? Imagine driving in a city where there were no traffic rules. What would happen?

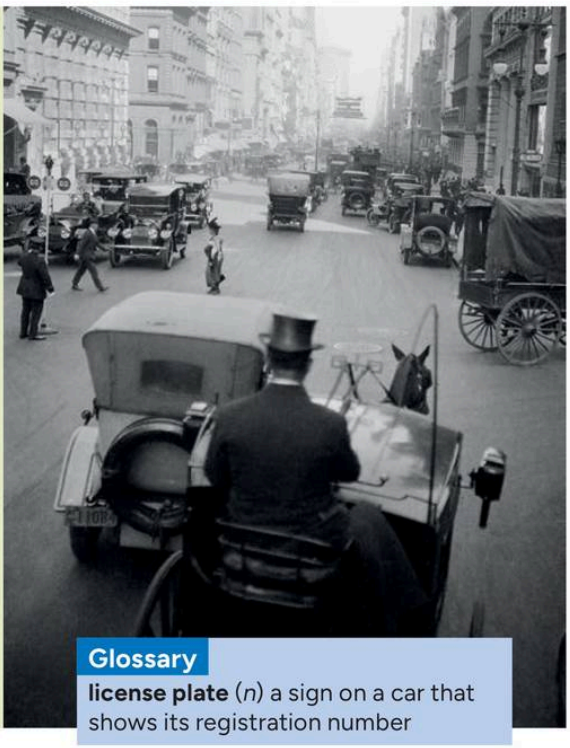
B Read this article about William Eno. What's the connection with the signs above?

Stop and **Go**

Before cars were invented, horse-drawn carriages were allowed to circulate freely. There were no signs to **control** traffic and no speed **limits**. As cars started to appear on the streets, rules that would **permit** traffic to flow safely were desperately needed.

In 1903, William Eno published "Rules for Driving" – the first official traffic code. Drivers had to drive on the right, they were supposed to show other drivers when they wanted to turn, and they were **prohibited** from parking on the left. His greatest innovations were the traffic circle and one-way streets, which **obliged** all traffic to travel in the same direction. He also helped introduce crosswalks to protect pedestrians. At the same time, new laws **required** vehicles to be **registered** and have license plates and also **banned** drivers under sixteen, though drivers did not have to take a driving test until 1934.

The most curious thing about Eno, the father of road safety, was that he never learned to drive a car!



Glossary
license plate (*n*) a sign on a car that shows its registration number

C Read the article again. Check (✓) the statements that you can infer from the text. Find information in the article to support your answers and <u>underline</u> it.

- ☐ **1** Before cars, there were very few problems with traffic in big cities like New York.
- ☐ **2** There was no traffic code before cars.
- ☐ **3** Eno's "Rules for Driving" included more than just rules for drivers.
- ☐ **4** Eno was not physically able to drive a car.

2 Vocabulary: Talking about rules

Eno's rules said that drivers **had to** drive on the right.

Pedestrians **were required to** cross at the crosswalk.

1 To express prohibition in the past: *couldn't*, _____

B Now go to page 141. Look at the grammar chart and do the grammar exercises for 9.2.

C Group work Write three rules from your childhood. Use three different structures from the grammar box, and check your accuracy. Read your rules to the group. Whose parents were the strictest?

Cars are allowed to park here. (= city regulations allow cars to park here)

4 Speaking

A Group work Read the laws. Three of them were real laws in the past. Which is the fake law? Why do you think people passed the real laws?

1 You couldn't drink soda on Sunday.

9.3 To tip or not to tip?

Lesson objective

1 Functional language

A 9.04 **Pair work** Look at the photo. Where is the person? How much money do you think they're giving? Listen to Charlie and Júlia talking about tipping in the U.S. Is it similar in your country?

9.04 Audio script

A I'll pick up the check if you leave the tip, Júlia.
B OK, thanks, Charlie. But how much should I leave?
A Well, **generally speaking** we leave 20%.
B Really? That much? In Brazil, people don't **tend to** tip nearly as much as that. Oh! Should I tip in cafés as well, and fast food places?
A If there's no table service, we **generally** tip a little less, maybe 10%. We usually add the tip on the card when we pay.
B I've seen that in Brazil, too. What about taxi drivers? Are you required to tip them?
A Required? No, not really, but, **on average**, people tip 10–20% of the fare.
B Twenty per cent! Wow, all these tips must get expensive!
A Well, you know, **on the whole,** service jobs don't pay well, so people in the service industry really rely on tips to make a living.

B Complete the chart with the **bold** expressions from the conversation.

Making generalizations

Generally [1] _____ , (we leave 20%).
People don't [2] _____ to (tip so much).
We [3] _____ (tip a little less).

On the [5] _____ , (service jobs don't pay well).

! Use *on average* with a number or quantity.
On average, people tip drivers 10–20% of the fare.

C Complete the generalizations using a phrase from the chart. Are they true in your country?

2 People _____ to tip more in nicer restaurants.
3 _____ , service industry workers don't depend on tips.
4 People _____ don't tip taxi drivers unless it's a long journey.
5 _____ , people tip around 10% in restaurants.

2 Real-world strategy

A 9.05 Listen to Júlia and Charlie discussing two other cultural differences. What are they?

Contrasting information

When you want to contrast cultural information, you can use several different expressions.

We don't tip nearly as much as that.
Really? We don't do that where I come from.
We don't do it that way in my country.
We do things differently back home.
We handle tipping differently where I come from.
That's not how we do / say it in (Portuguese).

B 9.05 Read the information on contrasting information in the box and listen again. What phrases does Júlia use to contrast their customs?

C Pair work Look at these common customs in the U.S. Are they the same in your country?

1 The waiter refills your coffee cup at no extra charge.
2 The national anthem (national song) is played before every professional sporting event or game.
3 On an escalator, people stand on the right side and walk on the left side.

3 Pronunciation focus: Saying /d/ at the beginning of a word

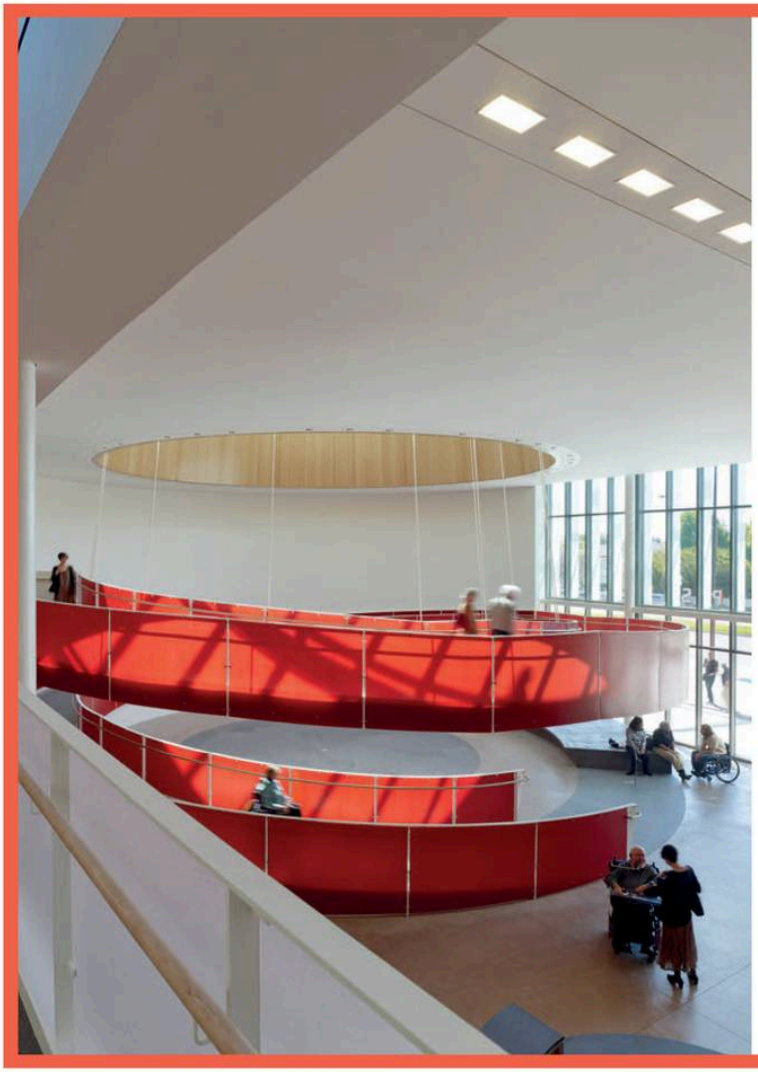
1 Reading

A Read for gist **Look at the photo in the article. What is the red structure? In what ways is it useful? Read the article to check your answers. Then choose the best title for the article. Why is it the best?**

a Ed Roberts and the independent living movement
b A short history of wheelchair ramps
c Student life at the University of California



Ed Roberts was the first student with significant disabilities to be allowed to attend The University of California at Berkeley. It was the 1960s, and there was no access for wheelchairs on campus. Roberts and other disability activists fought for access and even built their own ramps in the middle of the night so that wheelchair users could enter university buildings independently.

Thanks to the work of Roberts and other disability activists, the first Center for Independent Living was founded in Berkeley in 1972. It offered support for disabled students, and was staffed by people with disabilities who had personal experience of fighting for equal access. There are now more than 400 centers around the United States.

Over the next 20 years, the independent living movement grew in number and strength. In 1990, the Americans with Disabilities Act was passed. This law requires all businesses and institutions to provide access to wheelchairs, which opened up a world of new opportunities. After Roberts died in 1995, a nonprofit organization called the Ed Roberts Campus was founded in his memory. The Campus facilities provide community meeting rooms, offices for non-profit organizations, and many other community-focused services. One of its most recognizable features is the famous red ramp.

There are still battles to be won, however. Wheelchair users are still fighting for their right to equal access. A ramp may seem like a very simple thing, but it's a powerful tool in supporting independent living.

2 Writing

A Read this message that a customer left for a restaurant owner through the contact form on their website. What was the problem? What does the customer want to do? Why?

Your message:

Last week I visited your restaurant. It was the first time I'd visited, and I was excited about going. I use a wheelchair, so building access is always a worry and going anywhere new means doing some research first. But things looked good. Fortunately, your website showed a ramp leading up into your entrance so I was confident I could get in.

And, in fact, I got up the ramp and entered the front door without any trouble. Disappointingly, inside there's a step down to the dining room. It's just one step, but it may as well have been a wall. Embarrassingly, I had to ask your staff for help, and soon all eyes in the restaurant were on me. Happily, from then on everything was wonderful. We enjoyed a delicious meal and great service.

I imagine you're aware that there's a law that requires your business to provide access to wheelchair users. I represent an association that helps businesses make simple changes so that they meet the requirements of the law. I'd be happy to meet you at your restaurant to go over some ways to make your business more accessible to people like me.

I look forward to your reply.

- What are you required to do at work or school that you think you shouldn't have to do? Why?

Young people are generally allowed to stay out later than I was. I don't think it's a good change because it can be dangerous to be out late at night.

At school, we're required to sign the attendance list at the beginning of each class. I think we should choose which classes we want to attend.

10.1 Accidental discoveries

Lesson objective
- speculate about events in the past

1 Language in context

A Look at the photos. How are they connected? Read the article and check your answers.

ACCIDENTAL DISCOVERIES

Sometimes the greatest discoveries happen completely by chance.

X-rays

In November 1895, German physicist Wilhelm Roentgen **noticed** a strange **phenomenon**. A screen in his lab was lighting up for no apparent reason. He observed the screen and **made a connection** between an experiment he was working on involving electrical currents in a tube and the light on the screen. He started placing objects between the tube and the screen to block the currents, but still the screen lit up. Then he accidentally put his hand in the way. Amazingly, a picture of his bones appeared on the screen. If he hadn't placed his hand in front of the tube, he wouldn't have discovered x-rays!

The underground city of Derinkuyu

In 1963, in the Cappadocia region of Turkey, a man decided to knock down a wall in his basement. To his surprise, he found a tunnel behind it. This tunnel led to more tunnels and then to hundreds of underground rooms. By chance, he had discovered a city hidden below ground. Archaeologists quickly moved in to explore the city, known today as Derinkuyu. Through their studies, they gained **knowledge** of the ancient people who built Derinkuyu and developed **insights** into their lives. If the man hadn't knocked down his wall, the city would have remained a secret.

10.2 It was so embarrassing!

Lesson objective
- talk about alternatives and possibilities

1 Language in context

A 10.02 **Look at the photo of two people meeting. What do you think could go wrong in this situation? Listen to a life coach talking about the experience on a podcast. What mistake did he make? What advice does he share?**

10.02 Audio script

We all **make mistakes**, it's part of what makes us human. And **getting things wrong** isn't the end of the world. Although it may feel like it at the time!

I remember with horror my first day at a new job. My boss came up to me when I was at the water cooler. When I went to shake her hand, I threw water all over her! I was so embarrassed.

It was completely my **fault**. I should have put the cup down. But I guess it could have been worse. It could have been a cup of coffee! Luckily my boss had a sense of humor. Once the **confusion** was over, she saw the funny side. She **blamed** it on first day nerves and made me feel much better. In fact, I think it might have helped to break the ice!

So, remember, if you make an embarrassing mistake, don't panic. Take a deep breath. Think, what can I do to **make it right**? Apologize, clear up any **misunderstandings** if necessary, **fix the problem** if you can, and make a note to avoid making the same **blunder** in the future!

B **Circle the correct option to complete the statement.**

Would is often weak when the word before it ends in a **consonant** / **vowel** sound.

3 Writing

A Read the comment that was left on the podcast's website that expresses opinions about other inventions. How does the writer say we should judge whether an invention is good or bad?

INVENTIONS PODCAST Listen Now

Comments

I enjoyed yesterday's show about the best and worst inventions. Both your guests had interesting points, but I think I agree more with Renato. He seemed more interested in an invention's impact on the planet and on society, whereas Paula seemed more interested in whether an invention made her life easier.

Personally, I think the worst inventions are the ones that harm the planet or society, even if they also happen to be really convenient. Cars definitely fit that category. Similarly, I would say that Styrofoam is a terrible invention.

Good inventions, by contrast, are ones that improve society or help the planet even if they create a little more work for us. Subways and other forms of public transportation are good examples. Sure, they might not always be as convenient as driving your own car, but they're way better for the environment.

What would life be like without it (or if it had never been discovered or invented)? Think of at least five differences, both positive and negative.

D **Present** Share your ideas with the class. One of you summarizes your discovery or invention, and the others each describe one way it changed human history.

E **Agree** As a class, discuss the ideas presented. Which invention or discovery do you all think has had the greatest effect on human history? Is that effect mostly positive or mostly negative? Why do you think so?

11.2 Folk remedies

Lesson objective
- discuss scientific facts

1 Language in context

A 11.02 A folk remedy is a medical treatment from long ago. Look at the photos. What folk remedies might be connected to these foods? Listen to part of a podcast discussing folk remedies. Were you right?

11.02 Audio script

Host So, Dr. Wendt, are folk remedies usually based on **scientific** fact or are they just snake oil? For example, do carrots really help you see better at night?

Dr. Wendt Not all folk remedies are backed up by real **science**, but that one is. Our **research** shows that the vitamin A in carrots can sharpen night vision. It's been **scientifically proven**.

Host Great. So, is it also true that honey calms a cough and lets you sleep at night? I'd say yes to that one. I swear by it!

Dr. Wendt You're right! It's true. **Medical researchers** have tested this, and there is **proof** that honey can be as effective as most cough **medicines**.

Host So, my tea with honey is **medically approved**! That's good to know. OK, here's one from a listener: Does eating cheese before bed cause nightmares?

Dr. Wendt I'm afraid there is no scientific **basis** to support the idea that cheese makes people have bad dreams. But a heavy meal, with or without cheese, may disturb your sleep or make you remember your dreams more clearly.

B 11.02 Listen again and read. What does science say about each of the folk remedies?

Insider English

We use the term ***snake oil*** to dismissively refer to something that does not give the positive results that it promises. The term originally referred to fake medicines, but it's now used for any product that does not deliver the benefits it claims.

2 Vocabulary: Talking about science

A 11.03 Look at the **bold** words in the audio script and complete the chart. One word can be used twice. Listen and check.

abstract noun	verb	person	adjective	compound adjective
_____		scientist	_____	_____
_____	research	_____		research-based
_____	prove		proven	_____
base/_____	base		based (on facts)	science-based
_____			medical	_____

B Now go to page 156. Do the vocabulary exercises for 11.2.

Find it

C **Read some questions sent in by listeners of the full podcast. Do you know the answers? How could researchers test these ideas? If you can, use your phone to do some real research!**

1 You said that people with red hair feel more pain. Is that a medical fact or an assumption based on reports from red-headed people?

2 Has research proven that it is better to wear dark-colored clothes in very hot, sunny places? It seems like light colors would be better.

3 I've read that some people (like taxi drivers, for example) are naturally better at navigation. Is there any scientific basis for that claim?

3 Grammar: Causative verbs *help, let, make*

A **Look at the sentences in the Grammar box. Then circle the correct option to complete the rules.**

Grammar Causative verbs *help, let, make*

Carrots **help you see** better at night.
Honey calms a cough and **lets you sleep** at night.
Cheese **doesn't make people have** nightmares.

1 The verbs *help*, *let*, and *make* are used to talk about the effect caused by **something or someone else** / **our own actions**.

2 Causative verbs are usually followed by ***to* + verb** / **verb without *to***.

3 The object (*me, you, him, people*, etc.) goes **between** / **after** the two verbs.

B **Now go to page 144. Do the grammar exercises for 11.2.**

C Pair work **Use the words to form questions. Check your accuracy. Then discuss the questions with your partner. Think of at least three answers for each one.**

1 What / you're studying / stay awake / can help you / when

_____ ?

2 sometimes / sleep at night / don't let / What problems / you

_____ ?

3 feel / makes / you / more relaxed / What / if you're stressed

_____ ?

4 Speaking

A Group work **Read the statements. Do people in your culture have the same beliefs? Which do you think might be based on real science? Why?**

- Eating bread crusts will make your hair curl.
- Eating oily fish helps you study better.
- If you go outside with wet hair, you'll catch a cold.
- Counting sheep helps you fall asleep.

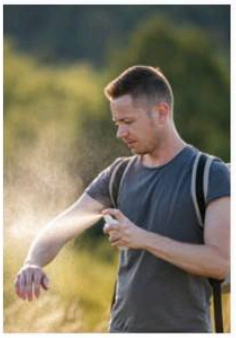
11.3 Can you suggest an alternative?

Lesson objective
- discuss alternatives and give recommendations

1 Functional language

A Look at the photos of different kinds of mosquito repellent. Which ones have you tried? Can you think of others? Which ones do you think are the most effective? Why?

B 11.04 Listen to a conversation between a pharmacist and a customer. Which repellent does the pharmacist recommend? What does the customer choose?



11.04 Audio script

A Hi, I'm looking for a good mosquito repellent.

B Ah, yes. This one is scientifically proven to last at least eight hours. And this one's always worked well for me.

A Maybe not a spray. I don't think they're very healthy. **Can you suggest an alternative?** Do you have anything more natural?

B Well, **another option would be** these patches. They're 100% natural. Here, smell this. Can you smell the citronella?

A Yes. **That looks like a good alternative.** Do you put the patches on your skin?

B No, you put them on your clothes, or, for example, on the bed at night.

A No, **I'm looking for something different.** I mean, something you can actually wear.

B Well, we have these wristbands. **They're a good alternative**. They're 100% natural and should be effective for up to 12 hours. But **I don't think they're a great choice** for nighttime. I mean, you shouldn't wear them while you sleep.

A I see, so I could wear the wristband during the day and maybe use the patches at night. **That could work.**

B Yes, that's probably your best option.

C Complete the chart with the **bold** expressions from the conversation.

Asking for options	Suggesting alternatives
Do you have anything else? 1 _____ ? 2 _____ .	You could also try … 4 _____ (these patches). 5 _____ .
Discussing disadvantages	**Responding to suggestions**

1 You want to go out for dinner, but you don't want to spend too much money.

2 You want to take up a new sport, but you don't have much free time.

We could try the food court at the mall. There's a good salad bar there.

2 Real-world strategy

Giving a personal recommendation

Use these expressions when you want to give a personal recommendation.

This one's always worked well for me.

If I were you, I'd choose/pick/go with ...

A 11.05 **Pair work** **Read the information in the box about giving a personal recommendation. Then listen to two short conversations. What are they talking about? Which expressions in the box do they use?**

1 Topic: _____

2 Topic: _____

B **Pair work** **Think of a time when you gave a personal recommendation to someone. What was it for? What was your recommendation? What were your reasons for it?**

Register check

When giving advice, avoid using imperative statements. Use *I* (the first person) to show that you respect the other person's perspective and don't want to force your opinion on them.

~~Buy this one. It's the best.~~

I've always had good luck with this one.

3 Pronunciation focus: Stressing long words

A 11.06 **Listen and repeat. How many syllables are in each word?**

1 scientifically ___
2 alternatives ___
3 disadvantages ___
4 situation ___
5 recommendation ___

B 11.06 **Listen again. Which syllable is stressed? Circle it.**

C **Pair work** **Say the words in exercise 3A with a partner. Practice stressing the correct syllable.**

4 Speaking

A **Look at the photos of headphones and prepare to perform a role play. Prepare for both roles by yourself (not with a partner).**

Customer: You want to buy some new headphones, but you're not sure which. Think about your needs and your style. Prepare some questions for the sales clerk.

Sales clerk: Think of some good points about each of the alternatives. Think about which product you would recommend to different people in different situations or with different needs.

B **Pair work** **Do the role play two times, once as the customer and once as the sales clerk. Then do a new role play using your story from exercise 2B or a new idea. You can be in a store or talking with a coworker or friend.**

11.4 Driverless cars? No, thanks!

Lesson objective
- write a comment presenting an argument

1 Reading

A Look at the photo. Do you think it shows a positive view of technology? Why or why not?

B Inferring attitude Read the opinion piece on the role of technology in our lives. Which sentence best describes the writer's attitude?

a Technology is ruining our lives, so we should reject it in favor of real experiences.

b Technology will reduce our ability to experience life's pleasures if we're not careful.

c Technological developments are good only if they make life easier.

Embrace the technical revolution?

No, thanks!

Dishwashers, cell phones, the internet, AI assistants – all great inventions that make life easier, more comfortable, and more fun. But when technology goes too far, it automates experiences and takes the enjoyment out of life.

Take driverless cars. Or in my case, don't take them! I love driving my car – even after I switched to electric. I love to feel the wheels respond to my touch. I love to drive long hours on empty roads, with my hand hanging out the window, feeling the wind between my fingers. I don't want the car to drive me, and half the American population are with me on this.

Another example of unwanted technology takeover is robot waiters. Do you really enjoy having your meal served by a machine? I can see it might appeal to children. It can be fun the first couple of times, but then it gets boring. I miss the human touch – the shared smile, the pleasant banter, the thoughtful attention. Robot waiters are becoming more and more popular in restaurants all over the world. A lot of customers aren't happy, and neither are the staff, who are losing tips and making less money.

In the world of entertainment, people once worried that live streaming would kill live events. Statistics show, however, that more and more people are attending live concerts and music festivals all around the world. The urge to share an experience, to feel the buzz of thousands of other people, is stronger than the lazy comforts of technological shortcuts.

Technology can, no doubt, make life a lot easier in many ways, but we need to make sure it isn't robbing us of the real pleasures that make life worth living.

Glossary
embrace (*v*) accept with enthusiasm
automate (*v*) use machines to do something
banter (*n*) light, funny conversation
buzz (*n*) excitement

C Identifying arguments Read the opinion piece again. What are the writer's arguments against the following examples of technology?

driverless cars robot waiters streaming live events

D Think critically Do you agree with the writer? Why or why not? Do you think she may be exaggerating? Why or why not? What are some other examples of technology that's "gone too far" in your opinion? Why do you think so?

2 Writing

A **Read a comment that was posted in response to the opinion piece. Does the writer generally agree or disagree with the original piece? Do you agree with the writer's arguments? Why or why not?**

Embrace the technical revolution? Yes, please!

First of all I'd like to say that, as much as I love technology, I think there are times when we need to get back to basics. Live music is so much better when you're there in person, and I may be old-fashioned, but I much prefer a paperback to an e-reader. But those are just my preferences, and I totally respect the fact that others may not agree with me.

Where I strongly disagree with the article is on the point of driverless cars. Research suggests that the use of driverless cars would help the flow of traffic, and **more importantly**, it could reduce the number of accidents significantly. **It's also important to remember that** driverless cars don't speed, they don't run red lights, and they aren't impatient. **Additionally,** they will help elderly people and the disabled travel independently. **And finally,** they're optional. If you really want to drive yourself, no one's going to stop you.

B Pair work Writing skill **Look at the bold phrases in the comment. Which are used for each purpose?**

1 to begin an argument: _____

2 to add a new argument: _____

3 to conclude: _____

Find it

C Pair work **Think of three arguments for and three arguments against robot waiters. You can use your phone to do some research. Which arguments do you think are the most convincing? Why?**

Write it

D **Follow the steps to write your own comment in response to the opinion piece.**

1 Choose a title:

Robot waiters? Yes, please! **Robot waiters? No, thanks!**

2 Choose the three points (for or against) you want to include from exercise C.

3 Read the opinion piece and the comment above again. Choose the transition phrases that work best for your points.

4 Write your comment. Write about 150 words.

E Group work **Read all the comments. Make a note of any convincing arguments. Then vote on whether you think robot waiters are generally a positive or negative innovation. Share your ideas with the class.**

11.5 Time to speak
Mediation

Lesson objective
- present a proposal to solve a problem

A Look at the photo. Where do you think this tree is? What problems might the tree cause for the people who use this area?

B **Prepare** The tree has grown too big, and the people in the building are going to hold a meeting to decide what to do about it. Divide into three groups to prepare for the meeting.

Group A: You like having a tree here, so you want to replace this tree with a smaller one. Think about arguments for having a tree near the building.

Group B: You think this area could be used for more useful purposes, like extra parking space. Think about arguments for other ways to use this space.

Group C: You are the mediators. You will listen to both sides and try to help them reach a compromise. Discuss possible arguments and suggestions you could make to keep both sides happy.

C **Discuss** Now make new groups of three, with one student from each group. Students from Group A and Group B put forward their arguments, and the Group C student mediates and tries to help the others come to an agreement.

D **Present** The Group C students report back on the discussions to the class. Listen to all the solutions. Who has the best solution? Take a class vote to decide.

12.1 Photo stories

Lesson objective

1 Language in context

A Look at the photos and read the stories about them. Match the people to the photos. What does each photo represent for them?

Gary, Trenton, New Jersey, U.S.A.

What I remember most about my childhood is my pet dog, Milo. Here, I'm 10 and in our backyard with him. I loved that **fresh** smell of grass. I can almost feel his **smooth** fur and **damp** breath now. (Sometimes it was pretty **stinky**, but I didn't care.) The thing I love about this photo is that it brings back all those **bright** summer days.

Sonia, San Miguel de Allende, Mexico

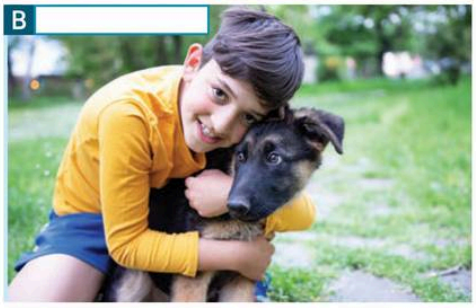
The air in my grandma's house was **scented** with spices. She baked all kinds of **flavorful** cakes decorated with **colorful** icing. The thing I liked most was licking the **tasty** icing off my fingers. She called me her "helper"! What I love about this photo is that it helps me remember our special relationship.

Alex, Kingston, Jamaica

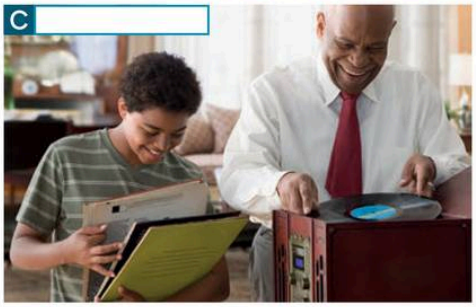
What I miss most about my grandpa are the hours we spent listening to music. This photo represents that for me. I remember his record cabinet had a **musty** smell, but I liked it. His hands were big and **rough**, but he handled those records so gently. He'd sing along with a **deep**, **melodic** voice. My voice sounded so **high-pitched** next to his!

A

B



C



B Pair work Which of the senses – touch, smell, taste, sound, sight – do the people mention? What do they talk about exactly?

Sonia talks about the smell of spices in the air.

2 Vocabulary: Talking about the senses

A 12.01 Complete the chart with the adjectives in **bold** from the stories. Then decide which adjectives describe a positive or negative sensation or neither.

Smell	Sound	Touch	Taste	Sight

B Now go to page 157. Do the vocabulary exercises for 12.1.

C Pair work Describe things you have experienced today using sense adjectives.

3 Grammar: Adding emphasis

Grammar Adding emphasis

What I remember most about my childhood **is** my pet dog, Milo.
The thing I liked most **was** licking the tasty icing off my fingers.

1 Use *What I or The thing I* + verb at the **beginning** / **end** of a sentence to emphasize an idea.
2 The thing you want to emphasize comes at the **beginning** / **end** of the sentence.

I was at the beach on vacation. What I remember about that moment was the salty smell of the sea and the fresh wind in my face.

B **Group work** Share your photos and stories with the rest of the group. Which ones involve the most senses?

12.2 Did that really happen?

Lesson objective
- discuss childhood memories

1 Language in context

A 12.02 **The title of this podcast is "Did it really happen?" What do you think it's about? Listen and check.**

12.02 Audio script

Has something ever **brought back** a **vivid** memory, but later you find out it never actually happened? Most people feel sure about the accuracy of their own memories of their own life. I know I do, but how trustworthy are our **early** memories really? Listen to David's story:

> "In 2nd grade, a new student, Nolan, arrived at my boarding school. We became friends, and he came home with me for winter break once because his family lived far away. I have a very **clear** memory of all this when I **look back on** it. Even today, the smell of burning wood **reminds me of** winter breaks spent sitting in front of the fire, especially the one with Nolan.
>
> Forty years later I met Nolan again. He didn't **recognize** me at first or remember much about that time. He had a **vague** memory of me, but he was positive that he had never stayed with my family. I was shocked!"

Our **long-term** memory can play tricks on us. Psychiatrist Rochelle Rivas explains:

> "The more often you **recall** a specific memory, the more distorted it becomes. It's like making a copy of a copy of a copy. That's why this only happens with **distant** or **childhood** memories, not with **short-term** or **recent** ones."

Do you have a false memory? If so, send us an email and tell us about it.

B 12.02 **Listen again and read. Circle the correct option to complete the sentences.**

1 Nolan and David **stayed friends** / **lost contact**.
2 Nolan and David recall their time together **the same way** / **differently**.
3 Dr. Rivas says that our long-term memories are **rarely** / **often** false.

C Pair work **Do you have a memory that other people say happened differently? What is the memory? Do you think people sometimes distort memories on purpose? Why or why not?**

2 Vocabulary: Describing memories

A 12.03 **Listen and say the words in the box. Categorize the words into adjectives and verbs. Which adjectives are opposites of each other? Which item is a noun used as an adjective?**

bring back	childhood	clear
distant	early	long-term
look back on	recall	recent
recognize	remind ... of	short-term
vague	vivid	

B Now go to page 157. Do the vocabulary exercises for 12.2.

! ***remind someone of***

You can use this phrase when a person or thing makes you think of another person or thing that is similar in some way.

You **remind me of** your mother. The two of you look so alike.

The mountains **reminded her of** the place where she grew up.

3 Grammar: Substitution and referencing

A **Look at the sentences in the Grammar box. Then circle the best option to complete the rules.**

Grammar Substitution

That reminds me of winter breaks, especially the **one** with Nolan.

Most people feel sure about the accuracy of their memories. I know I **do.**

Do you have a false memory? If **so**, send us an email.

Grammar Referencing

When you recall a memory often, **it** becomes distorted.

When you recall a memory often, it becomes distorted. That's why **this** only happens with distant memories.

1 To avoid repeating **a non-count / a count** noun, we can use *one/ones*.

2 To avoid repeating a verb or verb phrase, we can use the auxiliary verb for that tense. For example, in the present tense, we use **so / do**.

3 To avoid repeating a question, we can use **so / do**.

4 To reference a noun or noun phrase, we can use *it/them* for **specific things / whole ideas** and *this/that* for **specific things / whole ideas**.

B **Now go to page 145. Do the grammar exercises for 12.2.**

C **Pair work** **Read the conversation. Change the underlined words to substitutions or referents. Then check your accuracy.**

A Do you have a favorite childhood memory? If [1]you have a favorite childhood memory, tell me about [2]your favorite childhood memory.

B No, I [3]don't have a favorite childhood memory. But did I tell you about the time I met Harrison Ford?

A No, you never told me about [4]the time you met Harrison Ford! I love to hear celebrity-sighting stories.

B I know! I [5]love to hear celebrity-sighting stories, too! And I really like telling [6]celebrity-sighting stories.

Accuracy check

When substituting with *one/ones*, make sure the pronoun agrees with what it is substituting.

It happens with childhood memories, not recent ~~one~~. ✗

It happens with childhood memories, not recent ones. ✓

4 Speaking

A **Look at the photos. Do you remember doing these things as a kid? If so, what kinds of memories do they bring back for you?**

B **Pair work** **Discuss the questions.**

1 What things do you look back on most fondly – school days, family events, sports, vacations?

2 Think about a time when you met an old friend. Did you recognize each other? What did you talk about? Did you remember events from your past the same way or differently?

B Oh, OK. That [3] _____ _____ _____ . We were going to Cancún, right?

A Yes! And we had to wait, like, five hours for the next flight.

1 Listening

A **Pair work** Look at the photos. What are the dogs doing in each photo? What kinds of relationships do these animals have with people?

B 12.08 Listen to a debate about dogs. Who mentions the dogs in the photos, Kenan or Lucia? What do they say about them? Are their opinions positive or negative?

C 12.09 **Pair work** **Listen for examples** Both Kenan and Lucia use examples to support their arguments. Listen to the extracts and write the phrases you hear to introduce examples.

1 For instance, ... _____
2 _____
3 _____ _____ _____
4 _____
5 _____ _____ _____ _____
6 _____

D **Pair work** **Think critically** Who do you think made a stronger case? Why? What was the strongest point in their argument?

We liked Lucia's argument, but her point about service dogs wasn't relevant. The topic is about pets.

E What roles do dogs have in your culture?
Do you agree with those roles? Why or why not?
For ideas, watch Rita de Cássia's video.

Real student
Do you agree with Rita de Cássia?

2 Pronunciation: Listening for transitions

A 12.10 **Listen to the excerpts from the debate. Focus on the bold words.**

1 Team A argued that people shouldn't keep dogs as pets and Team B argued that they should. **To finish the debate**, we'll hear a summary of each group's position ...

2 All those jobs help people and they keep the dogs happy and active. So, **in conclusion**, we'd actually be helping dogs a lot more by keeping them as working animals ...

3 So, **to sum up**, there are many ways that dogs and humans help each other.

B **Circle the correct option to complete the statement.**

Speakers often say words with **more** / **less** stress and **higher** / **lower** intonation to mark a transition to a summary statement.

3 Writing

A **Read one student's summary of Lucia's side of the debate and his own response to it. Does he basically agree or disagree with Lucia's argument?**

> Lucia argues that dogs should be kept as pets, and she supports that argument with three points. She says that dogs are more predictable and reliable than people. While this may be true, the company of a dog isn't the same as the company of a person. So despite the fact that dogs are trustworthy, it's not a good argument for why we should keep them as pets. She also says that keeping a dog as a pet is good for children because it teaches them to be caring and responsible. However, there are lots of other ways to teach children responsibility. Finally, she points out that dogs help society as service animals for blind people or as police dogs. Although that's true, those dogs aren't pets. They're working dogs.

B Pair work Writing skill **Identify and circle the words and phrases used to link contrasting ideas in the summary. Then use the phrases you circled to link the ideas below.**

1 Dogs are cute. They should not be kept as pets.

2 Most dogs are predictable and friendly. Some dogs are unpredictable and dangerous.

Write it

C Pair work **Write your own summary of and response to Kenan's opinion. In your response, be sure to ...**

- mention points that you agree and disagree with.
- use appropriate language to contrast ideas.

D Pair work **Read another pair's summary and response. Did you include the same information? Do you agree with their response? Why or why not?**

The other pair didn't mention how dogs help children. We think that is an important and original idea.

12.5 Time to speak

Where were you when ... ?

Lesson objective

- recall and discuss a national moment

A Read the blog post about a memory. How does the writer describe the memory? Why do they call it a "national moment"?

I had the strangest experience today. I was surfing YouTube and I came across a clip of when León Marchand won his fourth gold medal for swimming in the 2024 Paris Olympics. Wow, I remember that so well! It was our home Olympics and the entire country was behind him. It was, you know, one of those amazing national moments, when everyone remembers exactly where they were when it happened. I was at my friend's house in Toulouse. What I remember most is how we were all literally yelling at the TV, cheering him on. And I remember being so excited because it was such a close race. But the thing is, I was watching the clip today and it wasn't actually close. I mean he won by nearly 1.5 seconds – which is actually a lot in an Olympic final!

Find it

B **Prepare** Think of a "national moment" from your country's history during your lifetime. It could be something from sports, politics, entertainment, or something else. You can use your phone to help you.

C **Decide** In small groups, share the national moments you thought of. Choose one and discuss your memories of it.

- Where were you when it happened?
- What do you remember most about the event?
- Does everyone in the group remember it the same way, or are your memories of the event different? If so, how? Why do you think they are different?

D **Present** Choose someone to present your group's national moment to the class. Describe it but don't say what it was, so the rest of the class has to guess. Does everyone in the class remember the event? Does anyone remember it differently?

Useful phrases
